Subject: 2021 Farm to Food Bank Capacity Building Grant Program

Hello Phenomenal Farmers,

The application for the 2021 Farm to Food Bank Capacity Building Grant Program is now OPEN!

This year \$100,000 in funding will be awarded to assist Montgomery County-based food producing farms with the purchase of equipment, and/or to build food production capacity and infrastructure in order to contribute to the Montgomery County Farm to Food Bank program in 2022. Montgomery County farms can apply for up to \$10,000.

Applications for the grants are due by noon on Tuesday, November 30, 2021, and funds will be distributed beginning January 3, 2022.

Grant awards are made possible by Food for Montgomery, a fund of the Greater Washington Community Foundation and the County Department of Health and Human Services (DHHS). These funds are designated to

support the Farm to Food Bank program for FY22 with a goal of expanding community access to local foods.

To submit an application, [please click here](#).

An information session will be held via Zoom on **Thursday, November 18th from 3-4pm for interested applicants only. Save the date now. We'll send out a link to register for that very soon!** Before then, the Food Council has generously offer support through the application process so if **you need additional information please reach out to the Food Council staff at info@mocofoodcouncil.org.**

We look forward to receiving your applications!

**Best,
Jenna**
