# MFD Exclusions and Waivers

The Director, Office of Procurement, may determine that a contractor has or has not satisfied the MFD requirements. The determination to waive the MFD requirements is based on the rationale that subcontracting cannot be achieved for a variety of business-related reasons. Examples of reasons for each type of waiver are provided on this page. On the next page, a number corresponding to the number of the reason for waiver given below (1 to 6) is used in the summary table of FY22 waivers. The prospective contractor may request a waiver. The contractor must explain to the Director why the goal could not be achieved. This explanation must demonstrate that the prime contractor's failure to meet the goal is for reasons beyond the contractor's control. The contractor must explain to the Director why the goal could not be achieved. This explanation must demonstrate that the prime contractor's failure to meet the goal is for reasons beyond the contractor's control.

Waivers are granted for one of the following reasons:

1. Individual contractors including Recreational Instructors, Doctors, Nurses, etc., where subcontracting is impractical.
2. MFD firms listed on the subcontracting plan hold certifications not accepted by Montgomery County or not CVRS registered.
3. Manufacturers or their certified distributors for certain products that are not available for contracting Non-Professional Services.
4. Proprietary services or products owned and controlled by the prime contractor.
5. Economically impracticable.
6. Vendor claims that they have in-house capacity to perform the services.
