Attention Testing Program Participants:

New Testing Option, Important Clarification, and FAQs

Mandatory Employee COVID-19 Testing Program

>>> COVID-19 POCs: Please ensure that all testing program participants in your department receive this important message.

New Testing Option
In addition to getting tested at a County-run testing site, you now have another testing option: You can take an FDA-approved COVID-19 test from a provider of your choice and then upload your test results into the COVID-19 Testing Compliance System. Carefully follow the instructions in the system email you receive at the beginning of each week for instructions regarding testing at non-County-run testing sites. For assistance using the system, refer to the COVID-19 Testing Compliance System User Guide.

Important OMS Clarification
There has been some confusion regarding how participants in the Mandatory Employee COVID-19 Testing Program should share their weekly testing results. Participants should not bring or email their test results to Occupational Medical Services (OMS). Instead, participants should carefully follow the instructions in the system email they receive at the beginning of each week.

Frequently Asked Questions
To help you further understand the program testing requirements, please refer to the latest Mandatory Employee COVID-19 Testing Program FAQs, which include questions such as what to do if your County test does not transfer to the system. These FAQs are updated on an ongoing basis and are posted online at www.montgomerycountymd.gov/EmployeeNewsCOVID19.

Important: The above information does not apply to the following groups: Judicial branch employees, FRS, DOCR, contractors, volunteers (including board members), interns, and participating agency employees.
