PROJECT DESCRIPTION

The Facilities Assessment with Criteria and Testing (FACT) methodology for assessing school facility conditions was updated during 2010-2011. The purpose of the FACT assessment of MCPS facilities is to determine a sequence of facilities to schedule for modernization in the future. The selection of the 53 facilities to be assessed was based primarily on age, with most of the schools built or modernized prior to 1985. The Board of Education also requested that three special education program centers--Stephen Knolls, Rock Terrace, and Carl Sandburg, as well as four elementary school holding centers and the Blair G. Ewing Center be assessed. The Board of Education, in the Requested FY 2013-2018 Capital Improvements Program (CIP) recommended that the Carl Sandburg Learning Center be collocated with Maryvale Elementary School, once it is modernized; therefore, the Carl Sandburg Learning Center is not included in this project. To address capital needs of the facilities noted above, an FY 2013 appropriation was approved to conduct the first round of feasibility studies to identify improvements for these buildings. Recommendations for specific improvements to these facilities will be made in a future CIP.
