## United at Work presentations

At UnitedHealthcare, our mission is to help people live healthier lives. That's why we offer United at Work, a health and wellness presentation series. Available 24/7, these United at Work presentations with audio were created to help educate, increase health risk awareness and encourage healthier behaviors.

Presentation Name/Link	Description
<a href="#"><u>Aging Well</u></a>	This presentation will review common conditions in addition to changes typically associated with the aging process. Also provided are tips to help minimize the effects of aging.
<a href="#"><u>Back for Health</u></a>	The Back for Health presentation will help viewers understand how to care for their back and spine. Content covered includes the anatomy of the back, common causes of back pain and preventive strategies for helping to maintain good back health.
<a href="#"><u>The Basic 8: Self Care Priorities For Managing Chronic Health Conditions</u></a>	This presentation is designed to support those who are managing a chronic health condition and want to learn more about how to identify and prioritize their self-care. The "Basic 8" self-care priorities will be defined and participants will learn how to apply the "Basic 8" in order to help better manage their healthcare needs.
<a href="#"><u>Choosing Care</u></a>	The goal of the Choosing Care presentation is to help individuals make more informed decisions about where they access care. This presentation will review care setting options, the services offered at the various care settings and the difference in cost between the care setting options.
<a href="#"><u>DASH Diet</u></a>	This presentation explains the Dietary Approaches to Stop Hypertension (DASH) eating plan and why it is important to consider when planning meals. Identifying the health benefits of the DASH eating plan and learning how to incorporate the DASH eating plan into a healthier eating routine are covered.
<a href="#"><u>Dietary Guidelines</u></a>	The Dietary Guidelines presentation focuses on weight management to address the prevention of a broad range of diet-related chronic diseases including Type 2 diabetes, heart disease and some cancers. This presentation will also cover guidelines for achieving a healthier eating pattern.

<a href="#"><u>Eating Mediterranean</u></a>	Eating Mediterranean covers the potential health benefits of the Mediterranean diet and lifestyle. Meal plans are also incorporated in this presentation.
<a href="#"><u>Ergonomics and You</u></a>	Ergonomics and You will help to define ergonomics and provide tips to help improve your work environment. Musculoskeletal disorders will be covered along with the cause, signs and symptoms of musculoskeletal disorders. Tips for the prevention of ergonomic disorders will also be provided.
<a href="#"><u>Everyday Nutrition</u></a>	This presentation will define nutrients and how our body uses them, explain why water is so important for our bodies, and review the power of fruits and veggies.
<a href="#"><u>Financial Well-Being</u></a>	The goal of this presentation is to help individuals better understand “financial well-being”, learn the signs of financial distress, understand the negative impact financial stress has on overall health and learn the five fundamentals of financial well-being.
<a href="#"><u>Get Up &amp; Go</u></a>	This fitness presentation highlights the many benefits that may result from daily physical activity and gives helpful hints for becoming more active.
<a href="#"><u>Health Insurance 101</u></a>	Defining healthcare terminology, understanding healthcare spending accounts, learning about preventive care and knowing the best place to receive care will be covered in this presentation.
<a href="#"><u>Healthy Dental Habits</u></a>	This presentation provides information on the connection between physical and oral health as well as recommendations for oral health hygiene. Additional objectives include understanding the link between oral health and medical claims, learning the signs and symptoms of gum disease and understanding how certain foods may affect teeth and gums.
<a href="#"><u>Healthy Eating on a Budget</u></a>	This presentation will cover the benefits of menu planning, provide tips on shopping for nutritious and cost saving foods, and help you discover budget friendly shopping tips.
<a href="#"><u>Healthy Heart</u></a>	This presentation includes an overview of the functions of the heart, risk factors for developing heart disease and warning signs of a heart attack. Also highlighted are key components of a healthier lifestyle which may help prevent heart disease.
<a href="#"><u>Hydration &amp; Healthier Beverages</u></a>	Did you know that over half of an adult’s body weight is made up of water?* This presentation will cover the importance of water, define dehydration and the symptoms associated with it, review hydration through food sources and help you understand the nutritional content of popular beverages. *The Water in You: Water and the Human Body. <a href="http://www.usgs.gov">www.usgs.gov</a> .
<a href="#"><u>Know Your Health Numbers</u></a>	This presentation explains why it is important to know your health numbers and also addresses ways that may help to improve them.
<a href="#"><u>Leaner Ways for the Holidays</u></a>	This presentation provides strategies to help avoid holiday weight gain, cope with tough economic times, reduce holiday stress and keep the holiday cheer.
<a href="#"><u>Living Tobacco Free</u></a>	Tobacco use may contribute to an increased risk of many serious health conditions and diseases not just for the user, but also for those who may be exposed to second-hand smoke.* This presentation is for those who want to quit and for those who want to support someone who is trying to quit. * <a href="http://www.betobaccofree.gov">www.betobaccofree.gov</a>

Presentation Name/Link	Description
<a href="#"><u>Men's Health</u></a>	The goal of this presentation is to provide important information on various aspects of men's health. The leading causes of death for men, risks and barriers to men's health, suggested checkups and screenings, and other tips to help men lead healthier lives will be provided.
<a href="#"><u>Mental Health &amp; Emotional Well-Being</u></a>	During this presentation participants will learn about healthier choices that may help to improve their mental health and emotional well-being. Specifically, the presentation will cover mental health facts and definitions, common myths associated with mental health, signs of mental health changes, reasons to seek help and ways to support mental well-being.
<a href="#"><u>Mindful Eating</u></a>	The goal of the Mindful Eating presentation is to educate individuals on mindfulness and applying this concept when preparing foods and while enjoying their meals. Participants will learn to be aware of physical hunger, recognize sensations of fullness, understand environmental cues and triggers around eating, and create a personal hunger scale to help achieve success with mindful eating.
<a href="#"><u>Preventing Colds and Flu</u></a>	This presentation includes an overview of the common cold and flu symptoms and explores the differences between these two illnesses. Preventive measures, flu vaccination facts and myths and treatment options are also discussed.
<a href="#"><u>Sleep for Health</u></a>	This presentation teaches the basic science of sleep, the potential health risks associated with getting too little sleep, the benefits of getting better sleep and practical steps that may improve sleep habits.
<a href="#"><u>Soothing Stress</u></a>	Soothing Stress is designed to help participants identify personal sources of stress and teaches them how to manage or reduce everyday stress in their lives.
<a href="#"><u>Stages of Women's Health</u></a>	This presentation addresses the key health concerns for women at each stage of life and offers steps to help them improve and protect their health during each phase.
<a href="#"><u>Stand for Health</u></a>	<p>Studies have shown there may be a connection between being sedentary and a variety of health problems including heart disease, blood clots, obesity, higher blood sugar and insulin resistance, poor physical functioning and early death. This presentation provides information on the risks of a sedentary lifestyle, along with practical tips to get participants moving more during the day.</p> <p>* American Academy of Family Physicians, Prolonged Sitting Linked to Serious Health Risks; <a href="https://www.aafp.org/news/health-of-the-public/20150127sitting.html">https://www.aafp.org/news/health-of-the-public/20150127sitting.html</a>.</p>
<a href="#"><u>Strength for Health – Basics</u></a>	Including resistance exercises into your daily routine may help improve the quality of your life and reduce your risk for illness. This presentation covers the many health benefits of resistance exercise.
<a href="#"><u>Strength for Health – Advanced</u></a>	This presentation builds upon the information from the Strength for Health Basics presentation by covering how muscle building works and how resistance training may boost metabolism. The strength continuum and injury prevention are also highlighted.
<a href="#"><u>Stretch for Health</u></a>	Flexibility is an important component of physical activity and should be incorporated into your physical fitness plan. Listen to this presentation to learn the benefits of stretching as well as the techniques for stretching properly.
<a href="#"><u>Sun Safety</u></a>	This presentation focuses on the prevention of sun and heat-related illnesses. According to the American Cancer Society, skin cancer is the most common cancer – but there are a number of things you can do to help protect yourself.

Presentation Name/Link	Description
<a href="#"><u>The Power of Positivity and Affirmation</u></a>	Research studies on positive emotions suggest that people might improve their psychological well-being, and perhaps also their physical health by cultivating experiences of positive emotions. Cultivating positive emotions to cope with negative emotions enables people to bounce back from stressful experiences quickly and efficiently. This presentation covers positive thinking and self-affirmation theories, facts and benefits, the barriers to positive thinking and tips on practicing positive thinking each day.
<a href="#"><u>Understanding Blood Pressure</u></a>	High blood pressure puts you at risk for many health problems, and it is one of the leading contributors to escalating health care costs. This presentation may help you understand how to lower your risk for developing high blood pressure.
<a href="#"><u>Understanding Diabetes</u></a>	This presentation provides basic awareness and understanding of diabetes. Participants will learn the differences between Type 1, Type 2, gestational diabetes and prediabetes. Participants will also learn about the lifestyle choices that may place them at risk and steps they can take to help prevent Type 2 diabetes.
<a href="#"><u>Understanding Metabolic Syndrome</u></a>	Metabolic Syndrome is a serious health condition that may increase the risk of cardiovascular disease, diabetes, stroke and other diseases related to fatty buildups in artery walls. This presentation covers the facts about metabolic syndrome, defines the condition and associated symptoms, provides an overview of risk factors, and provides tips on how to prevent or manage metabolic syndrome with a healthy lifestyle.
<a href="#"><u>Understanding Preventive Care</u></a>	Preventing disease and detecting health issues at an early stage is essential to living a healthier life. This presentation educates individuals about regular checkups and recommended screenings for themselves and family members.
<a href="#"><u>Understanding Social Isolation &amp; Mental Health</u></a>	Social isolation, with or without loneliness, may have as much of an effect on mortality risk as smoking, obesity, sedentary lifestyle and high blood pressure. This presentation covers social isolation and loneliness, reviews the causes of social isolation and how it impacts health, reviews ways to counteract social isolation and feelings of loneliness, and will provide tips and practices to help protect your mental health.
