ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This project provides for the design and major rehabilitation of existing asphalt parking lots and associated drainage structures. Work includes milling and re-paving, full depth reconstruction of failed areas, and re-establishing positive drainage.

JUSTIFICATION

The age and condition of paved surfaces (primarily parking lots) at County facilities create the need for this project. The deterioration of bituminous pavement occurs because of: bitumen evaporation; infiltration of moisture; exposure to the environment; and disintegration due to salt and other compounds used during the winter. The maintenance and repair of paved surfaces is managed through the County's facilities maintenance program. A facility planning approach to major repair and resurfacing of paved surfaces has: established a validated inventory of paved surfaces requiring major work, allowed for systematic planning and execution to eliminate the inventory of major work; and begun to arrest the continuing deterioration of paved surfaces, preventing more costly total reconstruction. This project implements an annual major repair and resurfacing program for paved surfaces as they reach the end of their useful life.

Plans and Studies

Pedestrian Safety will be considered during design. The results of a facility condition assessment for 24 County facilities completed by a consultant in FY05 have been used to prioritize the six-year program. The March 2005, "report of the infrastructure maintenance task force," identified an annual level of effort for parking lot resurfacing based on an average 20-year life for parking lots.

Cost Change

Increase due to the addition of FY11-12 to this ongoing project.

STATUS

Ongoing. Parking lots may be accelerated or delayed based on changing priorities and needs.

Parking lots scheduled for resurfacing:

FY07: White Oak Library, Damascus Community Recreation Center, Colesville Health Center, Damascus Daycare Center

FY08: Silver Spring Health Center, Potomac Library, Fairland Library, Schweinhart Center

FISCAL NOTE

* Expenditures will continue indefinitely.

APPROPRIATION AND EXPENDITURE DATA

Date First Appropriation	FY99	(\$000)
