The Office of Infrastructure Protection

National Protection and Programs Directorate
Department of Homeland Security

Protective Security Coordination Division Overview

Name of Stakeholder

Date of Briefing
PSA Mission Areas

- Conduct Security Surveys, Gap Analysis, and Assessments
- Conduct Outreach Activities
- Support National Special Security Events (NSSEs) and Special Event Activity Rating (SEAR) Events
- Respond to Incidents
- Provide Improvised Explosive Device (IED) Awareness & Risk Mitigation Training
Protective Security Advisor Locations

Protective Security Advisor (PSA) Locations - October 27, 2017

PSA Tools
Site Assistance Visit

- Establishes and enhances DHS’s relationship with critical infrastructure owners and operators, informs them of the importance of their facilities, and reinforces the need for continued vigilance

- During a Site Assistance Visit (SAV), PSAs focus on coordination, outreach, training, and education

- SAVs are often followed by security surveys using the Infrastructure Survey Tool (IST) or delivery of other IP services
Infrastructure Survey Tool

- The IST is a web-based vulnerability survey tool that applies weighted scores to identify infrastructure vulnerabilities and trends across sectors

- Facilitates the consistent collection of security information
  - Physical Security
  - Security Force
  - Security Management
  - Information Sharing
  - Protective Measures
  - Dependencies
## IST Deliverables

INSTRUCTIONS: To view the details of any component on the chart below, click on the corresponding blue bars. To view the responses used to calculate the PMI, click on the side navigation menu options.

![Protective Measures Index Chart]

Security Force Profile, Security Management, Information Sharing, Security Activity Background, Physical Security
Protected Critical Infrastructure Information

- Established under the Critical Infrastructure Information Act of 2002
- Protects voluntarily submitted critical infrastructure information from:
  - Freedom of Information Act
  - State and local sunshine laws
  - Civil litigation proceedings
  - Regulatory usage
- Provides private sector with legal protections and “peace of mind.”
Infrastructure Visualization Platform

- Infrastructure Visualization Platform (IVP)
  - A data collection and presentation medium that supports critical infrastructure security, special event planning, and response operations by leveraging assessment data and other relevant materials
  - Integrates assessment data with immersive video, geospatial, and hypermedia data
  - Assists facility owners and operators, local law enforcement, and emergency response personnel to prepare for, respond to, and manage critical infrastructure, National Special Security Events (NSSEs), high-level special events, and contingency operations
DHS aims to enhance preparedness through a “whole community” approach by providing training products, and resources to a broad range of stakeholders on issues such as active shooter awareness, incident response, and workplace violence. In many cases there is no pattern or method to selection of victims by an active shooter, and these situations are, by their very nature, unpredictable and evolve quickly. DHS offers free courses, materials, and workshops to better prepare you to deal with an active shooter situation and to raise awareness of behaviors that represent pre-incident indicators and characteristics of active shooters.
Increase awareness of the infrastructure mission and build a baseline of security and resilience knowledge throughout the Nation.

Identify Common Vulnerabilities, Potential Indicators of Terrorist Activity, and associated Protective Measures, along with actions that can be undertaken to enhance resilience.

Courtesy of DHS
Counter-IED Training & Awareness

- Diverse curriculum of training designed to build counter-IED core capabilities, such as:
  - IED Counterterrorism Detection
  - Surveillance Detection
  - Bomb Threat Management
  - Vehicle-Borne IED (VBIED) Detection
  - Protective Measures
  - IED Search Procedures
- Increases knowledge and ability to detect, prevent, protect against, and respond to bombing threats

Courtesy of DHS OBP
Secure information sharing platform for IED incident information, evolving IED tactics, lessons learned, and counter-IED preparedness information

Builds knowledge and preparedness capabilities, filling vital gaps in information sharing
Other Products and Services (cont.)

Bomb Threat Guidance and Vehicle Inspection Guide

- Bomb Threat Guidance provides a quick-reference for managing in-progress bomb threats for schools, businesses, and government facilities with information on police coordination, threat assessment, search, and evacuation versus shelter-in-place considerations.

- Vehicle Inspection Guide assists Government and private sector security personnel in conducting vehicle inspection operations to prevent vehicle-borne IEDs.
Cyber Support for Critical Infrastructure

- National Cybersecurity and Communications Integration Center (NCCIC)
  - United States Computer Emergency Readiness Team (US-CERT) Operations Center
  - Industrial Control Systems Cyber Emergency Response Team (ICS-CERT) Operations Center
  - National Cybersecurity Assessment & Technical Services (NCATS)
- US-CERT
- Control Systems Security Program
- Cyber Exercise Program
- Cyber Security Evaluations Program
- Cyber Security Advisors
