Description

This project provides for the design of a Criminal Justice Complex (CJC). The CJC will be constructed on the site of the existing District One Police Station located at the north end of Seven Locks Road. The primary function at CJC will be to operate as the Intake Unit, providing psychological and medical screening, risk assessment to determine the appropriate classification level of inmates for security assessment or deflection, initial care, custody, and security of inmates for up to 72 hours prior to transfer to the Montgomery County Correctional Facility (MCCF) in Clarksburg. The maximum number of beds at the CJC will be approximately 200, some of which may not be in hard spaces. In addition, the Central Processing Unit (CPU) will provide processing of arrested offenders by law enforcement. Other uses include: District Court Commissioners' area; Department of Health and Human Services Mental Health Assessment and Placement Unit; Pre-Trial Services Assessment Unit; Public Defenders Unit; and the Police Warrants and Fugitive Unit. The project incorporates technical requirements from the Detention Center Reuse project in addition to updated space requirements developed by an interagency working group, and will incorporate the results of a workgroup studying correctional population trends.

Location

1451 Seven Locks Road, Rockville, MD

Estimated Schedule

The schedule reflects beginning design in FY19.

Justification

This project is consistent with Council Resolution 13-356 passed by the County Council on December 5, 1995 which approved two jail facilities at two locations - Rockville and Clarksburg - as priority public safety uses. The renovation of the existing MCDC facility (Detention Center Reuse Project No. 429755) was determined not to be cost effective due to the need for significant capital expenditures, life cycle costs, and continued maintenance as a result of aging systems. It was determined to be cost effective to replace MCDC with a new Criminal Justice Complex facility.

Disclosures

A pedestrian impact analysis has been completed for this project.
