ACCOMPLISHMENTS AND INITIATIVES

- ❖ **Between FY10 and FY11, the Circuit Court improved its performances in criminal, Domestic Relationships (DR), Child In-Need of Assistance (CINA) Non-Shelter, and Termination of Parental Rights (TPR) case processing.**
- ❖ **The Circuit Court processed 96% of criminal cases within the 180-day Maryland Judiciary standard in FY11, a 1% increase from FY10. The number of original case terminations increased by 4% in FY11.**
- ❖ **The Circuit Court continues to exceed the State's performance goals for Domestic Relations (DR) cases. 94% of the DR cases were closed within the 1 year time standard, which is above the state goal of 90% within the same time period. More than 99% of DR cases were closed within the 2-year standard, which is also above the state goal of 98%.**
- ❖ **100% of CINA (Child In-Need of Assistance) Non-Shelter cases were closed within the 60 day time standard set by the Maryland Judiciary.**
- ❖ **The Court had the highest performance of Termination of Parental Rights (TPR) cases since 2005 when the Maryland Judiciary initially began to collect information about performance of child welfare cases. 97% of TPR cases were closed within 180 days.**
- ❖ **The Court's overall case clearance rate (calculated by dividing the number of case terminations by case filings) is 113%, indicating that 113 cases were terminated per 100 filings in FY11. All four of the major case types (civil, criminal, family, and juvenile) achieved a clearance rate close to or above 100%.**
- ❖ **Productivity Improvements**
 - **The Court has increased its transparency to the public by developing and implementing CourTools, a web-based analytical tool that can be found on the Court's website. CourTools displays ten nationally recognized trial court performance measures that are continuously updated to provide the public with accurate information reflecting the performance of the Court's core functions.**
 - **Montgomery County Circuit Court, along with the Sheriff's Office, the District Court, and the Montgomery County Family Justice Center, has been actively involved in an initiative to offer exparte/temporary protective order hearings via video conference for victims of domestic violence. This allows the judges to preside over the initial hearings while the petitioner is physically located at the Family Justice Center.**
 - **The Circuit Court has completed its development of an automated data collection process for cases placed on its "To Be Assigned" (TBA) docket. Tracking the number of cases placed on the TBA docket and their associated outcome will provide insights on how to best manage the Court's workload through efficient scheduling and management of resources.**
 - **Court research staff has developed "case fallout" profiles for civil and criminal cases which show the number and percentage of cases that terminate at each major case processing milestone. Examining the dropout rate over time should help ensure that the judges' time is being efficiently utilized.**
 - **The Court has used its recently updated criminal and civil Differentiated Case Management (DCM) Performance Analysis to determine at which stage of case processing performance begins to falter. An early indication of performance slippage will lead to actions aimed at preventing further declines in performance.**
 - **The Court is planning to undertake a number of other analyses to better understand and improve its services, including:**
 - **Initiating a project to examine and update procedures related to the tracking of circuit court-imposed costs and fines in criminal cases.**
 - **Collecting and analyzing foreclosure filings and terminations on a monthly basis to provide insights on potential modifications to case processing that may be required to accommodate the Court's caseload.**
 - **Examining case processing performance by case sub-type to identify whether certain sub-types consistently close within or over standard time.**
 - **Establishing a feedback system where concerns or errors uncovered are discussed with all appropriate personnel.**

PROGRAM DESCRIPTIONS

Administration

The Administrative Office of the Circuit Court serves as a conduit for many operations of the Court. The Court Administrator's role is to facilitate the administrative functions of the Court and to develop policies to enhance systems performance while maintaining the independence of the judiciary. Basic functions performed by the Court Administrator and staff include the following: fiscal administration of the budget; human resources; caseload management and statistics; technology management; information management; jury management; space management; intergovernmental liaison; and public information.

The Trial Court Researchers, funded in part by the Trial Court Research Partnership Grant, provide research and statistical support for judiciary-wide research projects; prepare reports based on statistics and other data collected from the Montgomery County Circuit Court; establish links to national research/statistical sources relative to courts; and analyze court-wide programs, functions, and organizations to determine whether current management systems accomplish objectives efficiently.

Adjudication

Adjudication encompasses support staff for the judiciary and Differentiated Case Management (DCM). Conceptually, this division monitors case assignment (criminal, civil, and family cases); provides expedited case disposition for incarcerated offenders; and provides judicial supervision consistent with the complexity of each case filed. Adjudication/DCM improves the efficiency of case processing and reduces the demand for judicial intervention at various stages of litigation. To minimize case delay, each case is assigned to an appropriate track that allows for the performance of pre-trial tasks and allocates the appropriate level of judicial intervention. Tracks are monitored for performance and are evaluated based on established performance measures.

Family Division Services

This program provides a variety of services for children and families, most of them funded by the Family Law Grant. Services include case managers that provide day-to-day management of cases between Family Division Masters, judges, counsel, and litigants; custody mediation involving litigants in an effort to obtain a settlement of custody issues prior to litigation; the Family Law Self Help Center (formerly the Pro Se Project) staffed by attorneys and paralegals to help individuals representing themselves in uncomplicated family law cases involving divorce, custody and child support; psychological evaluations when psychological testing is necessary as an adjunct to arriving at a decision in the best interest of the children; best interest attorney (formerly guardian ad litem) appointments to specifically represent the interests of children; and operating expenses associated with managing the division.

Family Division Services also handles adoption investigations and child custody/visitation evaluations. After the establishment of a Court Order, independent evaluations for child custody/visitation and adoption investigations are conducted by Court staff possessing substantial experience in social science or suitable credentials in the field of social work. The evaluator meets with the litigants and children and interviews professionals and collateral references to ascertain the appropriate custodial situation for the children.

The Juvenile Division is also a part of Family Division Services and is responsible for oversight of Delinquency petitions, Children in Need of Assistance (CINA) petitions, Termination of Parental Rights (TPR) petitions, Voluntary Placement petitions, and Petitions for Peace Orders. These matters, which are governed by strict statutory timeframes, require a high degree of judicial oversight by the Court on a long term basis.

Grants

The Family Law Grant is funded by the State and provides services to families to reduce conflict and introduce the parties involved in litigation to problem-solving techniques to help reduce future litigation. See the Family Division Services Program for a description of the services supported by this grant.

The Trial Court Research Partnership Grant supports two Trial Court Researchers assigned to the Administration Program. These individuals provide research, analysis, statistical support, and related reports on County and judiciary-wide research projects.

The Montgomery County Juvenile and Adult Office of Problem Solving grants are funded by the State. The mission of the Juvenile Drug Court is to reduce substance abuse and delinquent conduct among youthful offenders by providing them and their families with intensive, comprehensive, individualized services. The mission of the Adult Drug Court is to eliminate drug abuse, crime, and their consequences by forging continuing partnerships with the Court, health treatment providers, concerned community organizations, and law enforcement. By leveraging its partnerships and its authority, the Court directs substance-abusing offenders into evaluation and treatment to achieve personal responsibility and productive citizenship.

The Rule of Law Grant is designed to improve the capacity of international legal institutions to implement reform. This initiative has been instrumental in the development of educational programs for bar associations, judges, lawyers, administrators, and - more recently - the executive and legislative branches of government. It has promoted the adoption of alternative dispute resolution methods, provided instruction in the use of technology, and trained legal professionals to effectively implement reforms to bring justice to citizens and help ensure a more democratic society.
