MONTGOMERY COUNTY, MD

# Overview

As required by the County Council Resolution No. 19-472, the Office of Procurement must transmit a report on the status of Community Grant awards as of September 1, 2021. Therefore, this report includes and summarizes non-competitive contracts for County Executive and Council Community Grants for the Fiscal Year 2022 (FY22) and the average number of days for the Office of Procurement to execute Community Grant contracts. The report is displayed in a table that includes:

1. The total number of community grants placed on the County Council Resolution;
2. The total number of Community Grant contracts (new and renewals) received in the Office of Procurement as of September 1, 2021, and executed, including those valued under the direct threshold using the pre-approved grants template;
3. The average number of days for the Office of Procurement to execute Community Grants (new and renewals) by department and overall.

As of the date of this report, 91% of Community Grants were received in the Office of Procurement and have been executed. This includes an additional 33 Community Grant actions since September 1, 2021, of which 25 have been completed and eight are being processed. According to our report, 13 Community Grants from the County Council Resolution list have not been submitted to the Office of Procurement; the Department of Health & Human Services has nine to process and the Department of Housing and Community Affairs has four to process.

Moreover, it is important to note that Community Grant contracts with fiscal funding were not legally available until July 1, 2021. However, the Oracle enterprise systems allows departments and Procurement staff to begin preparing actions and funding documents as of early June each fiscal year. Therefore, the average processing days listed in this report were based on a process date of June 9, 2021 or later. For FY21, June 9, 2021, was the earliest that a department or Procurement staff could approve an

FY22 funded requisition or purchase order for FY22 contracts, including community grants, although it could not be released until July 1, 2021.
