#### **FY13 TAX SUPPORTED AGENCIES AND FUNDS**

## FY14 Fiscal Outlook

- Major expenditure pressures
  - Demand for restoration of services cut during the recession, as well as for new and enhanced services, including expanded health care for the uninsured, early childhood education, subsidies for developmental disability service providers
  - Increasing student enrollment
  - Deferred infrastructure maintenance information technology, facilities, and roadways
  - Operating impact of new facilities libraries, schools, college, recreation centers, fire stations
  - Unavoidable cost increases related to energy costs, insurance, health care, and pensions

### FY14 Fiscal Outlook

Risk and uncertainty:

- Intergovernmental Aid: State Aid changes in the Governor's Budget and during the State Legislative Session
- Sluggish economic recovery and its impact on local tax revenues and the demand for services
- Continuing Federal Budget negotiations recent agreement postponed sequester for two months
- Income tax: prolonged impact of wage freezes, stagnant job growth, and layoffs contribute to the lag in a fiscal recovery versus an economic recovery
- Cost and Price Spikes: Storm clean-up/Snow Removal; fuel and energy prices; food prices; etc.

### FY14 Fiscal Outlook

- Maintenance-of-Effort and Teacher Pension shift require additional local funding for MCPS of approximately \$30 million in FY14, above the \$1,419.5 million the County contributed to MCPS in FY13.
- 4.9% reduction in funding for the County budget
- Projected budget gap is \$136 million

# County Executive's Fiscal Plan

- Resources
  - Net transfers to and from the General Fund
  - Revenues
- Uses of Resources
  - Current revenue to support the Capital Budget
  - Debt service
  - Year-end reserves
  - Agency expenditures
- The budget is balanced when projected resources are equal to projected uses, including funding reserves to the policy level.

#### FY14-19 Fiscal Plan Selected Fiscal Assumptions: Resources

- Property tax revenues are projected at the Charter Limit using the income tax offset credit.
- Other tax revenues and user fees are projected at their current rates.
- Level (flat) funding of existing intergovernmental aid formulas, which could change after the Governor releases the State budget.
- Latest Revenue Estimate: Net increase in anticipated County revenues of \$22.1 million (\$30.9 million in FY13 and a reduction of \$8.8 million in FY14) compared to estimates assumed at the time the FY13 budget was approved.

#### FY14-19 Fiscal Plan Selected Fiscal Assumptions: Expenditures

- Under these assumptions, total agency expenditures must be reduced 1% to produce a balanced budget in FY14.
- However, expenditures are estimated to grow by specific major known commitments of \$99 million, illustrating the costs and challenges that exist in the budget, producing a budget gap of \$136 million that must be closed by March 15<sup>th</sup>.
- Retiree Health Insurance (OPEB) phase-in is included in agency operating budgets at a cost of \$142.8 million in FY14 and continuing in accordance with 8-year phase-in schedule.
- Operating Budget Impact of the Capital Improvements program of \$5.7 million.
- \$15.1 million set aside in FY13 for pending and potential supplemental appropriations, including snow removal.
- This estimate assumes continuation of a wage freeze. The outcome of collective bargaining by each agency could modify these assumptions.
