MISSION STATEMENT

The Office of Management and Budget (OMB) offers a broad-based, objective perspective on public policies, fiscal policies, and performance management to the County Executive, County Council, and other County partners. The analytical work performed in OMB provides policymakers with data and options to make informed decisions. The Office supports and enhances the effective operation of County government, ensuring funds are spent in the most fiscally prudent and socially responsible way, and that performance objectives are achieved. OMB also ensures that County expenditures are made in accordance with Executive policies and Council appropriations, consistent with the County Charter.

BUDGET OVERVIEW

The total approved FY21 Operating Budget for the Office of Management and Budget is \$6,380,762, an increase of \$1,174,475 or 22.56 percent from the FY20 Approved Budget of \$5,206,287. Personnel Costs comprise 95.44 percent of the budget for 41 full-time position(s) and one part-time position(s), and a total of 41.25 FTEs. Total FTEs may include seasonal or temporary positions and may also reflect workforce charged to or from other departments or funds. Operating Expenses account for the remaining 4.56 percent of the FY21 budget.

COUNTY PRIORITY OUTCOMES

While this program area supports all seven of the County Executive's Priority Outcomes, the following is emphasized:

Effective, Sustainable Government

INITIATIVES

-  Implementing a Shared Services Team that will provide administrative and business functions for smaller County departments and offices to allow them to focus their duties directly on their core missions and functions. This team will be formed with no new County resources by shifting positions and resources no longer needed by other departments and will create future cost savings.
-  Developing the Operating Budget Workforce Module to replace the remaining Hyperion functionality for better data integrity and ease of use. The system is being developed in-house at limited additional cost to the County.
-  Continue refining the Montgomery County approach to outcomes based budgeting by examining base department and office budgets, evaluating programs for outcomes, and implementing plans to help departments and office achieve those outcomes.

INNOVATIONS AND PRODUCTIVITY IMPROVEMENTS

- ★ Implemented an outcomes-based approach to budgeting. For the development of the FY21 budget, OMB formed Budget Outcome Leadership Teams that involved employees from across County government to review proposals for programs and enhancements. These teams deliberated the requests, conferred with department directors and staff on their impact, and presented recommendations to the County Executive. This review process provided invaluable insight into the programs and their work greatly contributed to the Executive's recommendations.
- ★ Instituted a Program Evaluation and Expenditure Review (PEER) process comprised of OMB analysts, management, and representatives from the Chief Administrative Officer's Office who reviewed base budget expenditures of departments and offices to identify duplicated services and determine whether more efficient ways to perform services exist.
- ★ In conjunction with County departments and offices, mapped each program in County government to one of the Executive's seven priority outcomes and associated Key Indicators (where appropriate). As a result of this process, many existing programs were redefined and expenditures were realigned in order to ensure that each program in County government was focused on achieving defined, measurable outcomes.
- ★ Merged CountyStat into the Office of Management and Budget from the County Executive's Office. This merger creates greater synergy between the budget process and monitoring departmental performance to ensure that the County's resources are allocated in the most fiscally prudent way.

PROGRAM DESCRIPTIONS

★ Fiscal, Policy, and Performance Analysis

The Fiscal, Policy, and Performance Analysis Program is comprised of three teams: the Fiscal and Policy Analysis Team, the Performance Analysis Team (CountyStat), and the Shared Services Team. Together, these teams ensure prudent management of

County resources and services to achieve desired outcomes. Staff on the Fiscal and Policy Analysis Team prepare the County's Operating and Capital Budgets, Public Services Program, and Capital Improvement Program ensuring compliance with the County Charter and the decisions of elected officials. The Performance Analysis Team provides data analytics services to improve performance and support for ongoing monitoring the effectiveness of County government services to improve performance, reinforce accountability, and focus on results. The Shared Services Team promotes the efficient use of County resources by providing core administrative and business functions to smaller County departments and offices, thereby allowing those departments and offices to focus their duties directly on their core missions and functions.
