PROJECT DESCRIPTION

This project provides funding for a new concept and plan for the Criminal Justice Complex (CJC) on the site of the former District One Police Station located at the north end of Seven Locks Road that will reflect updated circumstances, allow for better construction phasing, and will seek to enlist other partner agencies. For example, factors that will be reflected in the updated concept plan include the Mental Health Court, the Justice Reinvestment Act, and House Bill 116 which requires the Montgomery County Department of Correction and Rehabilitation to establish an opioid treatment program to include Medication Assisted Treatment. The new concept will include a Central Processing/Detention component to support processing new arrestees and detaining remanded individuals for up to 72 hours. Other uses include: District Court Commissioners; Department of Health and Human Services Mental Health Assessment and Placement Unit; Pre-Trial Services Assessment Unit; Public Defenders Unit; and the Police Warrants and Fugitive Unit. The project incorporates technical requirements from the Detention Center Reuse project in addition to updated space requirements developed by an interagency working group.

LOCATION

1451 Seven Locks Road, Rockville, Maryland

ESTIMATED SCHEDULE

The schedule supports planning in FY20 and FY21 while the feasibility of assembling sufficient outside support is determined.

COST CHANGE

State Aid has been removed from the project as alternative approaches are considered.

PROJECT JUSTIFICATION

This project is consistent with Council Resolution 13-356 passed by the County Council on December 5, 1995 which approved two jail facilities at two locations - Rockville and Clarksburg - as priority public safety uses. The renovation of the existing Montgomery County Detention Center facility (Detention Center Reuse Project No. 429755) was determined not to be cost effective due to the need for significant capital expenditures, life cycle costs, and continued maintenance as a result of aging systems. It was determined to be cost effective to replace the Montgomery County Detention Center with a new Criminal Justice Complex facility.

OTHER

The new approach is necessary in light of changing circumstances in the judicial and corrections systems and the relatively high cost of the initial project concept and lack of third party commitments. As a result, the County is taking an opportunity to rethink the approach to rectifying aging systems in the existing Detention Center. Short-term stabilization actions to support the existing space include consolidating operations, demolishing unused space, and stabilizing the remaining space.

Racial Equity Impact Assessment: When considering the location and design of building(s) that would offer pre-booking diversion services, the Department of Correction and Rehabilitation, along with other stakeholder agencies, will conduct a Racial Equity Impact Assessment that looks at the following:

- What is the proposal and what is it seeking to accomplish?
- How might the proposal impact communities and people of color differently?
- What do the data tell us?
- Who is impacted by the proposal?
- What are the recommended strategies to address unintended consequences and adverse impacts to promote racial equity with this proposal?

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.
