For DEC 12, 2012 PRESS RELEASE please click [here](#).

Thirty-five years ago, a group of interested people convened a conference on the future of agriculture around Sugarloaf Mountain. Their work led to the creation of the Montgomery County Agricultural Reserve in 1980, and supported the farm culture in Frederick County. Now a current group of interested people in Frederick and Montgomery Counties are planning another conference to ensure viable agricultural systems for the next generation.

Focused on two neighboring counties in the Washington DC metropolitan area, this conference will gather together farmers, consumers, citizen advocates, government agencies and other interested parties. Participants will discuss the current state of agriculture in Frederick and Montgomery counties and identify both the obstacles and opportunities that exist for sustainable agricultural productivity in the region.

In Montgomery County more than 100,000 acres are set aside by ordinance for the preservation of agriculture. Montgomery County farmers harvest commodity crops, hay, fruits and vegetables, both conventional and certified organic. County farms also produce livestock including sheep, goats, llamas, alpacas, pigs, chickens, horses and cattle.

The Frederick County agricultural community is strong in dairy and grain. More than 80% of Frederick's land zoned for agriculture is used to grow corn, soybeans, wheat, barley and hay. The dairy industry makes up 40% of the annual gross agricultural sales in the county. Frederick has seen a strong diversification in the agricultural industry over the last ten years with Christmas tree farms, wineries, nurseries, organic and specialized agriculture farms becoming more prevalent.

Farmers in the area face increasing challenges associated with continuing residential development, limited marketing opportunities, challenges transporting commodities to market, increased local and state regulations and difficulty incorporating new opportunities on the farm such as alternative energy production. To ensure the continued viability of agriculture in Frederick and Montgomery counties, as well as similar areas nearby, a concerted effort must be made to understand agriculture as it exists today, the challenges it will face tomorrow, and to encourage its continued growth in the metropolitan area.

Lewis Orchard Farm Market, Dickerson, Maryland

---

## Conference Objectives

Develop information and ideas that can be used to advance productive and profitable agriculture and strong farm communities in Montgomery and Frederick Counties for the next generation. The core work of the conference will be done in three panels.

By the end of the conference, participants (including panelists) will have:

1. Gained greater appreciation of the economic and environmental challenges and opportunities the diverse farming operations in our region will confront in coming decades.
2. Discovered common interests among the different types of agricultural enterprises and among various non-farm stakeholders in the 2 counties.
3. Recommended actions that the various stakeholders could take to help achieve the goal of a vibrant agricultural industry integrated into the broader life of our metropolitan region.

If you would like to work on a conference committee, or have any questions or suggestions, please email us at [info@farmingatmetrosedge.com](mailto:info@farmingatmetrosedge.com).

## Sponsor Levels and Benefits

### Bumper Crop \$10,000- \$20,000

- Co-branding as conference partner on all publications (mailers, email marketing, website, social media, press releases, programs, on-site signage)
- Remarks and/or recognition at all conference events.
- Premium exhibit space
- Two complimentary conference registrations including meals.
- Sponsor feature in online newsletter and on website.

### Bountiful Harvest \$5,000-\$9,999

- Exclusive sponsor for one general session (Saturday Keynote, 1 of 3 sessions, or Saturday Reception)
- Remarks and/or recognition at sponsored session
- Premium logo exposure on printed conference program.
- Premium exhibit space
- Two complimentary conference registrations including meals.
- Sponsor feature on website.

### Golden Fleece \$1,000-\$4,999

- Name on print and online conference marketing materials.
- Standard exhibit space
- Two complimentary conference registrations including meals.

### American Grown \$200-\$999

- Name on print and online conference marketing materials.
- Standard exhibit space
- One complimentary conference registration including meals.

### Cultivators \$50

- Name listed in Conference Program
- Tabletop exhibit space.
