

Montgomery County 2012 Federal Priorities

Due to extraordinary complications and delays with the federal budget process, formal federal priorities are not available for 2012. That year, the Office of Intergovernmental Relations worked closely with our Congressional delegation on many issues of importance to Montgomery County including preserving the presence of federal facilities in the County, opposing detrimental tax policy changes that would have negatively impacted the County's use of municipal bonds for infrastructure investment, supporting federal transportation legislation and annual appropriations bills benefitting state and local government, and advocating on federal communications policies that impact local government functions.
