1. Did not have a 20 year metric for FY18 as there was not a County issuance with this time horizon. 1.726% reflects true interest cost available for 10-year debt issuance. FY19 actual resorts back to 30 years estimate for final TIC.

2. FY17 value abnormally larger due to the volatile rate environment after the presidential election in when rates went up 75 bps between the election (November 6) and Christmas. This disproportionately affected the longer maturities. The County was above MMD by 5 basis points (bps) for 2017 and 2018 maturities, but greater than 25 bps above in later years. FY18 was a return to a more stable interest rate environment with FY19 experiencing greater volatility.

3. The County has been awarded this certificate more times than any other county in the nation (FY18 = 49 times)

Activities are proactively coordinated with the Department of Technology Services, other County departments, vendors, and Department staff to ensure consistency of Department systems and financial controls with countywide policies and standards and with appropriate financial control standards. Major programs that are supported include Property Tax Billing and Collection, Time and Attendance, Electronic Payment implementation and Compliance, joint ownership of the County's Enterprise Resource Planning system, software development of customized applications, robotic process automation, business process re-engineering, Disaster Recovery and Continuity of Operations planning and special projects.
### Operations and Administration

This program includes operational support for the Department as well as the administrative portions of the Director’s Office, the Division of the Controller, the Treasury Division, and the Division of Risk Management. The program provides support for efficient, effective, and timely accomplishment of the Department’s mission, including budget development and oversight, personnel administration, strategic planning, and contract administration. The program provides high quality consulting services for County agencies, managers, staff, elected officials, and residents.

### Risk Management

The Montgomery County Self-Insurance Program, established under County Code 20-37, provides comprehensive property and casualty insurance for the County and participating agencies. The program pays all claims for Self Insured Workers’ Compensation, General and Auto Liability, Auto Physical Damage and Property matters. The program is funded through contributions from the agencies, which are based upon an annual actuarial analysis of their exposures and outstanding and projected future claims. The program provides accurate and timely insurance and risk management advice to County Departments and participating agencies and reduces County and participating agency exposure to risk by: comparing the cost of commercially available coverage to evaluate the best method of funding exposure to loss; transferring contractual risk under indemnification/hold harmless agreements; recommending and reviewing contractual insurance requirements for County agreements. The Program also purchases commercial insurance policies. The Program maintains a contract agreement with a Third Party Claims administrator to handle all claims submitted to the County and agencies - including Workers’ Compensation, General Liability, Automobile Liability, Auto Physical Damage and Property damage.

\(^1\) Late in FY17, online training was initiated to complement in-person classes. The decrease in FY18 is related to the roll-out of the new online training program and the fact that DGS completed biennial OSHA training in FY17.

This program handles property, transfer and recordation, and excise taxes; fines and fees; and offers specific employee services, such as the fare media pass. Functioning as a banking operation, the tellers are a primary provider of person-to-person customer service to County residents.
