

# TABLE OF CONTENTS

**TABLE OF CONTENTS**

EXECUTIVE SUMMARY ..... S-1

I. INTRODUCTION ..... I-1

II. PURPOSE AND NEED ..... II-1

A. Purpose and Goals..... II-1

B. Project Need..... II-1

III. ALTERNATIVES RETAINED FOR DETAILED STUDY ..... III-1

A. Description of the Alternatives Retained for Detailed Study ..... III-3

1. Alternative 1 – No-Build ..... III-3

2. Alternative 2 – Transportation System Management / Travel Demand Management..... III-3

3. Alternative 4 Modified – Brink-Wightman-Snuffer School-Muncaster Mill.. III-6

4. Alternative 5 – MD 355 with Service Roads ..... III-10

5. Alternative 8 – Master Plan Alignment Truncated at Watkins Mill Road ..... III-13

6. Alternative 9 – Master Plan Alignment ..... III-16

7. Alternative 8 and Alternative 9 Typical Sections ..... III-18

8. Northern Terminus Options ..... III-19

B. Modifications to Reduce Impacts ..... III-20

1. Alternatives 8 and 9 ..... III-20

2. Alternative 4 Modified..... III-24

3. Alternative 5..... III-25

IV. TRANSPORTATION MEASURES OF EFFECTIVENESS ..... IV-1

A. Accommodate Planned Land Use and Future Growth ..... IV-1

B. Reducing Existing and Future Congestion ..... IV-2

C. Enhance Network Efficiency and Connections between Economic Centers..... IV-4

D. Improve Vehicular Safety ..... IV-5

E. Facilitate and Provide Bicycle and Pedestrian Connections..... IV-6

F. Enhance Homeland Security..... IV-8

G. Improve the Quality of Life ..... IV-10

V. ADDITIONAL IMPACT ANALYSIS SINCE THE DRAFT EER ..... V-1

A. Parks and Forest..... V-1

B. Section 106 Coordination ..... V-1

C. Forest Interior Dwelling Species (FIDS) ..... V-5

VI. CONSIDERATION OF COMMENTS RECEIVED ..... VI-1

A. Agencies..... VI-1

B. Public ..... VI-1

C. M-NCPPC Planning Board Recommendation..... VI-4

VII. PREFERRED ALTERNATIVE..... VII-1

|  |        |
|--|--------|
| A. Evaluation of Preferred Alternative .....   | VII-1  |
| B. Preferred Alternative – Alternative 9A.....   | VII-2  |
| 1. Impacts of the Preferred Alternative – Alternative 9A.....  | VII-9  |
| C. Evaluation of Other ARDS .....  | VII-17 |
| 1. Alternative 1: No-Build Alternative .....   | VII-17 |
| 2. Alternative 2.....  | VII-18 |
| 3. Alternative 4 Modified.....   | VII-20 |
| 4. Alternative 5.....  | VII-25 |
| 5. Combination Alternatives .....  | VII-35 |
| 6. Alternative 8.....  | VII-36 |
| 7. Northern Terminus Option B.....   | VII-37 |
| 8. Northern Terminus Option D.....   | VII-41 |
| D. Recommended Structure Types and Dimensions at Water Resource Crossings –<br>Preferred Alternative 9A..... | VII-41 |
| VIII. MITIGATION .....   | VIII-1 |
| A. Water Resources .....   | VIII-3 |
| B. Park and Forest Resources .....   | VIII-6 |
| 1. Potential Park, Forest and FIDS Mitigation Sites.....   | VIII-6 |

**List of Tables**

|   |        |
|---|--------|
| Table S-1: Summary of Impacts and Costs – Midcounty Corridor Study ARDS .....           | S-6    |
| Table S-2: Summary of Wetland/Stream Impacts and Mitigation Requirement.....            | S-11   |
| Table S-3: Parks and Forest Impacts of the Preferred Alternative .....                  | S-11   |
| Table III-1: 2030 Programmed Roadway Improvements in the Study Area.....                | III-1  |
| Table III-2: Comparison of Master Planned Improvements and Alternative 4 Modified ..... | III-6  |
| Table III-3: Comparison of Master Planned Improvements and Alternative 5 .....          | III-10 |
| Table III-4: Comparison of Master Planned Improvements and Alternative 8 .....          | III-13 |
| Table III-5: Comparison of Master Planned Improvements and Alternative 9 .....          | III-16 |
| Table III-6: Area Parks and Amenities .....   | III-21 |
| Table III-7: Bridge Characteristics .....   | III-22 |
| Table III-8: Summary of Impacts and Costs.....  | III-25 |
| Table IV-1: Lane-Miles of New Highway Capacity Provided by Each Alternative .....       | IV-1   |
| Table IV-2: Congestion Analysis (2030).....   | IV-3   |
| Table IV-3: Major Intersections Having Acceptable Operations during Peak Hours .....    | IV-4   |
| Table IV-4: Comparison of Travel Times and Time Savings vs. Alt. 1 (No-Build) .....     | IV-12  |
| Table V-1: FIDS Habitat Impacts .....   | V-5    |
| Table VI-1: Tabulation of Public Comments through April 2014.....                       | VI-3   |
| Table VII-1: Assessed Impact Topics.....  | VII-2  |

|   |        |
|---|--------|
| Table VII-2: Preferred Alternative Assessment.....                                    | VII-3  |
| Table VII-3: Impacts of the Preferred Alternative - Alternative 9A .....              | VII-10 |
| Table VII-4: Project Traffic Volumes along the MD 124/MD 355/ MD 27 Alignment .....   | VII-27 |
| Table VII-5: Amount of New Development Planned by M-NCPPC .....                       | VII-30 |
| Table VII-6: Travel Time Comparison of the Northern Terminus Options Travel Times.... | VII-40 |
| Table VIII-1: Summary of Water Resource Impacts and Mitigation Requirement.....       | VIII-3 |
| Table VIII-2: Potential Wetland/Stream Mitigation Sites .....                         | VIII-5 |
| Table VIII-3: Parks and Forest Impacts of the Preferred Alternative.....              | VIII-7 |
| Table VIII-4: M-NCPPC Potential Parks Mitigation Sites.....                           | VIII-8 |

**List of Charts**

|  |        |
|--|--------|
| Chart IV-1: Projected Crash Rates along the Build Alignments (2030).....                             | IV-7   |
| Chart VII-1: Comparison of Daily Traffic Volumes - Alternative 4 Modified .....                      | VII-23 |
| Chart VII-2: 2030 Traffic Projected to Cross Screenlines A, B, C in Peak Hour/Peak<br>Direction..... | VII-33 |
| Chart VII-3: 2030 AADTs on Midcounty Highway, Alternative 9 vs. Alternative 8 .....                  | VII-39 |

**List of Figures**

|  |        |
|--|--------|
| Figure S-1: Midcounty Corridor Study Project Study Area .....                    | S-1    |
| Figure S-2: Midcounty Corridor Study Master Plan Alignment .....                 | S-2    |
| Figure S-3: Midcounty Corridor Study ARDS .....                                  | S-4    |
| Figure S-4: Preferred Alternative (Alternative 9A).....                          | S-8    |
| Figure S-5: Potential Wetlands/Streams, Parks Mitigation Site Location Map ..... | S-12   |
| Figure I-1: Midcounty Corridor Study Area.....                                   | I-2    |
| Figure III-1: Alternative 1 - the No-Build Alternative .....                     | III-4  |
| Figure III-2: Alternative 2 - TSM/TDM .....                                      | III-5  |
| Figure III-3: Alternative 4 Modified.....  | III-7  |
| Figure III-4: Alternative 4 Modified, Four-Lane Typical Section.....             | III-9  |
| Figure III-5: Alternative 4 Modified Six-Lane Typical Section.....               | III-9  |
| Figure III-6: Alternative 5.....   | III-11 |
| Figure III-7: Alternative 5 Typical Six-Lane Section.....                        | III-12 |
| Figure III-8: Alternative 5 Typical Service Road Section.....                    | III-12 |
| Figure III-9: Alternative 8.....   | III-15 |
| Figure III-10: Alternative 9.....  | III-17 |
| Figure III-11: Alternatives 8 & 9 Typical Open Section .....                     | III-18 |
| Figure III-12: Alternatives 8 & 9 Typical Closed Section.....                    | III-19 |
| Figure V-1: 2013 Aerial with Parcel Acquisition Dates .....                      | V-2    |
| Figure V-2: 1979 Aerial Photo with Alignment Overlay .....                       | V-3    |

Figure V-3: 2013 Aerial Photo with Alignment Overlay ..... V-4  
 Figure VII-1: Alternative 9 - Intersection Operation (2030) ..... VII-5  
 Figure VII-2: Alternative 9 Typical Open Section ..... VII-6  
 Figure VII-3: Alternative 9 Typical Closed Section..... VII-6  
 Figure VII-4: Blohm Park Master Plan..... VII-15  
 Figure VII-5: Alternative 2 - Intersection Operation (2030) ..... VII-19  
 Figure VII-6: Alternative 4 Modified - Intersection Operation (2030) ..... VII-21  
 Figure VII-7: Alternative 5 - Intersection Operation (2030) ..... VII-26  
 Figure VII-8: Screenline Locations ..... VII-32  
 Figure VII-9: Alternative 8 - Intersection Operation (2030) ..... VII-38  
 Figure VII-10: Location of WUS 69, W 70..... VII-42  
 Figure VII-11: Location of WUS 71..... VII-43  
 Figure VII-12: Location of WUS 78 and W 79 ..... VII-43  
 Figure VII-13: Location of WUS 76 and W 77 ..... VII-45  
 Figure VII-14: Location of WUS 53, W 63, Feature 74, and Feature 75 ..... VII-45  
 Figure VII-15: Location of WUS 53, W 57, W 58, W 61/62, W 63, and W 64..... VII-47  
 Figure VII-16: Widened Bridge on Watkins Mill Road over Whetstone Run ..... VII-47  
 Figure VII-17: Location of WUS 53 and W 75A ..... VII-48  
 Figure VII-18: Location of WUS 66, W 67, and WUS 68 ..... VII-49  
 Figure VII-19: Location of WUS 52 west of Goshen Road ..... VII-50  
 Figure VII-20: Location of WUS 52 under Goshen Road..... VII-50  
 Figure VIII-1: Potential Wetlands/Streams, Parks Mitigation Site Location Map..... VIII-2

**APPENDICES**

**A. Agency Comment Letters**

**B. Responses to Agency Comment Letters**

**C. Planning Board November, 2013 Letter**

**D. Wetlands/Streams Mitigation Sites**

- July 23, 2013 Site Visit Package
- July 30, 2013 Meeting Minutes
- October 30, 2013 Site Visit Package
- November 1, 2013 Meeting Minutes

**E. Parks/FIDS/Forest Mitigation**

- Parks/Forest/FIDS Mitigation Sites Bethel, Wilson, and Snow Natural Resource Inventory
- Table Comparing Mitigation Sites
- Montgomery County Parks PowerPoint on Park Sites for Mitigation Consideration: River Road Shale Barrens, Broad Run, Limestone Corridor, and Hyattstown Forest
- MCDOT PowerPoint on Park Sites for Mitigation Consideration: Bethel, Wilson, and Snow Properties
