

## **Suspension of FY21 Tuition Assistance Program**

For over forty years, the County's Tuition Assistance Program (TAP) has provided many employees with financial assistance for their continuing education. The program provides a valuable opportunity for employees to pursue training and education related to their current job functions or career ladder in the same job series or profession.

Due to the impact of COVID-19 on the County's resources, TAP funds are on hold until FY21 revised spending plan discussions conclude. An update will be provided to all employees once recommendations are finalized.

*Note:* The program is not currently accepting applications, but notice will be given to all employees if the program begins to accept applications for FY21.
