Cumulative Appropriation	4,211		
Expenditure / Encumbrances	-		
Unencumbered Balance	4,211		

PROJECT DESCRIPTION

A comprehensive capacity study to address overutilization at several elementary schools in the lower section of the Downcounty Consortium was conducted during the 2014-2015 school year. This capacity study included the following schools: East Silver Spring, Forest Knolls, Highland View, Montgomery Knolls, New Hampshire Estates, Oak View, Takoma Park, Pine Crest, Piney Branch, Rolling Terrace, Sligo Creek and Woodlin elementary schools. Based on revised enrollment projections, enrollment at Piney Branch Elementary School will exceed 125 seats by the end of the six-year planning period. Piney Branch Elementary School is located on the smallest site in the county at 1.9 acres and there is little to no room for relocatable classrooms to accommodate overutilization at the school. Therefore, the Board of Education's Requested FY2017-2022 CIP included a five classroom addition for this school to address the space deficit. The County Council's adopted FY2017-2022 CIP includes funding for this project, with planning to begin in FY 2019. An FY 2019 appropriation was approved to begin planning this addition. An FY 2020 appropriation was approved for construction funds. During the planning and design phase of this project, it was determined that there were a number of challenges, including site constraints to complete this project. The KFI assessment for this facility also points to the need for a comprehensive facility upgrades. Therefore, the requested FY 2021-2026 CIP removes the approved expenditures for this addition project and, instead, identifies Piney Branch Elementary School as part of the next set of schools in the Major Capital Projects project. The requested FY 2021-2026 CIP does not include any expenditures for this project; however, future expenditures will be considered as part of the next full CIP cycle.
