  **Description:** Attach three antennas and 8 remote radio heads (RRH) at 460' on an existing 480' tower. Equipment to be installed within an existing fenced compound along with a ground mounted satellite dish antenna.  
  **Tower Coordinator Recommendation:** Recommended with condition that applicant must apply to the Board of Appeals for a modification of the existing Special Exception (S-656) if necessary. Recommendation is subject to compliance with all applicable laws.
Jasmina Rivas summarized the application and noted that a Special Exception exists for this site. Marjorie Williams indicated that this application would be recommended with condition that the applicant must apply to the Board of Appeals for a modification of the existing Special Exception (S-656) if necessary.

**Motion:** Michelle Grace moved that the application be recommended. Thomas Williamson seconded the motion. Gregory Russ abstained from voting and all other members recommended the application.

9. **Application Number:** 2019030740  **Type:** Colocation  **Received (date):** 3/22/2019  **Revised:** 5/16/2019

**Applicant:** Ion Media  
**Site Name/Location:** Pinnacle Towers/5202 (aka 5208) River Rd, Bethesda  
**Zoning Standard:** IM-2.5  
**Property Owner:** Pinnacle Towers Inc  
**Description:** Attach one television transmission antenna at 772' on an existing 745' media broadcast tower. Install a satellite dish antenna at ground level on a new 12'x12' concrete pad within a 16'x16' extension to an existing compound. Install a diesel generator at ground level on a new 14'x6' concrete pad within the existing compound.  
**Tower Coordinator Recommendation:** Recommended with the condition that a satisfactory routine environment report is filed with the TFCG before the applicant files with the Department of Permitting Services, and that the application complies will all zoning requirements and applicable laws.

Jasmina Rivas summarized the application and indicated that a Special Exception did exist for this tower site, but that it only pertained to cellular antennas. The Special Exception from 1994 also involved the construction of a one-story building on the property. The Special Exception in question is S-2093. Marjorie Williams added that the Board of Appeals would have to make a ruling on whether an amendment would be needed to this Special Exception. Marjorie Williams clarified that this application would only be recommended with conditions. The TFCG’s recommendation would be conditioned on three things. First, the applicant would first have to submit a complete and satisfactory routine environmental report. Second, the applicant would have to contact the Board of Appeals to determine whether an amendment to any existing special exception is needed. Third, the applicant would have to comply with all zoning requirements and applicable laws. These applicable laws require having to contact the State Highway Administration, DPS ROW Permitting, or any other County entities that would help coordinate the safe placement of this 56' antenna via helicopter on this 745' tower. Karl Yochter on behalf of Ion Media indicated that Ion had contacted the Audi Service Center adjacent to this property and had spoken to them about airlifting the antenna from their property to avoid street closures and other safety hazards. Michelle Grace indicated that a Montgomery County Parks Property was adjacent to this site and that the applicant would have to do due diligence so as to not interfere or disturb Montgomery County Parks property. Regarding the routine environmental report Shawn Thompson mentioned that the applicant had confirmed that the report would be prepared by no later than 6/6.
Motion: Michelle Grace moved that the application be recommended with the conditions mentioned above. Thomas Williamson seconded the motion. Gregory Russ abstained from voting and all other members recommended the application.

The meeting was adjourned.

The next TFCG meeting is scheduled for July 10, 2019, at 2 p.m. at 51 Monroe St., Suite 300.
