MISSION STATEMENT

The mission of the Montgomery County Government is to provide for the peace, good government, health, safety, and welfare of the County in accordance with, and under authority of, the Constitution and laws of Maryland, and the Montgomery County Charter. To accomplish this mission, the Montgomery County Government provides: public laws and oversight through the County Council and the offices and boards of the Legislative Branch; the administration of judicial offices; and public programs, services, and infrastructure through the County Executive and departments, offices, boards, and commissions within the Executive Branch.

BUDGET OVERVIEW

The total approved FY08 Operating Budget for the County Government is \$1,579,642,310, an increase of \$98,344,460 or 6.6 percent from the FY07 approved budget of \$1,481,297,850 (excludes debt service). The County Government is the agency responsible for providing general services to citizens. To do this, the agency is organized functionally into departments, offices, boards, and commissions which undertake all activities and operations of the government. County Government accounting information is organized by fund; this includes both tax supported and non-tax supported special funds, which either encompass an entire department or portions thereof. Detailed budget presentations on each of these organizational units and funds are displayed, organized by function, in the following sections of this document.

Government Funds

County government funds are typically categorized by tax supported and non-tax supported special funds. Tax supported funds are financed through Countywide taxes or special tax rates assessed on a geographic area encompassing the users of the respective services. In addition to taxes, these funds are also supported by inter-governmental aid, user fees, and other resources. Non-tax supported funds include enterprise funds and grants. Enterprise funds are operations that are financed and

operated in a manner similar to private enterprise. The cost of providing these functions is primarily recovered through user charges.
