#### DESCRIPTION

Enrollment projections at Spark M. Matsunaga and Germantown elementary schools reflect a need to open another elementary school in the Northwest Cluster. Currently Matsunaga has a program capacity of 676 students and enrollment is expected to reach 1,124 by September 2004, and 1,220 by September 2007. Germantown has a program capacity of 369 students. Currently, Germantown Elementary School is a class-size reduction school and has five relocatable classrooms, with enrollment is expected to reach 439 students by September 2008.

An alternative to building a new school in the Northwest Cluster is to build additions at both Matsunaga and Germantown elementary schools. A feasibility study to determine the cost of an addition at Germantown was completed in FY 2002. It was determined, based on the building location and site topography, that the cost of the addition at Germantown Elementary School was prohibitive. If an addition were built at Matsunaga to accommodate the growth, the elementary school would need to have a capacity for approximately 1,200 students by the end of the six-year period. The conclusion, based on the information above, was a new school in the Northwest Cluster was the preferable and responsible solution.

Due to fiscal constraints, modernizations and individual school projects were delayed in FY 2003. An FY 2004 appropriation was approved for planning funds. An FY 2005 appropriation was approved for construction funds. An amendment to the FY 2005-2010 CIP in the amount of \$4.85 million in expenditures was approved by the County Council to provide additional funding for this project due to rising construction costs. Of that amount, \$3.8 million was approved by the County Council as an FY 2005 Special Appropriation. The new school is scheduled to be completed by August 2006.

#### Capacity

Program Capacity After Project: 660  
 Teaching Stations Added: 30
