

This map illustrates the geographic distribution of the Black population within the Washington, D.C. metropolitan area. The population density is represented by varying shades of gray, with the darkest areas indicating the highest concentrations. These high-density zones are primarily located in the central and eastern parts of the region, including areas around Gaithersburg, Rockville, and Silver Spring. The map also shows major transportation corridors such as I-495, I-270, I-70, and I-95, as well as surrounding cities and the Washington Dulles International Airport.

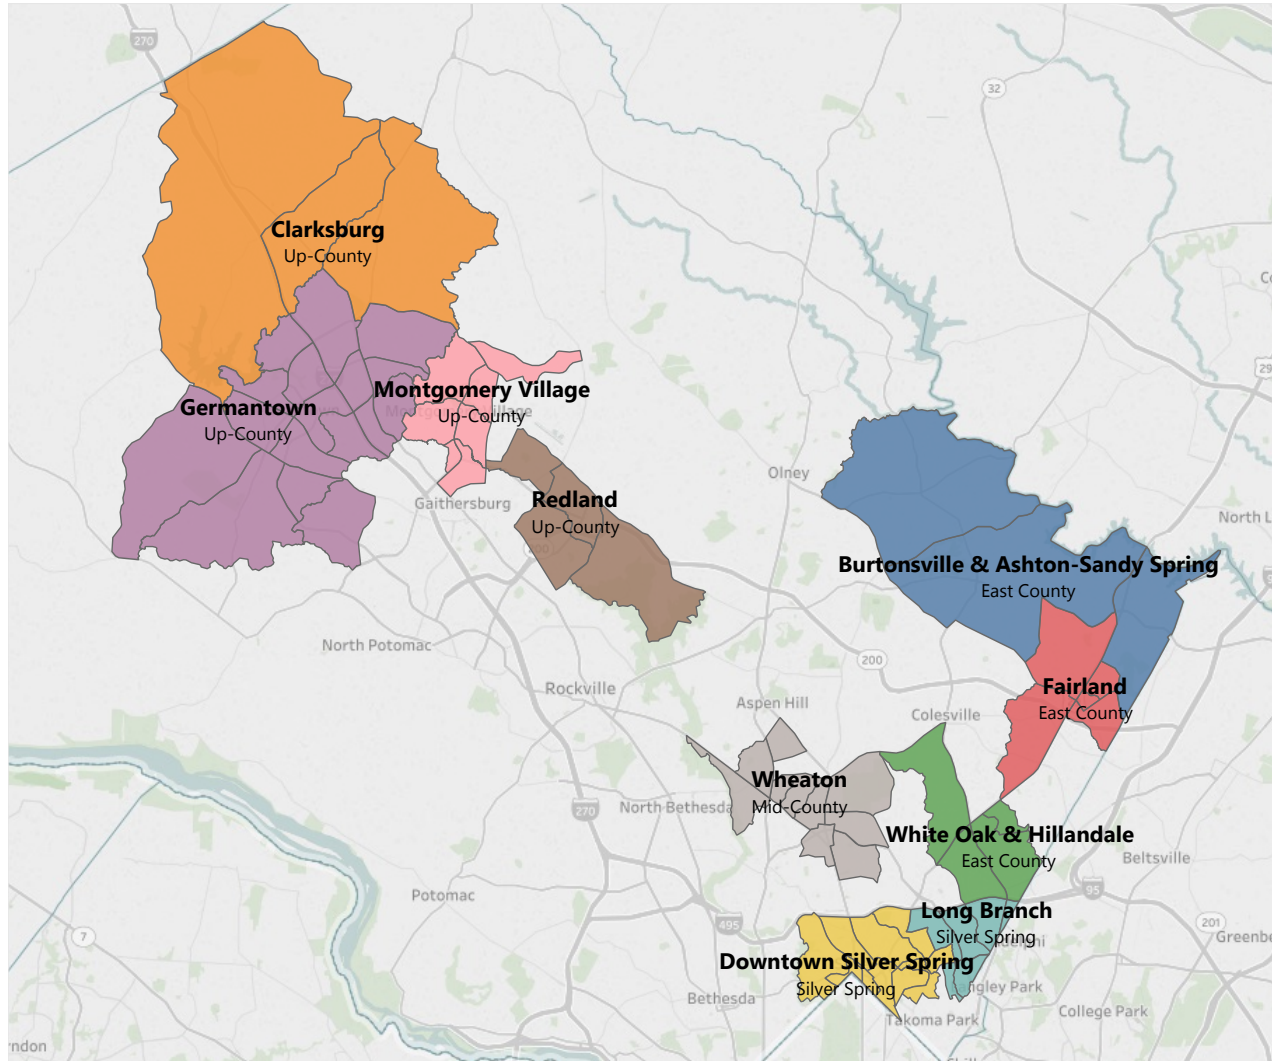

10 Census Tracts with Highest Predicted Percentage of Non-Respondents

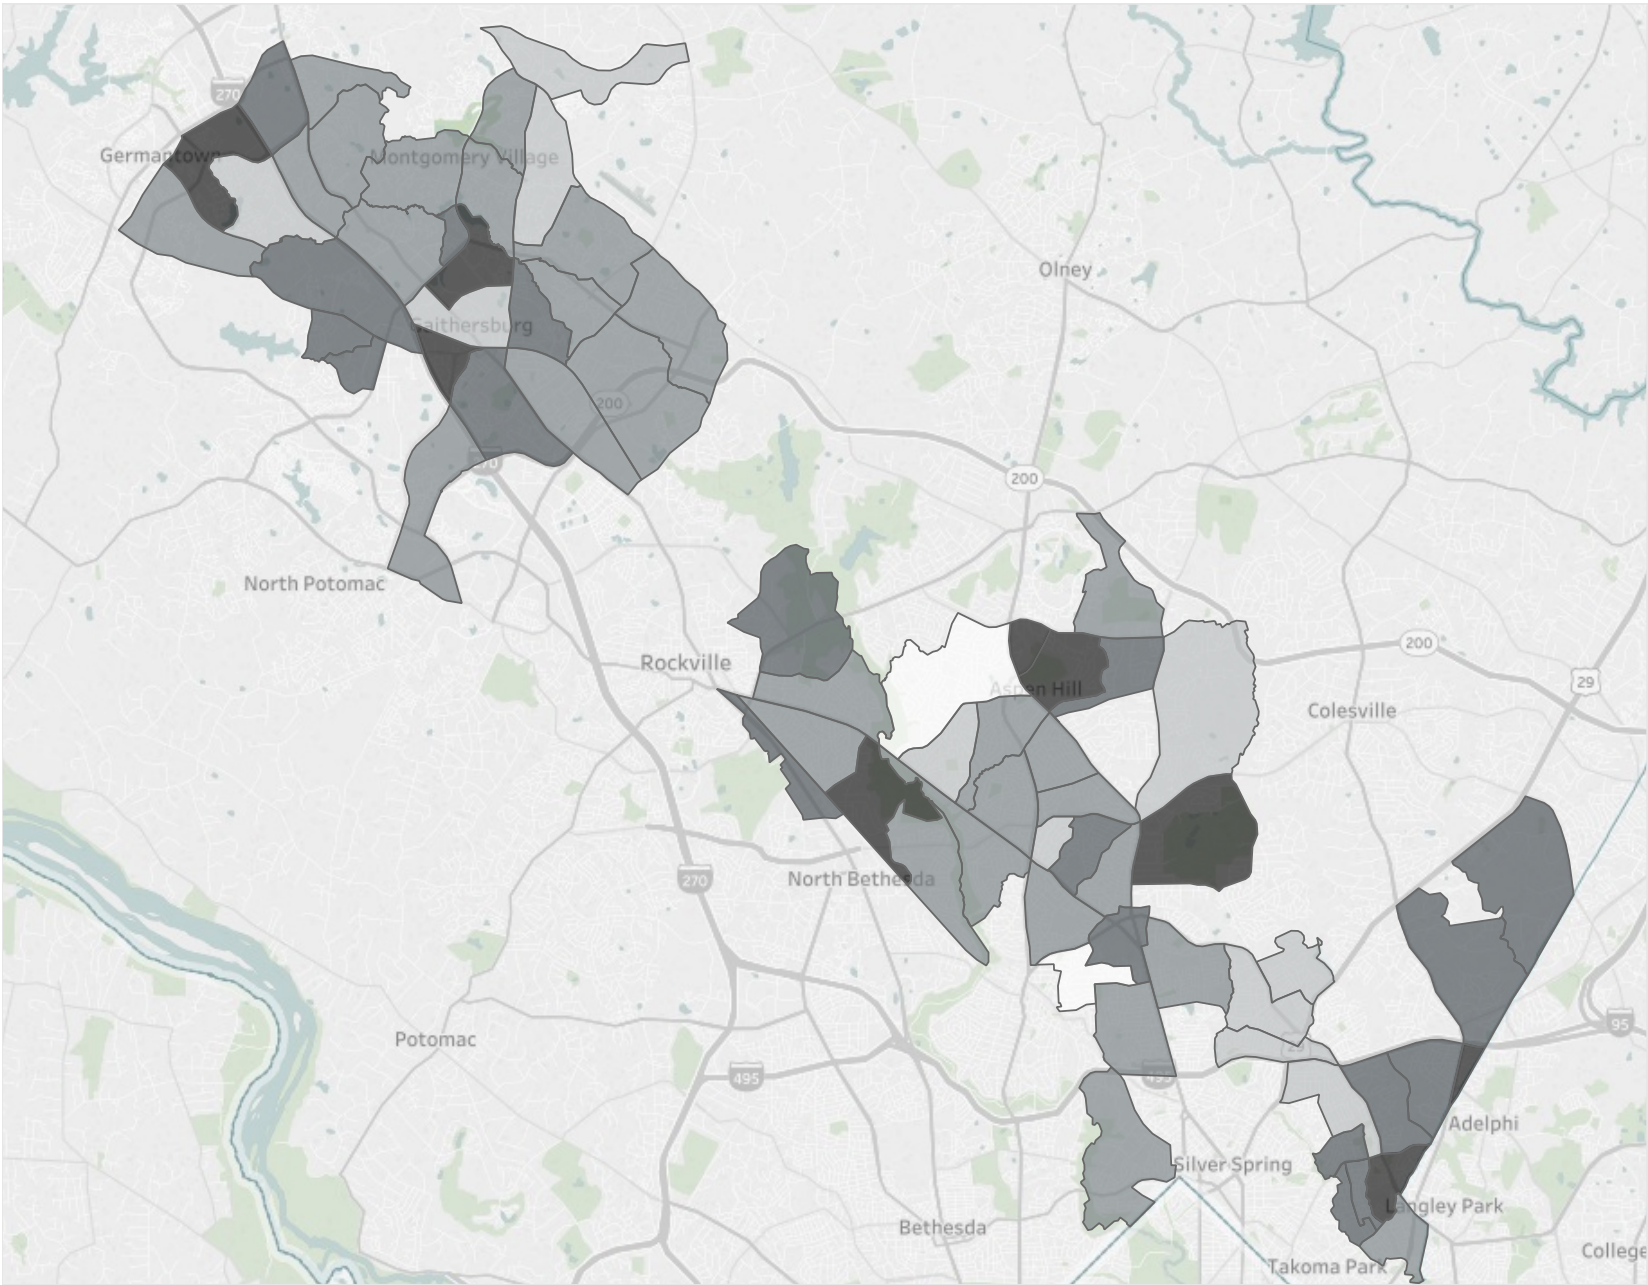

| Rank | Rate | In neighborhood | Specific location |
|------|-------|--------------------|---|
| 1 | 35.8% | Fairland | Knights Bridge I Apartments, Windsor Court and Tower Apartments & Woodvale Apartments |
