

Information Security Awareness Training Program (ISATP)

Welcome to the new County online Security Awareness Training Program (ISATP). Effective immediately, this program replaces the current ISATP on the County OLM platform. It consists of several short video-based training modules that you can access anytime via a secure web browser using your County username and password. The training will take approximately 1.5 hours.

All full-time and part-time County employees, temporary workers, and contractors who regularly access County information resources are required to complete this training within 90 days of this notification, regardless of when you completed any prior County or other Security Awareness training. New hires are required to complete this training within first 30 days of employment.

For technical support or if you need special accommodations, please contact the IT Helpdesk at 240-777-2828 or email at HelpIT@montgomerycountymd.gov

Link to the County ePortal site is <https://eportal.montgomerycountymd.gov> . You will be prompted to enter your username and password.

Email Reminders will be sent out regularly.

Thank You!
Joan Cole, ISATP Administrator
