Description

This project which is in line with the multi-agency service park at the Webb Tract, provides for the feasibility analysis and site selection for the relocation of the Parks' Central Maintenance Facility at Shady Grove in order to facilitate the implementation of the Shady Grove Master Plan. County staff will lead the project management efforts for detailed design, and M-NCPPC staff will act as the client representative and coordinate efforts with the user groups. The current maintenance complex is located on 12 acres of land in the County Service Park on the east side of Crabbs Branch Way in Gaithersburg. The current facility includes 65,000 square feet of building space, with parking spaces for 370 staff and visitors, as well as storage for 220 maintenance vehicles and motorized equipment of various types. The facility houses the staff and equipment to support the 34,000 acre park system in the areas of fleet management, trades including carpentry, plumbing, HVAC, painting, masonry, electrical, heavy equipment, and construction. The facility operates Monday Friday, 6:00 a.m. 4:00 p.m., and must be centrally located in the County.

Estimated Schedule

The Program of Requirements completed in FY11. Detailed design and construction document preparation are underway with construction to begin in FY15. Construction funding is included in Project #360902, Montgomery County Department of General Services.

Justification

The 2006 Shady Grove Sector Plan recommends transit-oriented, mixed-use development on the County Service Park property, to capitalize on the proximity of the Shady Grove Metro stop. The relocation of the Parks' Maintenance Facility is part of a comprehensive relocation plan of County facilities from the properties on Crabbs Branch Way and will be an integral part of the overall Service Park relocation project. The Parks Department Shady Grove Maintenance Facility opened in 1981 and is undersized to serve the needs of the Park system which has nearly doubled over the last 30 years (now 34,000+ acres), including new facilities and maintained open space areas. Plans and studies for this project include: 2006 adopted Shady Grove Sector Plan; Montgomery County Property Use Study/Smart Growth Initiative; and 2004 Space Utilization and Land Use Study.

Other

In September 2009, the County purchased the Webb Tract, located on Snouffer School Road near Montgomery Village, as part of its Smart Growth Initiative to relocate several County facilities, including the Shady Grove Maintenance Yard. The Smart Growth Initiative aims at moving Government-related buildings away from the Shady Grove Metro Station and Interstate 270 to allow for transit-oriented development. Funding for this project was originally recommended by the County Executive as part of the Montgomery County Smart Growth Initiative - Planning Relocation, PDF #360902.

Disclosures

A pedestrian impact analysis has been completed for this project.

Coordination

Montgomery County Smart Growth Initiative - Relocation Planning PDF 360902, Department of General Services
