### DESCRIPTION

This project provides for the design, utilities and construction of a new four lane divided, closed section roadway from its current terminus south of Oxbridge Tract to its intersection with future Dorsey Mill Road a distance of approximately 2,565 feet. The project has been coordinated to accommodate the Corridor Cities Transitway within its right-of-way. The new road will be constructed below Father Hurley Boulevard at the existing bridge crossing. This project will also provide construction of a new arch culvert at the existing stream crossing with 5-foot concrete sidewalk along the east side and 8-foot bike way along west side of the road.

### ESTIMATED SCHEDULE

The design phase is to be completed in the Spring of 2011 (FY11). Right-of-way is expected by the Spring of 2011 (FY11). Construction to start in the Fall of 2011 (FY12) and is expected to be completed within 24 months.

### JUSTIFICATION

This project will provide a vital link in the Germantown area. The new roadway segment provides the necessary link to the future Dorsey Mill Road overpass over I-270, thus providing a connection to Clarksburg without using I-270. This link would create a connection between economic centers on the east and west side of I-270. The linkage to Dorsey Mill Road also establishes a roadway alternative to congested north-south roadways such as I-270 and MD355. In addition, The Corridor City Transitway (CCT) will operate within the right-of-way of Century Boulevard.

### OTHER

This project was initially funded under County's Subdivision Road Participation Program and now is a stand alone project for FY11 fiscal year.

Special Capital Projects Legislation will be proposed by the County Executive.

### FISCAL NOTE

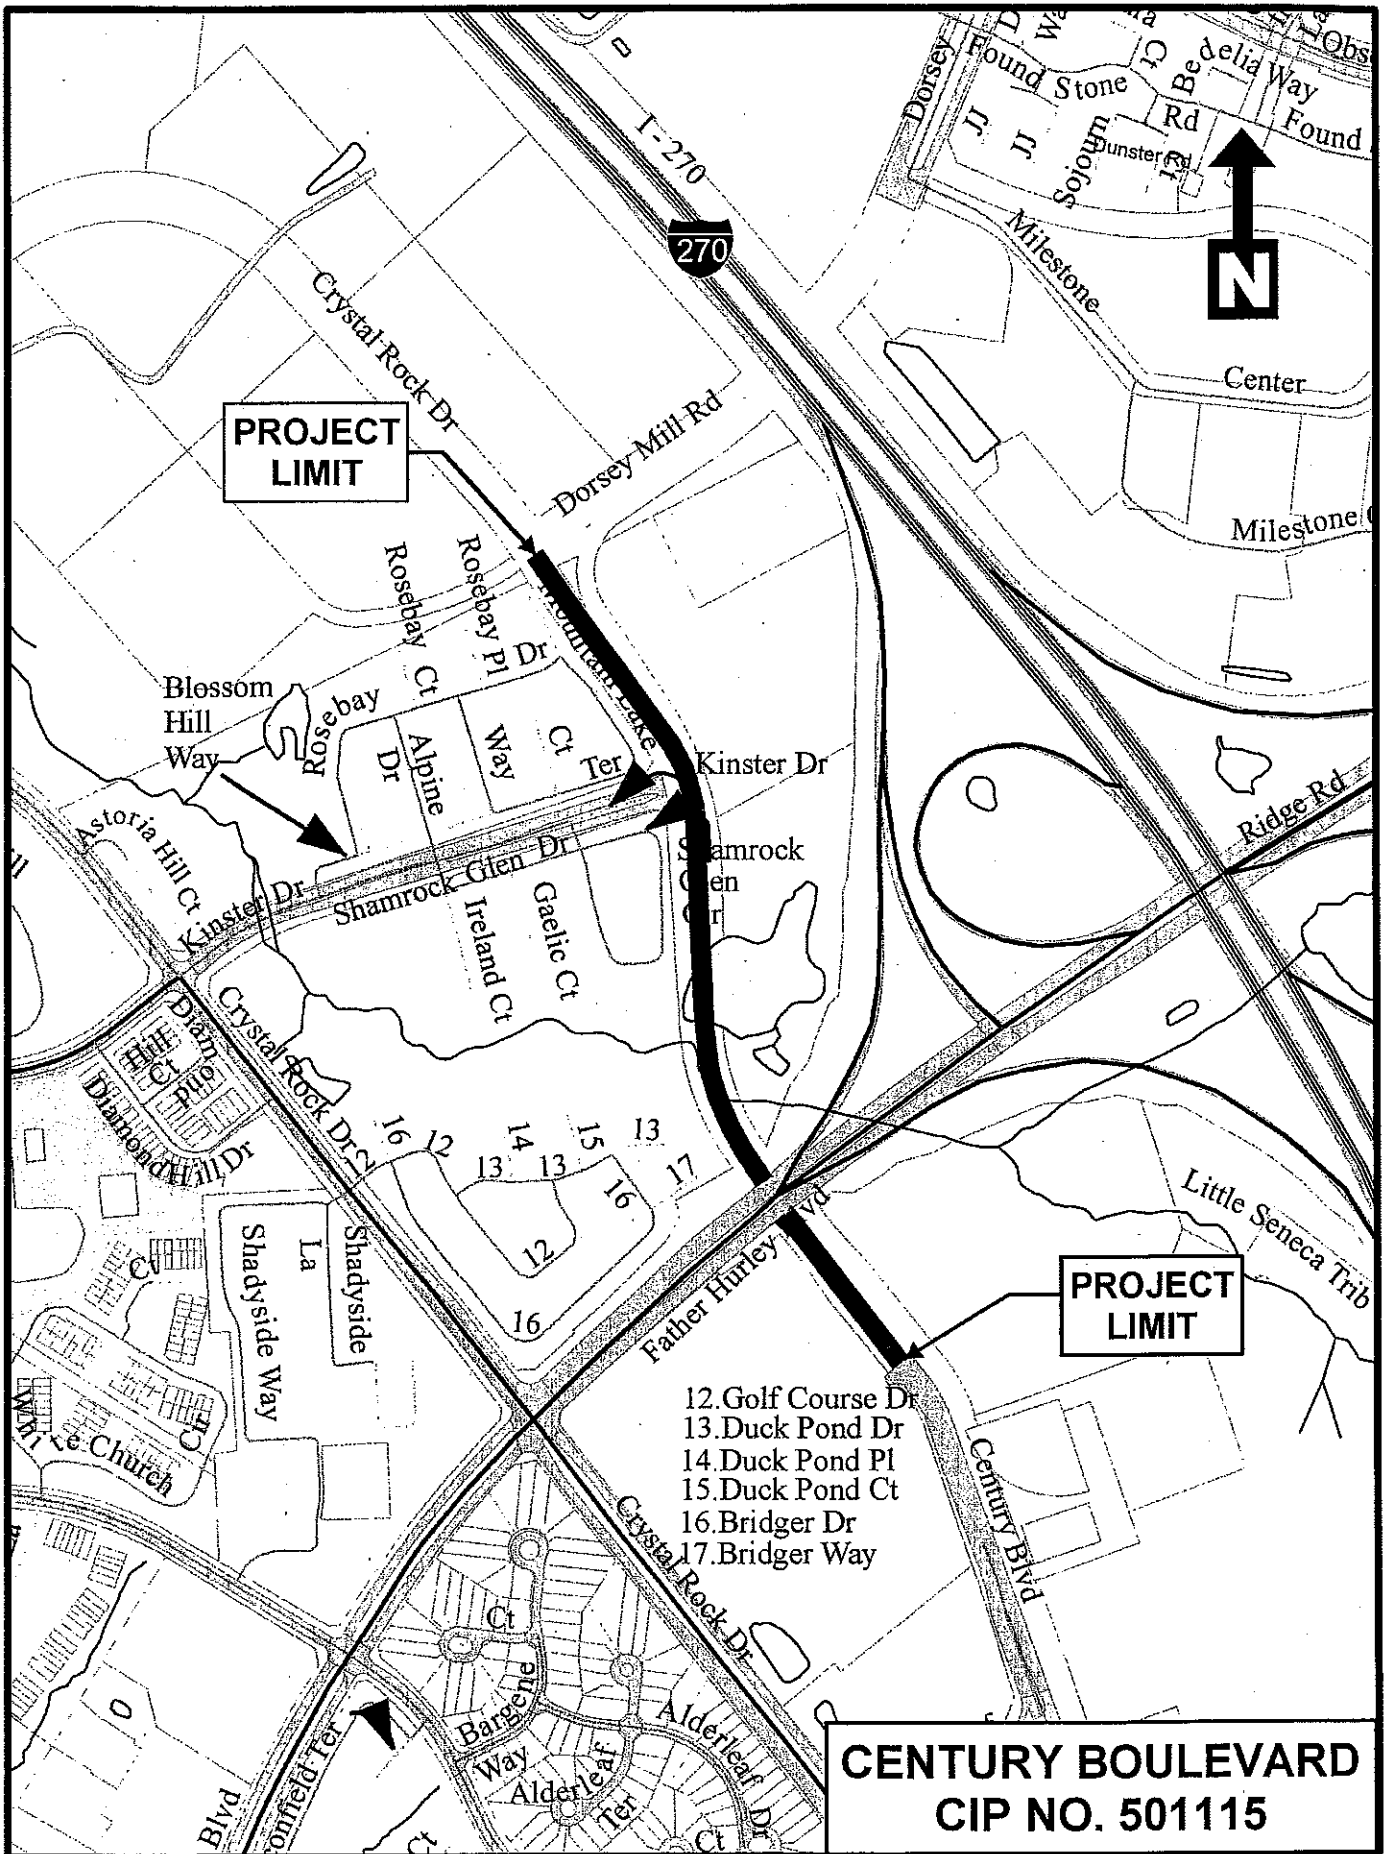

Shift expenditures from FY12 to FY14 to reflect current implementation schedule.

Terms and conditions regarding Contributions from the developer will be specified within the MOU between the County and the developer. Developer land fronting this project will be dedicated.

### OTHER DISCLOSURES

- A pedestrian impact analysis has been completed for this project.
