This proceeding is a petition pursuant to Section 59-A-4.11(b) of the Zoning Ordinance (Chap. 59, Mont. Co. Code 1994, as amended) for a variance from Sections 59-C-1.323(a) and 59-B-3.1. The petitioners propose to construct a covered porch that requires a 3.06 foot variance as it is within twenty (20) feet of the established front building line. The established front building line is 23.06 feet.

The subject property is Lot 5, Block 5, Donneybrook Estates Subdivision, located at 8501 Farrell Drive, Chevy Chase, Maryland, in the R-60 Zone (Tax Account No. 1293380).

Decision of the Board: Requested variance denied.

EVIDENCE PRESENTED TO THE BOARD

1. The petitioner proposes to construct a 6 x 17.4 foot covered porch.

2. The petitioner testified that the residence is located on a hill and that the property has steep downward slope from front to rear. The petitioner testified that the topography of the neighboring lots also slopes, but that her lot has the most severe slope.

3. The petitioner testified that the lot backs up to a creek and that a covered area could not be located elsewhere on the property.

FINDINGS OF THE BOARD

Based upon the petitioner’s binding testimony and the evidence of record, the Board finds that the variance must be denied. The requested variance does not comply with the applicable standards and requirements set forth is Section 59-G-3.1(a) as follows:

(a) By reason of exceptional narrowness, shallowness, shape, topographical conditions, or other extraordinary situations or conditions peculiar to a specific parcel of property, the strict application of these regulations would result in
peculiar or unusual practical difficulties to, or exceptional or undue hardship upon, the owner of such property.

The Board finds that the shape of petitioner’s lot is not unique or peculiar and has no exceptional topographical conditions that are not shared by the neighboring properties.

Since the petition does not meet the requirements of Section 59-G-1.3(a), the Board finds that it does not need to consider the other requirements for granting a variance. Accordingly, the requested variance of 3.06 feet from the required 23.06 established front building line for the construction of a covered porch is denied.

The Board adopted the following Resolution:
