Net Impact				8	0	0	0	0	4	4

DESCRIPTION

This project provides for the design and construction of pedestrian improvements to complete unfinished streetscapes along approximately 5,425 feet of Central Business District (CBD) streets in Bethesda as identified in the Bethesda CBD Sector Plan. This includes 1,125 feet along Woodmont Avenue between Old Georgetown Road and Cheltenham Drive; 3,550 feet along Wisconsin Avenue between Cheltenham Drive and the northern end of the CBD; and 750 feet along East-West Highway between Waverly Street and Pearl Street. It is intended to fill in the gaps between private development projects which have been constructed or are approved in the CBD. The design elements include the replacement and widening, where possible, of sidewalks, new vehicular and pedestrian lighting, street trees, street furniture, roadway signs and the installation of conduit for the future undergrounding of existing overhead utility lines. The removal of the overhead utility lines and their placement in the underground conduits is not included.

JUSTIFICATION

Staging of the Bethesda CBD Sector Plan recommends implementation of transportation improvements and facilities identified in Stage I prior to moving to Stage II.

Bethesda CBD Sector Plan, approved and adopted July 1994; and Bethesda Streetscape Plan Standards, updated April 1992.

OTHER

This work will be completed in two stages. Stage 1, to be completed in FY12, will provide brick pavers, street trees, benches, and trash receptacles in all segments, and install the underground conduit for the Woodmont Avenue and East-West Highway segments. Stage 2, to be started in FY13 and finished beyond the six-year period, will complete the streetscaping work in these three segments.

FISCAL NOTE

Project schedule is amended to reflect current implementation plan.

OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
