[EXTERNAL EMAIL]

Good evening,

Per your email on September 9th at 14:09 you stated the following:

"Good Afternoon All,

In preparation for the hearing on **September 19, 2024**, I will kindly ask that anyone who wishes to send in **any documents prior to attending this hearing sends it to me by noon on Friday, September 13, 2024**. So we can please get all the exhibits together. Even though the hearing is **IN PERSON ONLY**, I will post the exhibits online ahead of time so everyone can have access to what will be addressed at the hearing. Thank you

Nana Yaa Johnson"

Please refer to the highlighted portion above from your email.

If exhibit 39 was sent to you prior to the noon deadline of the 13th why is it time stamped on the top left corner "9/14/24 10:06am" [Please refer to the attached screenshot.]

If exhibit 39a was sent prior to the deadline of the 13th, why is the official letter signed by the objectors dated September 14th, 2024?

" **We cannot stop any new exhibits after the deadline from being provided at the hearing. We just ask for a deadline so we can get them done in a timely manner. "**

If that is the case then why is it not stated as such? Also I spoke to you over the phone and you also stated in your email to send it by noon on the 13th of september. You failed to inform the applicant and I that you would still accept it.

Respectfully,

Exhibit 41
OZAH Case No: ADO 25-01

Mrs. Santos

Good Evening Ms. Santos,

This is in response to your email about Exhibit 39 , 39 a. and 40, and not displaying them at the hearing. Yes, I posted it on the 14th of September, however the objector in Exhibit 40, emailed it to me on September 12th, at 12:43 p.m. well before the deadline. Unfortunately, I am the one who missed that email, so he had to email me to alert me that I had missed his timely submission, hence me posting it. We give a deadline for exhibits so on the back end we can get everything sorted out with IT just in case they are mishaps, not necessarily because the Hearing Examiner will not accept them, exhibits 39 and 39 a were sent to me at a time when I was working on the website so it was not tideous to post it.

The Hearing Examiner at the hearing can still under her discretion receive new exhibits so unfortunately we cannot stop any exhibits from showing. If you misunderstood my email for timely exhibits as meaning no exhibits can be provided after then I sincerely apologize. That is not what is meant at all, we cannot stop any new exhibits after the deadline from being provided at the hearing. We just ask for a deadline so we can get them done in a timely manner. Thanks

Nana
