DESCRIPTION

Enrollment projections indicate that Bethesda-Chevy Chase High School will exceed capacity throughout the six-year CIP. Currently, the school has a program capacity of 1,552 and enrollment is expected to reach 1,656 by September 2009. This project will build out the five master planned classrooms, to bring the school's capacity to 1,665. An FY 2005 appropriation was approved by the Board of Education to begin planning this project earlier, should funds become available to accelerate the completion date of this project. Due to fiscal constraints, the County Council shifted the planning funds for the addition from FY 2005 to FY 2006; however, this shift did not change the completion date of this project.

During the budget process for the amendments to the FY 2005-2010 CIP, the County Council shifted the planning funds in FY 2006 to FY 2007 for the planning of this addition project. The shift in expenditures did not change the completion date of this project. An FY 2007 appropriation was approved for planning funds. An FY 2008 appropriation will be requested for construction funds. This addition is scheduled to be completed August 2009.

Capacity

Program Capacity After Project: 1,665
 Teaching Stations Added: 5
