State Aid	1,005	0	0	1,005	0	1,005	0	0	0	0	0

### ANNUAL OPERATING BUDGET IMPACT (\$000)

#### DESCRIPTION

This project funds the design and construction of a new physical plant building (50,117 gross square feet) at the Rockville Campus as described in the Rockville Campus Facilities Master Plan, 2002-2012. The main purposes of this project are to release valuable and convenient core space currently occupied by units of the Office of Procurement and the Office of Facilities for classroom and student service functions, centralize building services and operations and maintenance shops (O&M), and co-locate them with central receiving and storage.

#### JUSTIFICATION

The Rockville Campus does not have sufficient space to meet its current demands for instructional, office and other space requirements. The campus has a current (Fall 2004) instructional space deficit of 57,192 NASF and a total space deficit of 202,882 NASF. Because of the insufficiency of space, facilities and procurement personnel are currently dispersed into inadequate and inappropriate areas. These departments occupy space in Campus Center, Science East, Science West and the Maintenance Shop. Once the combined units from the Office of Procurement and the Office of Facilities move into the new Physical Plant building, the planned renovation of Science East and Science West can proceed to recapture space for academic functions, and space can be re-programmed in Campus Center for student life uses.

#### Plans and Studies

Collegewide Facilities Condition Assessment (8/02), Collegewide Facilities Master Plan (1/04), Rockville Physical Plant Building Facility Program (5/05).

#### OTHER

Fund Sources: G.O. Bonds and State Aid.

State share of project based on anticipated eligible costs. Relocation costs and design fees above approximately 7% of estimated construction costs may not be eligible for State reimbursement.
