Cumulative Appropriation	410	Last FY's Cost Estimate	410
Expenditure / Encumbrances	-		
Unencumbered Balance	410		

PROJECT DESCRIPTION

Federal and State laws require MCPS to upgrade and maintain pollution prevention measures at schools and support facilities. The State of Maryland, Department of the Environment, through the renewal of Montgomery County's National Pollutant Discharge Elimination System (NPDES) Permit, has included MCPS as a co-permittee subject to certain pollution prevention regulations and reporting requirements not required in the past. As a co-permittee, MCPS will be required to develop a system-wide plan for complying with NPDES requirements. The plan could include infrastructure improvements that reduce the potential for pollution to enter into the stormwater system and area streams. A portion of the plan also will include surveying and documenting, in a GIS mapping system, the stormwater systems at various facilities. The Board of Education requested an FY 2010 appropriation and amendment to the FY 2009-2014 CIP of \$500,000 to begin the assessment and planning process, as well as to begin the implementation and construction of identified facilities needing modifications. It is anticipated that a significant portion of the first year's efforts will be focused on developing the required plans to prioritize the necessary infrastructure improvements. The County Executive did not recommend funding this project until further information was available. After review by MCPS, County Council, and County Executive staffs, the County Council approved an FY 2010 appropriation of \$410,000 to begin this assessment and planning process.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Mandatory Referral - M-NCPPC, Department of Environmental Protection, Building Permits:, Code Review, Fire Marshal, Department of Transportation, Inspections, Sediment Control, Stormwater Management, WSSC Permits
