Cumulative Appropriation	-	Last FY's Cost Estimate	21,096
Expenditure / Encumbrances	-		
Unencumbered Balance	-		

## PROJECT DESCRIPTION

This project provides for the final design and construction of two 11-foot travel lanes for a one mile segment of Goldsboro Road (MD 614) from MacArthur Boulevard to River Road (MD 190), a 5-foot sidewalk along the north side, a 5-foot sidewalk on the south side at selected locations, a 5-foot minimum one-way separated bike lane in each direction as well as a 5-foot bike lane for northbound MacArthur Boulevard at the Goldsboro Road/MacArthur Boulevard intersection, and an 8-foot minimum shared use path at the NE and SE corners of the Goldsboro Road/MacArthur Boulevard intersection. The existing pedestrian bridge over Minnehaha Branch on the south side of Goldsboro Road near Wedgewood Road is proposed to be replaced.

## LOCATION

Goldsboro Road (MD 614) from MacArthur Boulevard to River Road (MD 190)

---

## CAPACITY

Upon completion, the Average Daily Traffic (ADT) on Goldsboro Road between MacArthur Boulevard and River Road will remain 11,400 vehicles per day west of Massachusetts Avenue and 16,400 vehicles per day east of Massachusetts Avenue.

## ESTIMATED SCHEDULE

Design to start in FY22. Land acquisition is projected in FY24. Construction is projected to begin in FY25 with completion in FY27.

## PROJECT JUSTIFICATION

This project will comply with the 1990 Bethesda-Chevy Chase Master Plan and the 2005 Countywide Bikeways Functional Master Plan, improve pedestrian and bicycle facilities, encourage usage and improve safety for all users. It will improve access to major destinations in and beyond the project area and ultimately connect to other sidewalk and bicycle facilities.

## OTHER

Goldsboro Road is identified in the 1990 Bethesda-Chevy Chase Master Plan as Arterial A-84 from MacArthur Boulevard to Massachusetts Avenue, and as Major Highway M-93 from Massachusetts Avenue to River Road. The Master Plan recommends that A-84 retain its two-lane section and that M-93 retain its two-lane section with consideration for the long-term expansion to its ultimate width of four lanes. The 2005 Countywide Bikeways Functional Master Plan proposes on-street bike lanes BL-1 along Goldsboro Road directly connecting to MacArthur Boulevard existing shared use path and proposed bike lanes DB-1, Massachusetts Avenue proposed shared signed roadway SR-50, and River Road proposed shared use path / signed shared roadway DB-2. The preliminary design costs for this project are covered in the "Facility Planning - Transportation" project (#509337). Vehicular traffic will be maintained during construction in phases. Right-of-way acquisition is required.

## DISCLOSURES

A pedestrian impact analysis has been completed for this project.

## COORDINATION

Facility Planning - Transportation CIP No. 509337, U.S. Army Corps of Engineers, Maryland State Highway Administration, Maryland Department of the Environment, National Park Service, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Montgomery County Department of Environmental Protection, Utilities
