

Resolution No: _____
Introduced: _____
Adopted: _____

COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND

By: County Council

Subject: Approval of Amendments to the Approved FY 2009-2014 Capital Improvements Program, and Approval of and Appropriation for the FY 2010 Capital Budget of the Montgomery County Public School System

Background

1. As required by the Education Article, Sections 5-306, 5-101, and 5-102 of the Maryland Code, the Board of Education sent to the County Executive a FY 2010 capital budget and amendments to the approved FY 2009-2014 capital improvements program for the Montgomery County Public School system.
2. Section 302 of the County Charter requires the County Executive to send to the County Council by January 15 in each even-numbered calendar year a six-year capital improvements program, which the County Executive did on January 15, 2008 for the six year period FY 2009-2014. Section 302 requires the affirmative vote of at least 5 Councilmembers to approve or modify the Executive's Recommended Capital Improvements Program. On May 22, 2008, the Council approved a Capital Improvements Program for FY 2009-2014 in Resolution 16-569. After the Council approves a Capital Improvements Program, Section 302 permits the Council to amend it at any time with the affirmative vote of at least 6 Councilmembers.
3. Section 303 of the County Charter requires the County Executive to send to the County Council by January 15 in each year a recommended capital budget, which the County Executive did on January 15, 2009 for FY 2010. The Executive included certain projects from the Board of Education's requested amendments to the approved FY 2009-2014 Capital Improvements Program in his transmittal dated January 15, 2009.

4. As required by Section 304 of the County Charter, the County Council held a public hearing on February 10, 2009 and on April 14, 15, and 16, 2009 on the capital budget for FY 2010 and on requested amendments to the Approved Capital Improvements Program for FY 2009-2014.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

1. For FY 2010, the Council approves the capital budget of the Montgomery County Public Schools and appropriates the amounts by project which are shown in part I.
2. The expenditure of funds for each item in the capital budget must comply with all restrictions and requirements in the project description form for that item, as the form is contained in the approved Capital Improvements Program as amended by this resolution, and as the Capital Improvements Program is amended by the Council under Charter Section 302 after this resolution is adopted.
3. This resolution reappropriates the appropriations made in prior years for all capital projects:
 - a) except as specifically reflected elsewhere in this resolution;
 - b) in the amounts and for the purposes specified in the approved Capital Improvements Program for FY 2009-2014; and
 - c) to the extent that those appropriations are not expended or encumbered.
4. The Council approves those projects shown in Part II as amendments to the Approved FY 2009-2014 Capital Improvements Program.
5. The Council approves the close out of the projects in part III.
6. The Council approves the partial closeout of the projects in part IV.

This is a correct copy of Council action.

Linda M. Lauer, Clerk of the Council

**PART I: FY 2010 CAPITAL BUDGET FOR
MONTGOMERY COUNTY PUBLIC SCHOOLS**

The appropriations for FY 2010 in this Part are made to implement the projects in the Capital Improvements Program for FY 2009-2014. When the total appropriation for a project includes State funds, the total appropriation for the project is contingent on the availability of funds from the State.

DESCRIPTION

Enrollment projections at Brookhaven Elementary School reflect a need for a eight-classroom addition. Brookhaven Elementary School has a program capacity for 278 students. Enrollment is expected to reach 407 by the 2010-2011 school year. A feasibility study was conducted in FY 2008 to determine the cost and scope of the project.

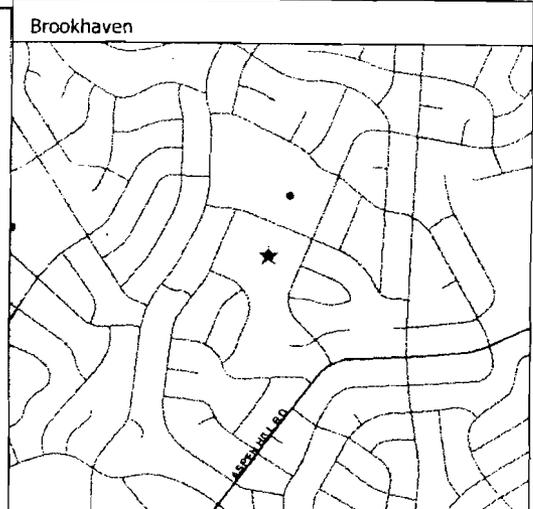

An FY 2009 appropriation was approved to begin planning this addition. Due to increased enrollment at this school, an amendment to the FY 2009-2014 CIP was requested for additional planning and construction funding to provide one classroom beyond the approved eight-classroom addition. Due to the scope change, the completion date for this project will be delayed one year, from August 2010 to August 2011. An FY 2010 appropriation was approved for planning and construction funds. This project is scheduled to be completed by August 2011.

DESCRIPTION

Enrollment projections at Fairland Elementary School reflect a need for a nine-classroom addition. Fairland Elementary School has a program capacity for 354 students. Enrollment is expected to reach 532 students by the 2010-2011 school year. A feasibility study was conducted in FY 2008 to determine the cost and scope of the project.

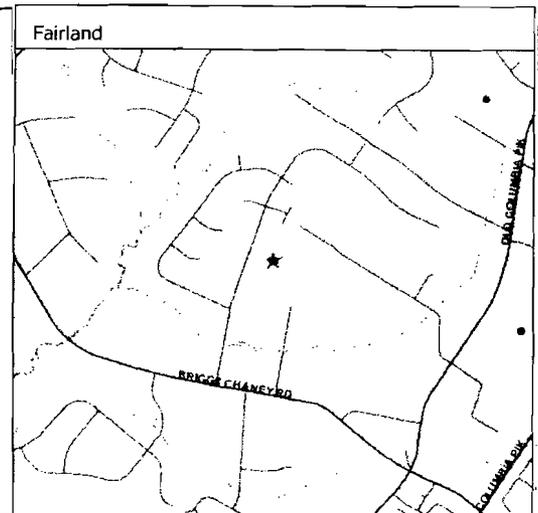

An FY 2009 appropriation was approved to begin planning this addition. Due to increased enrollment at this school, an amendment to the FY 2009-2014 CIP was requested for additional planning and construction funding to provide four classrooms beyond the approved nine-classroom addition. Due to the scope change, the completion date for this project will be delayed one year, from August 2010 to August 2011. An FY 2010 appropriation was approved for planning and construction funds. This project is scheduled to be completed by August 2011.

DESCRIPTION

Enrollment projections at Rock View Elementary School reflect a need for a eight-classroom addition. Rock View Elementary School has a program capacity for 361 students. Enrollment is expected to reach 526 students by the 2010-2011 school year. A feasibility study was conducted in FY 2003 to determine the scope and cost of an addition to this school. At that time, the addition was not requested and the feasibility study was shelved. The FY 2003 feasibility study was used to determine the scope of this project with current construction costs.

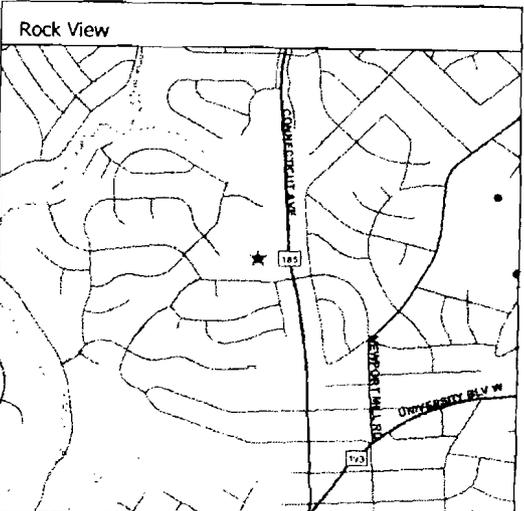

An FY 2009 appropriation was approved to begin planning this addition. Due to increased enrollment at this school, an amendment to the FY 2009-2014 CIP was requested for additional planning and construction funding to provide five classrooms beyond the approved eight-classroom addition. Due to the scope change, the completion date for this project will be delayed one year, from August 2010 to August 2011. An FY 2010 appropriation was approved for planning and construction funds. This project is scheduled to be completed by August 2011.

DESCRIPTION

Federal and State laws require MCPS to upgrade and maintain pollution prevention measures at schools and support facilities. The State of Maryland, Department of the Environment, through the renewal of Montgomery County's National Pollutant Discharge Elimination System (NPDES) Permit, has included MCPS as a co-permittee subject to certain pollution prevention regulations and reporting requirements not required in the past. As a co-permittee, MCPS will be required to develop a system-wide plan for complying with NPDES requirements. The plan could include infrastructure improvements that reduce the potential for pollution to enter into the stormwater system and area streams. A portion of the plan also will include surveying and documenting, in a GIS mapping system, the stormwater systems at various facilities.

The Board of Education requested an FY 2010 appropriation and amendment to the FY 2009-2014 CIP of \$500,000 to begin the assessment and planning process, as well as to begin the implementation and construction of identified facilities needing modifications. It is anticipated that a significant portion of the first year's efforts will be focused on developing the required plans to prioritize the necessary infrastructure improvements. The County Executive did not recommend funding this project until further information was available. After review by MCPS, County Council, and County Executive staffs, the County Council approved an FY 2010 appropriation of \$410,000 to begin this assessment and planning process.

DESCRIPTION

This project combines all current modernization projects as prioritized by the FACT assessments. Future modernizations with planning in FY 2011 or later are in PDF No. 886536. Due to fiscal constraints, the FY 2005-2010 CIP adopted by the County Council, shifted funds for elementary school modernizations beginning with College Gardens ES and shifted funds for the Richard Montgomery and Walter Johnson high school modernization projects. An FY 2006 appropriation was approved for construction funds for two modernizations, and planning funds for three modernizations. During the budget process for the amendments to the FY 2005-2010 CIP, the County Council shifted the planning funds for Cashell and Galway elementary schools from FY 2006 to FY 2007, but did not change the completion dates.

An FY 2007 appropriation was approved for the balance of construction funds for two modernizations; construction funds for two modernizations; and planning funds for five modernizations. The County Council, in the FY 2007-2012 CIP, approved the acceleration of the modernization of Bells Mill Elementary School. An amendment to the FY 2007-2012 CIP was approved to provide an additional \$3.5 million in construction funding for one modernization project.

The approved FY 2008 appropriation will provide construction funding for five modernization projects and planning funds for two modernization projects. An FY 2008 transfer of \$3.1 million was approved for the Richard Montgomery HS modernization. Due to fiscal constraints, the County Council, in the adopted FY 2009-2014 CIP, delayed high school modernizations one year, with the exception of Wheaton HS which was delayed two years, beyond the Board of Education's request. An FY 2009 appropriation was approved to provide planning funds for three modernizations; construction funds for three modernizations; and furniture and equipment funds for five modernizations. An FY 2010 appropriation was approved to provide planning funds for 5 modernizations; construction funds for two modernizations; and furniture and equipment funds for three modernizations.

DESCRIPTION

This project provides for orderly replacement of heating, ventilating, air conditioning, control, and plumbing systems in facilities that are not on the modernization schedule. Related asbestos removal costs are included with each project. These systems or components are outdated or have become expensive to repair and maintain necessitating replacement. MCPS is participating in interagency planning and review of this program in order to share successful and cost effective approaches. In addition to HVAC replacement, the Council added \$725,000 in additional appropriations to the FY 1998 request for (FACE) Facilities Air Conditioning Equity (a pilot program to provide air conditioning at Cabin John Middle School and Luxmanor Elementary School). The FY 1999 appropriation had two components - \$2 million to continue the HVAC replacement program and \$1.2 million to provide additional planning and construction funds for the FACE initiative to provide air conditioning in three schools. An additional \$1.2 million was programmed in FY 2000 to complete an additional three schools.

Two FY 1999 supplemental appropriations for the FACE initiative were approved -- the first in the amount of \$2.635 million the second in the amount of \$320,000. Also an FY 2000 amendment was funded to accelerate the air conditioning of all remaining non-air conditioned schools and holding schools for completion by September 2000. In FY 2000, \$175,000 was transferred from this project to the Elementary School Gymnasium PDF. Funds approved in FY 2001 and FY 2002 continued this project.

An FY 2003 appropriation was approved to continue this project. An FY 2004 appropriation was approved to continue this project at its current level of effort. An FY 2005 appropriation was approved to continue to provide heating, ventilating, air conditioning, and plumbing system replacements in facilities that are not scheduled to be modernized. Increases in expenditures shown for FY 2005 and beyond reflect the need to address the backlog of HVAC projects, partially due to the delay in the modernization schedule. For FY 2005, an additional \$745,000 in state aid was included in this project as a result of federal funding, issued by the state, through the Qualified Zone Academy Bond (QZAB) program. An FY 2006 appropriation was approved to continue this project.

An FY 2007 appropriation was approved to continue this project. Expenditures shown in the adopted FY 2007-2012 CIP for this project have increased in order to address the backlog of HVAC projects, as well as the rise in construction costs. An FY 2007 Special Appropriation in the amount of \$160,000 was approved in this project as a result of federal funding, issued by the state, through the Qualified Zone Academy Bond (QZAB) program. An FY 2008 appropriation was approved to continue this level of effort project. An FY 2009 appropriation is requested to continue this level of effort project. An FY 2009 special appropriation of \$252,000 and an FY 2009 transfer of \$523,000 was approved by the County Council on January 27, 2009 for emergency repair work at five schools.

An FY 2010 appropriation and amendment to the FY 2009-2014 CIP was approved to provide an additional \$4.4 million beyond the \$5.6 million in the adopted CIP for this systemic project. The additional funding will begin to address the assessed backlog of HVAC projects that are vital to the successful operation of our school facilities.

DESCRIPTION

MCPS currently has a total of 566 relocatable classrooms. Of the 566 relocatables, 462 are used to address over utilization at various schools throughout the system. The balance, 104 relocatables, are used at schools undergoing construction projects on-site, or at holding schools, or for other uses countywide. Units around 15-20 years old require general renovation if they are to continue in use as educational spaces.

The County Council, on March 30, 2004, approved a \$5.0 million special appropriation requested by the Board of Education to allow MCPS to enter into contracts in order to have the relocatable units ready for the 2004-2005 school year. The special appropriation provided for the relocation of 77 relocatable classrooms and the leasing of an additional 54 relocatable classrooms for enrollment growth and the full-day kindergarten program. The County Council, on March 22, 2005, approved a \$5.0 million special appropriation requested by the Board of Education to allow MCPS to enter into contracts in order to have the relocatable units ready for the 2005-2006 school year. An FY 2006 special appropriation of \$1.5 million was approved to provide additional relocatable classrooms to accommodate a staff to student ratio of 23:1 at elementary schools.

The County Council, on April 4, 2006, approved a \$3.0 million special appropriation requested by the Board of Education to allow MCPS to enter into contracts in order to have the relocatable units ready for the 2006-2007 school year. Also, an FY 2006 special appropriation in the amount of \$975,000 was approved to provide relocatable classrooms for the acceleration of full-day kindergarten for the schools scheduled to receive the program in the 2007-2008 school year. An FY 2006 special appropriation in the amount of \$2.1 million was approved to return 121 relocatables to the vendor in order to begin the process of systematically removing aging relocatables from our schools. The \$2.1 million also provided for the replacement of six older units, the relocation of six units and the addition of a canopy at a school.

The County Council approved, in the FY 2007-2012 CIP, additional expenditures in FY 2007 and FY 2008 to provide replacement relocatables for Potomac Elementary School and to provide relocatables for Bells Mill Elementary School when the school moved to the Grosvenor holding facility during modernization. The County Council, on May 8, 2007 approved a \$3.572 million special appropriation that accelerated the FY 2008 appropriation requested by the Board of Education to allow MCPS to enter into contracts to have the relocatable units ready for the 2007-2008 school year. An FY 2008 special appropriation of \$3.125 million was approved by the County Council on April 22, 2008, to accelerate the FY 2009 appropriation requested by the Board of Education to allow MCPS to enter into contracts in order to have the relocatable units ready for the 2008-2009 school year. An FY 2009 special appropriation of \$3.125 million was approved by the County Council to accelerate the FY 2010 appropriation requested by the Board of Education to allow MCPS to enter into contracts in order to have the relocatable units ready for the 2009-2010 school year.

An FY 2010 appropriation and amendment to the FY 2009-2014 CIP was approved for an additional \$1.0 million beyond the \$3.125 million included in the adopted CIP to provide relocatable classrooms at schools experiencing unanticipated enrollment growth.

DESCRIPTION

In September 2001, the Board of Education adopted the MCPS Strategic Technology Plan. This plan supports the Board's vision to provide computer access to every child. The strategic plan includes the following four goals: computers will be accessible to all children on an equitable basis, technology will be fully integrated into instruction, information systems will be used for measuring performance and improving results, and technology will be used to overcome location and distance barriers to learning.

The County Council, during its review of the FY 2003 Capital Budget, requested that an asset management study be completed and submitted to the Council prior to review of the FY 2004 Capital Budget. An amendment to the FY 2003-2008 CIP in the amount of \$600,000 in FY 2004 was requested by the Board of Education to increase the implementation of the technology modernization program as part of the Global Access Project in FY 1994-1995, but the County Council denied the increase and maintained the current level of effort.

An FY 2005 appropriation was approved to roll-out the implementation of the technology modernization program. This project will update schools' technology hardware, software, and network infrastructure on a four-year replacement cycle, with a 5:1 computer/student ratio. The County Council, in the adopted FY 2005-2010 CIP reduced the Board of Education's request for the outyears of the FY 2005-2010 CIP by \$10.945 million. An FY 2006 appropriation and amendment to the FY 2005-2010 CIP was approved to continue the rollout plan. An FY 2007 appropriation was approved to continue this level of effort project. The expenditures for FY 2007 reflect three years of finance payments, as originally planned, in addition to the current year refreshment costs. The expenditures in the outyears represent the ongoing costs of a four-year refreshment cycle. An FY 2008 appropriation was approved to continue this project.

The Board of Education, in the Requested FY 2009 Capital Budget and FY 2009-2014 CIP, included additional funding for new initiatives for the Technology Modernization program. On May 22, 2008, the County Council approved an FY 2009 appropriation as requested by the Board of Education, however, the County Council reduced the expenditures earmarked for the Middle School Initiative program for FY 2010-2014. In FY 2009, MCPS purchased and installed interactive classroom technology systems in approximately 2/3 of all secondary classrooms. The total cost is projected at \$13.3 million, financed over a four-year period (\$3.4M from FY 2009-2012). The funding source for the initiative is anticipated to be Federal e-rate funds. The Federal e-rate funds programmed in this PDF consist of available unspent e-rate balance: \$1.8M in FY 2010, \$1.8M in FY 2011, and \$327K in FY 2012. In addition, MCPS projects future e-rate funding of \$1.6M each year (FY 2010-2012) that may be used to support the payment obligation pending receipt and appropriation. No county funds may be spent for the initiative payment obligation in FY 2010-2012 without prior Council approval.

This PDF reflects a decrease in the FY 2010 appropriation and FY 2010-2012 expenditures as requested by the Board of Education. The decrease in expenditures will temporarily extend the MCPS desktop replacement cycle from four to five years. The County Council will reconsider how to resume the four-year replacement cycle in a future CIP.

PART III: CAPITAL IMPROVEMENTS PROJECTS TO BE CLOSED OUT

The following capital projects are closed out effective July 1, 2009, and the appropriation for each project is decreased by the amount of that project's unencumbered balance. The unencumbered balance is transferred to the Unliquidated Surplus Account.

Project #	Project Name
016538	Albert Einstein MS #2 (RROCS)
036512	Alternative HS Ed. Prog.- Minor Improv. (RROCS)
996582	Barnsley ES - Current Modernization
996570	Bethesda-Chevy Chase HS - Current Modernization

Action

MEMORANDUM

March 19, 2009

TO: County Council

FROM: *KL* Keith Levchenko, Senior Legislative Analyst
Essie McGuire, Legislative Analyst *EM*

SUBJECT: **Action: Montgomery County Public Schools (MCPS) FY10 Capital Budget and Amendments to the FY09-14 Capital Improvements Program (CIP)
Resolution: Revised Appropriation for the Current Replacements/Modernizations (Paint Branch High School Modernization)**

On May 21, the Council is scheduled to take action on an MCPS FY10 Capital Budget and CIP Amendments resolution. This resolution will establish appropriations by project for FY10 and will also approve CIP amendments previously discussed and tentatively approved by the Council on March 31, 2009. This action is also consistent with the Council's CIP reconciliation discussion on May 14, 2009.

There is one appropriation change recommended by Council Staff that was submitted by MCPS after the reconciliation discussion of May 14. The change involves increasing the appropriation in the Current Replacements/Modernizations project from \$58.499 million to \$125.999 million (an increase of \$67.5 million related to the Paint Branch High School modernization). This change is reflected in the "Part 1" attachment to the MCPS CIP Resolution.

On May 18 the Board of Education approved MCPS' transmittal of a request to the Council for an increased FY10 appropriation for the Current Replacements/Modernizations project (an increase of \$67.5 million) in order to provide MCPS with the flexibility to bid the construction of the Paint Branch High School modernization during FY10. A memorandum from the Superintendent to the Board of Education supporting this increase is attached on ©1-2.

MCPS is seeking to accelerate the bid for construction for Paint Branch High School but not the expenditures or the completion date of the school (completion of the building by August 2012 with site work (i.e. ballfields) completed by August 2013).

MCPS is seeking this bid acceleration because of the current favorable bidding climate. According to MCPS, regional bids for school projects are coming in as much as 20% below prior project cost estimates. For a high school modernization that can cost in excess of \$100 million, substantial cost savings could be realized if the Paint Branch modernization is bid during FY10 under these conditions.

According to MCPS staff, Paint Branch High School is in a unique position to have its construction bid accelerated because:

- Design is complete but construction is not currently scheduled to begin in FY10 (because construction was delayed two years as part of last year's FY09-14 CIP process).
- As with other high school modernizations, the Paint Branch modernization does not require the use of a holding school and thus adjustments in the staging of construction can be accommodated without affecting other projects.
- Paint Branch High School is the next high school in the modernization queue so there is no issue of the school jumping ahead of another school in the queue. According to MCPS, there are no other MCPS mod or addition projects in this position.

According to MCPS, there are no other MCPS modernizations or addition projects in this position.

Council Staff supports MCPS' revised appropriation request for the Current Replacements/Modernizations project for the Paint Branch modernization. Because the scope and timing of the project is not requested to change, no CIP amendment is needed. Also, since the expenditure schedule is not requested to change, there is no impact on the Council's CIP reconciliation which was preliminarily approved on May 14.

Note: The expenditure schedule for this project will be revisited next year as part of the Council's FY11-16 CIP review. At that time, the Council can consider any proposed revisions by MCPS to the expenditure schedule within the context of spending affordability constraints for the FY11-16 CIP.

Office of the Superintendent of Schools
MONTGOMERY COUNTY PUBLIC SCHOOLS
Rockville, Maryland

May 18, 2009

MEMORANDUM

To: Members of the Board of Education

From: Jerry D. Weast, Superintendent of Schools 

Subject: FY 2010 Appropriation for Paint Branch High School Modernization

As you may know, on May 14, 2009, the County Council held a worksession and approved the reconciliation package for the FY 2010 Capital Budget and Amendments to the FY 2010–2014 Capital Improvements Program (CIP). Final action on the FY 2010 Capital Budget and the Amended CIP is scheduled for Thursday, May 21, 2009.

With respect to the Capital Budget, it has come to my attention that the construction market in the Washington Metropolitan Area has become much more favorable in recent months. In fact, we have learned that recent construction bid awards for two high schools in Virginia came in approximately 20 percent lower than anticipated. In light of this information, I asked Montgomery County Public Schools (MCPS) staff to review all construction projects that are scheduled to bid in FY 2011 but could be bid in FY 2010 to take advantage of the current construction market. In order for MCPS to accelerate the bid for any construction project, the design of the project must already be complete and the permit process must be ready to begin.

After careful review, I have been informed that MCPS has only one construction project, the modernization of Paint Branch High School, where the design is already complete and the permit process can begin in FY 2010. As you will recall, the modernization of Paint Branch High School was delayed two years, due to fiscal constraints, in the adopted FY 2009–2014 CIP. As a result of this delay, the design, which was already complete, was shelved until construction funds became available.

In light of the current trends in the construction market, I believe it would be fiscally prudent to increase the FY 2010 appropriation for the current modernization project to allow MCPS the flexibility to bid the modernization of Paint Branch High School earlier than anticipated to take advantage of the present market conditions. Given the \$100 million estimated cost for a high school modernization, favorable market conditions could result in substantial savings for our CIP. Even though the bid schedule would be accelerated, at this time, we anticipate that the construction

schedule of the modernization for Paint Branch High School will be maintained, with a completion of the building by August 2012 and the site completed August 2013.

Therefore, I recommend the following resolution for approval.

WHEREAS, The construction market has become more favorable in recent months and construction bid awards for two high schools in Virginia came in approximately 20 percent lower than anticipated; and

WHEREAS, Montgomery County Public Schools staff was asked to review all construction projects scheduled to bid in FY 2011 but could be bid in FY 2010 to take advantage of the current construction market; and

WHEREAS, In order for Montgomery County Public Schools to accelerate the bid for any construction project, the design of the project must already be complete and the permit process must be ready to begin; and

WHEREAS, Montgomery County Public Schools has only one construction project, the modernization of Paint Branch High School, where the design is already complete and the permit process can begin in FY 2010; now therefore be it

Resolved, That the Board of Education request that the County Council increase the FY 2010 appropriation for the modernization of Paint Branch High School from \$20 million to \$87.5 million to allow Montgomery County Public Schools to accelerate the construction bid for this project to take advantage of the present market conditions; and be it further

Resolved, That a copy of this resolution be transmitted to the county executive and County Council.
