ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This project will provide design and construction contingency funding for the renovation of the former Giant Food Bakery located in South Silver Spring and create the new King Street Art Center (approx. 130,000 gross square feet). The new Art Center will house instructional art studios, support facilities, and faculty offices for the College's Fine Arts program (relocating from the Pavilion of Fine Arts) and the merged programs of the School of Art & Design (SAD) at Montgomery College (formerly Maryland College of Art & Design); the College's central computer facility (relocated from the Rockville Campus); and community art studios/organization office space. The new facility will provide up-to-date instructional art studios that meet current requirements and respond to the needs of the merged art programs of the College and SAD. The Art Center is part of an overall plan to develop the College's South Silver Spring property.

JUSTIFICATION

The Takoma Park Campus has a current (Fall 2004) instructional space deficit of 16,876 net square feet and a total space deficit of 90,446 net square feet. Following the construction of the four new buildings (Health Sciences Building, Student Services Center, Cultural Arts Center and the King Street Art Center) the 2014 projected instructional space deficit will be eliminated and the total space deficit will be reduced to 24,216 net square feet. The new Art Center will bring the merged studio art programs of the Takoma Park Campus and SAD under one roof and also support the revitalization of South Silver Spring as part of the Silver Spring Arts and Entertainment District initiative. The relocation of the Takoma Park Campus art program and SAD from their currently inadequate facilities is supported by the College's facilities condition assessment studies and the recommendations of the College's Facilities Master Plan. Furthermore, the relocation of the College's central computer operations from the Computer Science Building on the Rockville Campus to the new Art Center will allow for the renovation of four classrooms on the congested Rockville Campus and avoid an alternative of leased space for the College's central computer operations.
