Attention COVID-19 POCs:
Guidance for COVID-19 POCs and Supervisors
Regarding COVID-19 Testing Compliance System Enhancements

>>> COVID-19 POCs: Please ensure that all supervisors in your department receive this important message.

Recently, the COVID-19 Testing Compliance System has been enhanced to include a feature that enables testing program participants and COVID-19 POCs to upload test results from a non-County testing site. These employees receive detailed instructions in their weekly Monday testing system emails. For a sample of this email, please see the COVID-19 Testing Compliance System User Guide below.

Additionally, the system has been enhanced to enable COVID-19 POCs to override employees’ Bypasses in the system if they are inaccurate or need updating.

Below are resources to help you understand the COVID-19 Testing Compliance System and the recent system enhancements.
