

Want to Call instead of write? You Can! In the pandemic, Councilmembers and staff are working from home but you should leave a message. When you call be sure that you mention the following things:

- Conditional Use is the only legal way for solar to exist in the Ag Reserve – it is a compromise that meets our climate goals and protects forests, farmland and water quality.
- Excluding both Class 1 and 2 soils for siting solar fields and then allowing Class 3 soils that total 33,154 acres will easily accommodate the proposed 1,800 acres of solar fields in the AR zone.
- Thank them for protecting the Ag Reserve.
