Subject: Allen Family Foods claiming bankruptcy

Hi everyone –

Wanted to make sure you knew about this:

http://weblogs.baltimoresun.com/news/local/politics/2011/06/eastern_shore_senator_laments.html

This will have significant impacts on the Shore. Beyond the layoffs at the Cordova plant, this could cause poultry growers north of 301 to lose contracts, as producers are already saying they will not ship to their processing facilities from that far away. It will also have ripple effects; for example, farm credit has some loans tied up in the bankruptcy situation.
