This proceeding is a petition pursuant to Section 59-A-4.11(b) of the Zoning Ordinance (Chap. 59, Mont. Co. Code 1994, as amended) for a variance from Sections 59-C-1.323(a) and 59-B-3.1. The petitioner proposes to construct a covered porch that requires a 8.50 foot variance as it is within 28.50 feet of the established front building line. The required setback is thirty-seven (37) feet.

Nancy and Rogelio Novey, the petitioners, attended the public hearing.

The subject property is Lot 35, Block 57, Chevy Chase Section 2 Subdivision, located at 25 Oxford Street, Chevy Chase, Maryland, in the R-60 Zone (Tax Account No. 79456068).

Decision of the Board: Requested variance denied.

**EVIDENCE PRESENTED TO THE BOARD**

1. The petitioners propose to construct a 10 x 5 foot covered porch.

2. The petitioners testified that the residence is peculiar because the prior owner built the structure around a four-car garage to house his car collection. See, Exhibit No. 12(a). The petitioners testified that they remodeled the house and that the residence now has a two-car garage. See, Exhibit No. 12(b).

3. The petitioners testified that the other homes in the neighborhood have driveways that lead up to the living area, the rear, or the side of the property, but that their driveway and garage are located in the middle of the property.

4. The petitioners testified that the proposed construction would permit the repair and the widening of the fire escape to the front door. The petitioners testified that the fire escape is 3½ feet wide, made of metal and is in need of repair.

5. The petitioners testified that they have received the approval of Historic Preservation Commission. In response to questions from the Board, the petitioners stated that their residence is a not contributing structure in the district, and that the designation is a result of the description of the district.
FINDINGS OF THE BOARD

Based upon the petitioners' binding testimony and the evidence of record, the Board finds that the variance must be denied. The requested variance does not comply with the applicable standards and requirements set forth is Section 59-G-3.1(a) as follows:

(a) By reason of exceptional narrowness, shallowness, shape, topographical conditions, or other extraordinary situations or conditions peculiar to a specific parcel of property, the strict application of these regulations would result in peculiar or unusual practical difficulties to, or exceptional or undue hardship upon, the owner of such property.

The Board finds that the petitioners’ property has no topographical or other conditions that are peculiar to the lot. The Board finds that the lots in the petitioners’ immediate neighborhood are of similar size and, if anything, the petitioners’ lot is somewhat wider. See, Exhibit No. 8.

The Board observes that the design and the internal plan of the residence is very unusual, however this characteristic of the structure is not a basis for granting a variance.

The petition does not meet the requirements of Section 59-G-3.1(a) and the Board did not consider the other requirements set forth in that section of the Zoning Ordinance for the grant of a variance. Accordingly, the requested variance of 8.50 feet from the required thirty-seven (37) foot established front building line is denied.
