

AGENDA ITEM 1  
February 12, 2009  
**Action**

**M E M O R A N D U M**

TO: County Council

FROM:  Michael Faden, Senior Legislative Attorney

SUBJECT: **Action:** Resolution to schedule special election to fill Council vacancy

As you know, Councilmember Praisner died on January 30. Under County Code §16-17, the Council must adopt a resolution within 30 days setting the date of a special election to fill the vacancy. See §16-17 on ©3-5. Although Councilmember Praisner left a statement urging the Council to fill a vacancy if it occurs by appointment, which could be done by enacting an expedited bill suspending the law's special election requirement for this vacancy, no Councilmember has proposed such a bill.

The resolution originally circulated would have set the date for the special primary election on April 14 and the special general election on May 12. These dates are essentially identical to those used in the 2008 special election (April 15 and May 13). The Council approved Resolution 16-456, setting those dates, on February 19, 2008.

After further consideration, Council President Andrews concluded that the special primary and election should instead be held on April 21 and May 19. These dates would resolve problems with access to schools during the April 6-13 school holiday and conflicts with the last 2 days of Passover. *The attached resolution, which was introduced on February 10, uses these revised dates. Under Council Rule 7(c) an introduced resolution may be acted on at "the next meeting after it has been introduced", so the Rules of Procedure need not be suspended to adopt this resolution.*

After this resolution was introduced, Councilmember Ervin moved an amendment to change the election dates to April 7 and May 12, with the other dates in the resolution conformed accordingly. Council staff understands that this motion would be the pending order of business when this item is taken up.

The other dates regarding petition candidates in this resolution are needed to resolve ambiguities in state law, and staff will conform them to whichever dates the Council selects for the primary and general elections. The required public notice, which staff will draft after this

resolution is approved, will list other relevant dates that are mandated by County and state laws, most of which are shown in the attached timeline (see ©6-8) prepared by Elections staff.

Also attached are:

- a letter from the Board of Elections proposing April 7 and May 12 for the primary and general elections (see ©9-11);
- a letter from the superintendent of Schools proposing April 7 and May 5 for the primary and general elections (see ©12-13);
- a list of polling places that the Board of Elections used in the 2008 special election (see ©14); and
- date on voter turnout in previous special Council elections (see ©15).

## Issues

**1) Election dates** As Supt. Weast noted on ©12, “Scheduling a special election is a challenge for everyone.” The County law which requires a special election does not mandate any particular dates, other than as needed to avoid conflicts with other elections (see County Code §16-17(d)(2)-(3) on ©4).

While earlier or later dates are not barred, the 2 primary dates proposed – April 7 and 21 – each have significant benefits and disadvantages:

### *April 7*

*Pro:* public schools not in session, so ample parking and no interference with school activities.

*Con:* relatively early, so more difficult for candidates (particularly new candidates) to organize and campaign; family vacations/travel higher during school break and religious holiday season.

### *April 21*

*Pro:* longer period for candidates to organize campaigns, educate voters, more daylight to campaign in; less scheduled travel by residents.

*Con:* schools in session, so competition for use of school facilities and parking.

As for the general election date, the Board of Elections prefers 5 weeks between the primary and general elections, but could live with 4 weeks, as was scheduled in 2008. Both dates proposed – May 12 and May 19 – fall during public school sessions. In addition, May 12 (and the Elections Board’s second choice, May 5) occur during high school Advance Placement testing, although Supt. Weast preferred May 5. Either May 5 or 12 also would allow the person elected to be sworn in on May 22 (assuming no recount or other extended proceeding is required), which is the last scheduled day for the Council to act on the FY 2010 operating budget; May 19 would not allow that option.

**2) Cost reduction** Board of Elections staff estimated that the 2008 special election in this district cost about \$1.347 million, and this year’s should cost about the same. This cost can

be lowered in several ways, including consolidating the number of polling places, not using rented polling places, and reducing the number of election judges and other staff needed.

When this resolution was introduced, Councilmember Floreen offered an amendment to direct the Board of Elections to use the same polling places as were used in the 2008 special Council election, to the extent they are available. This motion was set aside until the election dates were resolved. While it is not clear that state law allows the Council to so command the Board (although the Council is responsible for funding this election), this motion (or another on the same topic) could be rephrased as a “sense of the Council” provision, intended as non-binding guidance to the Board.

Consolidating polling places (and particularly using only the 7 high schools, 7 middle schools, and 6 senior and community centers of the 46 polling places used in 2008; see ©14) could potentially confuse some voters, but in Council staff’s view that would be less of a problem in a special election where only those voters who are especially motivated will turn out (see previous turnout data on ©15), and the cost savings and reduced disruption at some schools could be significant.

Councilmembers could discuss with Elections staff at this session which if any other options could reduce costs without impairing voter participation.

RE: Schedule for 2009 Council District 4 Primary and General Special  
Elections

Dear Councilmembers:

On behalf of the Montgomery County Board of Elections ("MCBOE"), we are writing to express our significant reservations about the proposed scheduling of the Councilmanic District 4 Primary Election for April 14, 2009. There have been a number of dates proposed. Of those proposed dates, April 14 is the least desirable.

The MCBOE initially proposed April 7, 2009, for the Primary Election and May 12, 2009, for the General Election. It is our understanding that some felt April 7, 2009, was not a good date because public school students were on spring break.<sup>1</sup> The

<sup>1</sup> The MCBOE respectfully submits that it is in fact better to hold the election when students are not in school.

MCBOE respectfully disagrees that it is problematic to hold the election during spring break, particularly given the fact that voters can vote absentee if they are indeed going to be out of town.

Moreover, there are a number of problems with setting the Special Primary Election for April 14, 2009. Last year, when the Council District 4 Special Election was held while school was in session, MCBOE received complaints from parents that strangers were walking around the school. Additionally, some voters complained about excessive noise while voting in multi-purpose rooms. MCBOE respectfully submits that it is less disruptive to the schools and is in fact a better voting experience for voters, if the Council scheduled the Special Primary Election to occur on a date when students were off. Additionally, the Board of Elections will consolidate polling places for this election to contain the cost of the elections. If that occurs, we are concerned about the amount of parking available to voters on election days. If the election was held on April 7, as opposed to April 14, there would be no issue regarding parking, an issue that is important to the voters.

There are two (2) additional problems with conducting the Special Primary Election on April 14, 2009. First, MCBOE will need to be able to access each school used as a polling place on April 13, 2009, to deliver and secure equipment and to enable election judges to meet at the facility in the evening of April 13, 2009, for election preparation. In reviewing the Board of Education's calendar, building facilities are scheduled to be closed on April 13, 2009. We have been advised that April 13, 2009, is a State wide holiday requiring employees to be paid two and a half (2 1/2) times compensation if they are required to work on April 13, 2009.

Lastly, April 14, 2009, falls on a Jewish holiday, starting at sunset, and will impact the orthodox Jewish voters residing in Kemp Mill and Leisure World communities. This not only limits the hours which voters can vote but further curtails who can and will serve as an election judge.

MCBOE is concerned that the Council is proposing only four (4) weeks between the Special Primary and Special General. MCBOE believes it is more prudent to have five (5) weeks between the Special Primary and Special General. Under Maryland law, the second absentee canvass cannot be held until the second Friday after the election. Thereafter, the MCBOE needs to certify the winner, begin preparation of the ballot for the Special General Election, display the ballot and mail out a specimen ballot. If the election results are contested and/or a recount is requested, it may be exceedingly difficult for the MCBOE to conduct the Special General Election within a four (4) week time period.

second Friday after the election. Thereafter, the MCBOE needs to certify the winner, begin preparation of the ballot for the Special General Election, display the ballot and mail out a specimen ballot. If the election results are contested and/or a recount is requested, it may be exceedingly difficult for the MCBOE to conduct the Special General Election within a four (4) week time period.

The MCBOE requests the Council to schedule the Special Primary Election for April 7, with a Special General Election to be held on May 12, 2009 or as a second choice May 5, 2009.

Thank you for your time and consideration.

Sincerely yours,

  
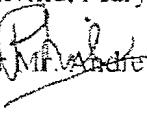

By: Margaret Jurgensen

The Honorable Phil Andrews, President  
Montgomery County Council  
Stella B. Werner Council Office Building  
100 Maryland Avenue  
Rockville, Maryland 20850

  
Dear Mr. Andrews:

I am writing to follow up on our conversation last Thursday regarding the upcoming special election. My staff has been in discussions with Board of Elections staff regarding potential dates and the impact of the election on school operations.

I understand that March 31, April 7, and April 14, 2009, are being considered for the primary election and that May 5 and May 12 are being considered for the general election. As you know, schools are always busy, and I would appreciate your considering the impact of the elections on teaching and learning.

Of the dates under consideration, April 7 and May 5 are most preferable for the primary and general elections, respectively. State testing may still be occurring on March 31 in elementary and middle schools, and the presence of citizens in the building could be disruptive to the testing program. April 7 falls during the school system's spring break and would be the least disruptive time for the schools. April 14 is the day students return from spring break. April 10 or April 13 (Good Friday and Easter Monday) are holidays, and all school buildings are closed and all school system staff is on leave. Therefore, no staff will be in the buildings on these two days for the delivery of polling equipment. It may be difficult to get staff to work in some of the polling sites on these two dates. The hourly cost will be one and one-half times the normal rate of pay for the building services staff because of the holidays, or between \$40 and \$50 per hour. I am sure you would agree that this is not the time to incur additional expenses.

While Advanced Placement (AP) testing is occurring in our high schools on both May 5 and May 12, holding the election on May 5 would cause the least disruption. The May 12 date is more problematic as it is the highest volume day for AP testing.

Scheduling a special election is a challenge for everyone. I appreciate the County Council's consideration of this information prior to your decision.
