This proceeding is a petition pursuant to Section 59-A-4.11(b) of the Zoning Ordinance (Chap. 59, Mont. Co. Code 1994, as amended) for variances from Section 59-C-1.323(b)(1). The existing carport requires a variance of seven (7) feet as it is within one (1) foot of the side lot line setback and of five (5) feet as it reduces the sum of both side yards to thirteen (13) feet. The required side lot line setback is eight (8) feet and the required sum of both side yards is eighteen (18) feet.

Medus Chicas, the petitioner’s son, represented the petitioner at the public hearing.

The subject property is Lot 4, Block 18, Glenmont Hills Subdivision, located at 13003 Estelle Road, Silver Spring, Maryland, in the R-60 Zone (Tax Account No. 01196831).

Decision of the Board: Requested variances denied.

EVIDENCE PRESENTED TO THE BOARD

1. The petitioner seeks a variance for the existing 37 x 10 foot carport with storage.

2. Mr. Chicas testified that the carport was built without a building permit and that the petitioner, at the time of construction, was unaware of the required setbacks. Mr. Chicas testified that the basement of the residence receives the runoff water from his lot and the neighboring properties and that the carport was constructed to prevent the basement from flooding.

3. Photographs of the area affected by the runoff water were entered into the record as Exhibit Nos. 11(a)-(d).

FINDINGS OF THE BOARD

Based upon the petitioner’s binding testimony and the evidence of record, the Board finds that the variances must be denied. The requested variances do not comply with the applicable standards and requirements set forth is Section 59-G-3.1(a) as follows:
(a) By reason of exceptional narrowness, shallowness, shape, topographical conditions, or other extraordinary situations or conditions peculiar to a specific parcel of property, the strict application of these regulations would result in peculiar or unusual practical difficulties to, or exceptional or undue hardship upon, the owner of such property.

The Board finds that the petitioner's lot has no exceptional topographical or other conditions that are not shared by neighboring and adjoining properties. The Board finds that the property is similar in shape and size to other lots in the immediate neighborhood, as shown on Exhibit No. 8 (zoning vicinity map).

Photographs showed possible causes of basement flooding that could be corrected by other than the grant of the requested variance and the Board finds that the drainage problems of the lot could handled by means other than the construction of a carport.

(b) Such variance is the minimum reasonably necessary to overcome the aforesaid exceptional conditions

The Board finds that the existing structure is not the minimum reasonably necessary.

The petition does meet the requirements of Section 59-G-1.3(a) and (b), and the Board did not consider the other requirements set forth in that section for the grant of a variance. Accordingly, the requested variances of seven (7) feet from the required eight (8) foot side lot line setback and of five (5) feet from the required eighteen (18) foot sum of both side yards for the existing carport are denied.
