**[EXTERNAL EMAIL]**

Jeremy and Mike,

I was reviewing my email and realized that I forgot an important detail. We are still fleshing out the Implementation Chapter, but wanted to get it out for the groups to review. We expect you'll have some feedback on what we've got there so far.

Thanks again!  
Jamey

**Subject:** RRFMP Update - Introduction and Implementation Chapters + Crash and Traffic Analysis

Jeremy and Mike,

For your weekend reading pleasure, I have copied a draft of the Introduction and Implementation Chapters for the Rustic Roads Functional Master Plan Update to [the file transfer folder on our website](#). The document to look for has a fairly obvious name.

You will also find a Traffic and Crash Analysis Report, some tables that go with that analysis, and then two more map documents that start with the name "Road-By-Road Crashes" that show all the crashes on the existing and nominated rustic roads.

The other files in that file transfer folder are the ones we already sent: draft road profiles, the summary of the recommendations and significant features, and a couple of maps and a map key for help locating all the roads (in case you would like a way to look at things geographically instead of alphabetically).

If you could spread the word to the various agricultural groups you interact with, I would greatly appreciate it!

We look forward to our discussion coming up this week.

Thank you!  
Jamey
