The regular meeting of the Solid Waste Advisory Committee (SWAC) was called to order by the Vice-Chair at 5:40 PM on September 7, 2016, in the 6th Floor Conference Room at the Executive Office Building (EOB). Introductions were then made.

**Non-Residential Presentation**

Waste study by code every five years. Used to determine distribution of the systems benefits charges. Base charge to cover admin, program, and disposal. Incremental charge covers recycling, outreach, MRF, and composting. There are 5 generation categories [low (less than 2 lb/sqft) through High (more than 8 lb/sqft)].

Study construction – rely on hauler and the collection routes that are established. Sample routes and customer lists. Using Load scales and pick-up data for last two studies. Match hauler list to LUCG (Land Use Code G) codes to get category weights. Data source kept at arm's length via a third party data manager.

**OLD BUSINESS**

Approve Past Minutes: June minutes were not available for review.

Subcommittee Reports:
- Planning: no report
- Recycling: see discussion
- Budget: no report
- Interview Committee: New member interviewed, offered, and accepted.
NEW BUSINESS

Collections in Sub district A and Sub district B:
No discussion.

Food Scraps – Status of County Effort

Robin reviewed the plan that was presented to the other managers of the department. Just a pilot program. Many questions:
  • How do you set that group? Fixed area or volunteer?
  • What type bin do we use? Paper in or out?
  • Include paper? Depends on processor.
  • Plastic bags?
  • How to run a pilot that can be scaled up to the full County?
  • YDW / Food mix not going to happen.

PUBLIC COMMENTS

None

ADJOURN

Meeting was adjourned. Next Meeting set for October 5, 5:30 PM, in the 6th Floor Conference Room at the Executive Office Building (EOB).
