

# Transportation

## Mission Statement

The mission of the Department of Transportation (DOT) programs supported by the General Fund is to provide an effective and efficient transportation system to ensure the safe and convenient movement of persons and vehicles on County roads; to plan, design, and coordinate development and construction of transportation and pedestrian routes to maintain the County's transportation infrastructure; to operate and maintain the traffic signal system and road network in a safe and efficient manner; and to develop and implement transportation policies to maximize efficient service delivery. The General Fund supports programs in the Division of Traffic Engineering and Operations, the Division of Parking Management, the Division of Highway Maintenance, the Division of Transportation Engineering, the Division of Transit Services, and the Director's Office.

## Budget Overview

The total approved FY17 Operating Budget for the Department of Transportation is \$54,357,240, an increase of \$2,824,826 or 5.48 percent from the FY16 Approved Budget of \$51,532,414. Personnel Costs comprise 45.82 percent of the budget for 455 full-time position(s) and eight part-time position(s), and a total of 283.30 FTEs. Total FTEs may include seasonal or temporary positions and may also reflect workforce charged to or from other departments or funds. Operating Expenses account for the remaining 54.18 percent of the FY17 budget.

In addition, this department's Capital Improvements Program (CIP) requires Current Revenue funding.

## Linkage to County Result Areas

While this program area supports all eight of the County Result Areas, the following are emphasized:

- ◆ **An Effective and Efficient Transportation Network**
- ◆ **Healthy and Sustainable Neighborhoods**
- ◆ **A Responsive, Accountable County Government**
- ◆ **Safe Streets and Secure Neighborhoods**
- ◆ **Vital Living for All of Our Residents**

## Department Performance Measures

Performance measures for this department are included below (where applicable), with multi-program measures displayed at the front of this section and program-specific measures shown with the relevant program. The FY16 estimates reflect funding based on the FY16 approved budget. The FY17 and FY18 figures are performance targets based on the FY17 approved budget and funding for comparable service levels in FY18.

## Initiatives

- ★ Continue expansion of the Bikeshare network.
- ★ Provide overall management of the County's transit initiatives.
- ★ Implement a load testing program on bridges where heavy vehicles such as Fire Rescue apparatus are restricted. This real-life method of determining bridge weight limits for bridges is more accurate than in-house calculations. The results may allow restrictions to be lifted and eliminate costly rehabilitation projects.

## Accomplishments

- ✓ 790 crosswalks were installed in FY15, an increase of 36% over FY14 and 815 stop bars were installed representing a 27% increase over FY14.
- ✓ Fully implemented a Road Weather Information System (RWIS) which provides up-to-minute pavement conditions at four locations around the County. Discussions have begun to expand the program by two additional stations.
- ✓ Resurfaced 405 lane-miles in FY15.
- ✓ Awarded with a prestigious National Association of Counties (NACo) Award for DOT's Public Outreach Program "Social Solutions In Public Works."
- ✓ Responded to 13 storm events totaling 52.5 inches of snow to date in FY16.
- ✓ The Annual Leafing Operation program collected over 925 tons of debris on over 2,175 miles of roads.
- ✓ Completed three major FiberNet Hub site upgrades in FY15, which included increasing the number of fibers available and re-establishing all county sites associated with each regional Hub site.
- ✓ The Glenmont Town Center streetlight upgrade was completed with the installation of 59 Light Emitting Diode (LED) lights. LED Streetlights consume significantly less energy than the conventional High Pressure Sodium (HPS) lights and reduce the carbon footprint.
- ✓ Tree Maintenance Section crews and arborists responded to over 20,155 Service Requests, pruned 10,002 trees, removed 2,392 stumps, and planted 1,016 trees.
- ✓ Completed the biennial 2015 Pavement Condition Index (PCI) study providing conditions along 5,200 lane-miles of roads.

## Productivity Improvements

- ✦ Developed GIS-based storm drain asset management application to electronically collect and share data on storm drain infrastructure.
- ✦ The Division of Highway Services has implemented its social media program. There have been nearly two million views on Twitter, Facebook and YouTube.

## Program Descriptions

### Automation

The Automation Program provides staffing, material, and support to develop and maintain information systems in support of the Department's business operations. This includes the purchase and maintenance of IT equipment, service and support for major business systems, strategic visioning and analysis for planned IT investments, and day-to-day end use support. In addition, this program provides for coordination with the County Department of Technology Services.

### Bike Share

This program administers and operates the BikeShare program in the County. The purpose of this program is developing additional options for short trips, promoting the use of transit and contributing to a more pedestrian and bicycle-friendly atmosphere. This includes managing implementation of the County's system, administering the operation of the system, and coordinating with other regional BikeShare programs.

## Bridge Maintenance

This program provides for the basic maintenance of bridges and box culverts along County-maintained roadways, including removal of debris under and around bridges; wall and abutment repainting; trimming trees and mowing banks around bridge approaches; and guardrail repair. Minor asphalt repairs and resurfacing of bridges and bridge approaches are also included.

## Transportation Engineering and Management Services

This program oversees a portion of the transportation programs, monitors and evaluates standards, investigates complaints, and implements strategies to maximize cost savings. This program is also responsible for the personnel, budget, and finance functions of several divisions in the Department of Transportation, providing essential services to the Department and serving as a point of contact for other departments.

## Parking Outside the Parking Districts

This program administers, operates, and maintains the parking program outside the Parking Districts. Included in this program are residential permit parking and peak hour traffic enforcement. The residential permit parking program is responsible for the sale of parking permits and parking enforcement in these areas. Participation in the program is requested through a petition of the majority of the citizens who live in that area. The program is designed to mitigate the adverse impact of commuters parking in residential areas. Peak hour traffic enforcement in the Bethesda and Silver Spring Central Business Districts assures the availability of travel lanes during peak traffic periods. The program is also responsible for the management of County employee parking in the Rockville core.

## Roadway and Related Maintenance

Roadway maintenance includes hot mix asphalt road patching (temporary and permanent roadway repairs, skin patching, and crack sealing); shoulder maintenance; and storm drain maintenance, including erosion repairs, roadway ditch and channel repairs, cleaning enclosed storm drains, and repair and/or replacement of drainage pipes. Related activities include: mowing; roadside vegetation clearing and grubbing; traffic barrier repair and replacement; street cleaning; regrading and reshaping dirt/gravel roads; and temporary maintenance of curbs, gutters, and sidewalks. Starting in FY07, DOT began providing routine maintenance of roadway, bridges, and storm drain surfaces and other miscellaneous items for Park roads.

## Snow Removal/Wind/Rain Storms

This program includes the removal of storm debris within right-of-ways and snow from County roadways. This includes plowing and applying salt and sand; equipment preparation and cleanup from snow storms; and wind and rain storm cleanup. Efforts to improve the County's snow removal operation have included public snow plow mapping, snow summit conferences; equipping other County vehicles with plows; and using a variety of contracts to assist in clearing streets. Expenditures over the budgeted program amount for this purpose will be covered by the Snow Removal and Storm Cleanup NDA.

## Traffic Planning

This program provides for traffic engineering and safety review of road construction projects in the CIP; review of master plans, preliminary development plans, and road geometric standards from a pedestrian, bicycle, and traffic engineering and safety standpoint. The program also includes studies to identify small scale projects to improve the capacity and safety of intersections at spot locations throughout the County, the design of conceptual plans for such improvements, as well as the review of development plans and coordination of all such reviews within the Department of Transportation; review of traffic and pedestrian impact studies for the Local Area Review process; and development, review, approval, and monitoring of development-related transportation mitigation agreements.

## Traffic and Pedestrian Safety

This program provides for engineering studies to evaluate and address concerns about pedestrian and traffic safety and parking issues on neighborhood streets, arterial, and major roadways. Data on speed, vehicular and pedestrian volumes, geometric conditions and collision records are collected and analyzed. Plans are developed to enhance neighborhood and school zone safety, maintain livable residential environments, and provide safe and efficient traffic flow as well as safe pedestrian access on arterial and major roads.

## Traffic Sign and Marking

This program includes conducting engineering investigations of citizen complaints about traffic signs, street names, pavement markings (centerline, lane lines, edge lines, crosswalks, raised pavement markers, etc.) and inadequate visibility at intersections. It also includes design, review, and field inspection of traffic control plans for CIP road projects and for permit work performed in right-of-ways. This program includes fabrication and/or purchase of signs; installation and maintenance of all traffic and pedestrian signs and street name signs (including special advance street name signs); repair or replacement of damaged signs; installation and maintenance of all pavement markings; safety-related trimming of roadside foliage obstructing traffic control devices; and day-to-day management of the traffic materials and supplies inventory. This program is also responsible for the issuance of permits for use of County roads and rights-of-ways for special events such as parades, races, and block parties.

## Traffic Signals & Advanced Transportation Mgmt System

This program provides for the general engineering and maintenance activities associated with the design, construction, and maintenance of traffic signals, the Advanced Transportation Management System (ATMS), and the communication, infrastructure that supports these programs and the County's fiber optic based network. Included in this program are proactive and reactive maintenance of the field devices and related components such as traffic signals, flashers, traffic surveillance cameras, variable message signs, travelers' advisory radio sites, twisted pair copper interconnect, and fiber optic cable and hub sites; and support of the Traffic Signal, ATMS, and FiberNet CIP projects. This programs also includes provision of testimony for the County in court cases involving traffic signals.

## Transportation Community Outreach

The Transportation Community Outreach program objective is to inform County residents of DOT's services, programs, and procedures; enhance their understanding of the department's organization and responsibilities; enhance their ability to contact directly the appropriate DOT office; and provide feedback so DOT can improve its services. Staff works with the Public Information Office to respond to media inquiries. Staff refers and follows up on residents' concerns; attends community meetings; and convenes action group meetings at the request of the Regional Services Center directors. Significant components of this program are the coordination of Renew Montgomery, a neighborhood revitalization program, and the Keep Montgomery County Beautiful program, which includes the Adopt-A-Road program, a beautification grants program, and annual beautification awards.

## Transportation Planning

Transportation Planning: The Transportation Engineering Planning Unit manages both the Facility Planning and the Annual Bikeways programs. Prior to a capital project being funded for design and construction, it must first undergo Facility Planning. The planning process examines transportation improvements that are in compliance with the area master plans to meet the forecasted conditions. These analyses are performed at a higher level of detail than what is provided during the master plan process. Facility Planning culminates with a project prospectus report and preliminary design plans which allow projects to compete for funding as a stand-alone CIP. The Annual Bikeways Program plans, designs and constructs bikeways, trails and directional route signs throughout the County. The purpose of this project is to develop the bikeway network specified by master plans and those requested by the community to provide access to commuter rail, mass transit, major employment centers, recreational and educational facilities, and other major attractions.

## Transportation Design

This program provides for the development of engineering construction plans and specifications for all transportation-related projects in the County's Capital Improvements Program (CIP). This includes planning, surveying, designing of roads, bridges, traffic improvements, pedestrian, bicycle and mass transit facilities, and storm drains; as well as the inventory, inspection, renovation, preservation, and rehabilitation of existing bridges. All of these plans are environmentally sound and aesthetically pleasing and meet applicable local, State, and Federal laws and regulations.

## Transportation Construction

This program provides overall construction administration and inspection of the Department's transportation CIP projects. This includes preparing and awarding construction contracts, monitoring construction expenditures and schedules, processing contract payments, providing construction inspection, and inspecting and testing materials used in capital projects. It measures and controls the quality of manufactured construction materials incorporated into the transportation infrastructure. This program also includes materials (manufacturing) plant inspections and testing of materials for work performed by private developers under permit with the County.

## Traffic Management and Operations

The Traffic Management and Operations program provides for the daily operations of the County's transportation management program to include operations of the Transportation Management Center (TMC), the computerized traffic signal system, and multi-agency incident management response and special event traffic management. This program also provides hardware and software for the TMC's computer and network infrastructure, and investigation of citizen complaints about traffic signal timing, synchronization, and optimization.

## Transportation Policy

This program provides for the integration of all transportation plans, projects, and programs to ensure Department-wide coordination and consistency. The program provides a strategic planning framework for the identification and prioritization of new capital and operating transportation projects and programs for implementation at the County and State levels. The program advocates and explains the County's transportation priorities to the Council and State Delegation. This program also includes a liaison role and active participation with local and regional bodies such as WMATA, M-NCPPC, the Metropolitan Washington Council of Governments (COG), the Transportation Planning Board (TPB), and the Maryland Department of Transportation. This program involves active participation in the master planning process in order to advance transportation priorities and ensure the ability to implement proposed initiatives. The development of transportation policy, legislation, and infrastructure financing proposals are included in this program, including administration of the Impact Tax Program, development and negotiation of participation agreements with private developers, and the Development Approval Payment program.

## Tree Maintenance

The operating budget portion of the Tree Maintenance program provides for emergency tree maintenance services in the public rights-of-way. The program provides priority area-wide emergency tree and stump removal and pruning to ensure the safety of pedestrians and cyclists, minimize damage to property, and provide adequate road clearance and sign, signal, and streetlight visibility for motorists. Starting in FY07, the street tree planting function was transferred to DOT as part of the overall Tree Maintenance program.

## Vacuum Leaf Collection

The Vacuum Leaf Collection program provides two vacuum leaf collections to the residents in the Leaf Vacuuming District during the late fall/winter months. Vacuum leaf collection is an enhanced service which complements homeowner responsibilities related to the collection of the high volume of leaves generated in this part of the County. This program is supported by a separate leaf vacuum collection fee that is charged to property owners in the Leaf Vacuuming District.

## Administration

The Director's Office provides overall leadership for the Department, including policy development, planning, accountability, service integration, customer service, and the formation of partnerships. It also handles administration of the day-to-day operations of the Department, including direct service delivery, budget and fiscal management oversight (capital and operating), training, contract management, logistics and facilities support, human resources management, and information technology. In addition, administration staff coordinates the departmental review of proposed State legislation and provides a liaison between the County and WMATA. The Department consists of five divisions: the Division of Traffic Engineering and Operations, the Division of Parking Management, the Division of Highway Maintenance, the Division of Transportation Planning, and the Division of Transit Services. The Administration program includes efforts of staff from all divisions of the Department.
