This proceeding is a petition pursuant to Section 59-A-4.11(b) of the Zoning Ordinance (Chap. 59, Mont. Co. Code 1994, as amended) for a variance from Section 59-C-9.45. The petitioner proposes to construct an accessory structure (pool) in the side yard and Section 59-C-9.45 requires that accessory structures are to be located in the rear yard only.

The subject property is Lot 25, Block A, located at 513 Tanbark Court, Brinklow, Maryland, in the RC Zone (Tax Account No. 03047168).

Decision of the Board: Requested variance granted.

EVIDENCE PRESENTED TO THE BOARD

1. The petitioner proposes to construct a 20 x 40 foot accessory structure/pool in the southern side yard. See, Exhibit Nos. 5(a) and 5(b). The petitioner testified that his property is an oddly shaped lot located on a cul-de-sac.

2. The petitioner testified that when he received a building permit to begin the construction of his home in November of last year, he was informed that the pool could only be built in the side yard.

3. The petitioner testified that the pool would not be significantly visible from the street and that the pool would be located in a side yard that adjoins a tree conservation area. See, Exhibit Nos. 4(a) and 4(b).

4. The petitioner testified that he has spoken with his neighbors and that he has received the support of his neighbors and the approval of his architectural committee. A letter of support was entered in the record as Exhibit No. 13.

FINDINGS OF THE BOARD

Based on the petitioner's binding testimony and the evidence of record, the Board finds that the variance can be granted. The requested variance complies with the applicable standards and requirements set forth in Section 59-G-3.1 as follows:

(a) By reason of exceptional narrowness, shallowness, shape, topographical conditions, or other extraordinary situations or conditions peculiar to a specific parcel of property, the strict application of these regulations would result in peculiar or unusual practical difficulties to, or exceptional or undue hardship upon, the owner of such property.
The property is an oddly shaped lot with a septic system located in the rear yard. The Board finds that these conditions are unusual and peculiar to the property, and that the strict application of the regulations would result in an undue hardship and practical difficulties for the property owner.

(b) Such variance is the minimum reasonably necessary to overcome the aforesaid exceptional conditions.

The Board finds that the variance requested for the construction of a pool in the side yard is the minimum reasonably necessary to overcome the unusual conditions of the property.

(c) Such variance can be granted without substantial impairment to the intent, purpose and integrity of the general plan or any duly adopted and approved area master plan affecting the subject property.

The proposed construction would continue the residential use of the property and the variance will not impair the intent, purpose, or integrity of the general plan or approved area master plan.

(d) Such variance will not be detrimental to the use and enjoyment of adjoining or neighboring properties.

The record contains no testimony or correspondence in opposition to the variance request and the petitioner has received the support of his neighbors and his architectural committee. The Board finds that the proposed construction would not be detrimental to the use and enjoyment of the neighboring and adjoining properties and that the pool would be surrounded by a tree conservation area.

Accordingly, the requested variance to permit the construction of an accessory structure (pool) in the side yard is granted subject to the following conditions:

1. The petitioner shall be bound by all of his testimony and exhibits of record, to the extent that such evidence and representations are identified in the Board’s Opinion granting the variance.

2. Construction must be completed according to plans entered in the record as Exhibit Nos. 4(a) and 4(b) and 7.

The Board adopted the following Resolution:
