This proceeding is a petition pursuant to Section 59-A-4.11(b) of the Zoning Ordinance (Chap. 59, Mont. Co. Code 1994, as amended) for a variance from Section 59-C-1.323(a). The proposed construction of a carport requires a 22.30 foot variance as it is within 7.70 feet of the front lot line. The required setback is thirty (30) feet.

The subject property is Lot 4, Block 7, Burning-Tree Valley Section 4 Subdivision, located at 7837 Cayuga Avenue, Bethesda, Maryland, in the R-90 Zone (Tax Account No. 00653870).

Decision of the Board: Requested variance granted.
variance can be granted as a reasonable accommodation to the petitioner’s disability under Americans With Disabilities Act (ADA) provisions.

Title II of the ADA (42 U.S.C.A. §12132) has been held to apply to zoning decisions, which constitute an “activity” of a public entity within the meaning of the ADA. (See Mastandrea v. North, 361 Md. 107, 126, 760 A.2d 677, 687, at n.16, citing Trovato v. City of Manchester, N.H., 992 F. Supp. 493, 497 (D.N.H. 1997)).

Under the ADA, a local jurisdiction is required to reasonably modify its policies when necessary to avoid discrimination on the basis of disability, unless it is shown that the modifications “would fundamentally alter the nature of the service, program or activity.” 28 C.F.R. §35.130(b)(7) (1997). Therefore, unless the proposed accommodation would “fundamentally alter or subvert the purposes” of the zoning ordinance, the variance must be granted under Title II of the ADA. Trovato, 992 F. Supp. at 499.

The ADA defines a disability for an individual, in pertinent part, as “a physical or mental impairment that substantially limits one or more of the major life activities of (an) individual.” 42 U.S.C.A. §12102(2)(A).

The Board finds that the petitioner’s limited mobility, as the combined result of his spinal and heart conditions, restricts his major life activity of walking. The Board finds that the proposed construction of a carport would permit the petitioner safe access to his automobile and constitutes a reasonable modification to permit the petitioner the use and enjoyment of the premises of his residence.

The Board further finds that the proposed construction of the carport, which is designed as an open, wood frame structure, will allow the structure to be readily dismantled in the future.

Therefore, based upon the petitioner’s binding testimony and the evidence of record, the Board finds that the grant of the requested variance is a reasonable accommodation of the petitioner’s disability because (1) it will have a minimal impact on the adjacent neighbor; (2) the proposed construction is necessary to permit the petitioner secure movement from his house to his automobile; and (3) the proposed structure can be easily removed when no longer required for the petitioner’s use.

Accordingly, the requested variance of 22.30 feet from the required thirty (30) foot front lot line setback is granted subject to the following conditions:

1. The petitioner shall be bound by all of his testimony and exhibits of record, to the extent that such evidence and representations are identified in the Board’s Opinion granting the variance.

2. Construction must be completed according to plans entered in the record as Exhibit Nos. 5 and 6(a) and 6(b).

3. The variance is granted to the petitioner only, and the carport shall be removed at such time as it is no longer required in relation to petitioner’s medical condition or the petitioner no longer resides on the property.

The Board adopted the following Resolution:

BE IT RESOLVED by the Board of Appeals for Montgomery County, Maryland, that the Opinion stated above is adopted as the Resolution required by law as its decision on the above entitled petition.

On a motion by Louise L. Mayer, seconded by Allison Ishihara Fultz, with Donna L. Barron, Angelo M. Caputo and Donald H. Spence, Jr., Chairman, in agreement, the Board adopted the foregoing Resolution.

Donald H. Spence, Jr.
Chairman, Montgomery County Board of Appeals
