MEMORANDUM

July 16, 2020

TO: County Council

FROM: Christine Wellons, Legislative Attorney

SUBJECT: Bill 7-20, Interagency Commission on Homelessness – Membership and Duties

PURPOSE: Action – Roll call voted required on Bill

Health and Human Services Committee recommendation (3-0): enact Bill 7-20 with amendments

Expected Attendees
Amanda J. Harris, Chief of Services to End and Prevent Homelessness, Department of Health and Human Services

Bill 7-20, Interagency Commission on Homelessness – Membership and Duties, sponsored by Lead Sponsors Councilmembers Glass, Albornoz, and Rice, and Co-Sponsors Councilmembers Jawando and Navarro, Council Vice-President Hucker, Council President Katz, and Councilmembers Friedson and Riemer, was introduced on February 25, 2020. A public hearing was held on June 16 at which one speaker testified in support of the bill and a Health and Human Services Committee worksession was held on June 25. The HHS Committee voted (3-0) to recommend approval of the bill with amendments.

Bill 7-20 would alter the membership and duties of the Interagency Commission on Homelessness.

BACKGROUND

The Interagency Commission on Homelessness (ICH) is a 25-member commission created by the County Council in 2014 to coordinate public and private programs to reduce homelessness in the County.

The ICH has requested that several modifications and updates be made to its membership and duties. The purpose of these amendments is to improve the governance and effectiveness of
the ICH, as well as to clarify the mission of the ICH to “end and prevent” homelessness, as opposed to simply “reducing” homelessness.

**BILL DESCRIPTION**

Under Bill 7-20, the ICH would remain a 25-member commission, but its composition would change. At the request of the ICH, certain ex officio slots would be replaced with more public representatives, including homeless service providers, healthcare providers, family services providers, and affordable housing providers.

Regarding operations of the ICH, the bill would require the ICH to maintain a governance committee co-chaired by the ICH Chair and the Chief of Services to End and Prevent Homelessness of the Department of Health and Human Services. The bill also would clarify that a majority of the ICH constitutes a quorum for the transaction of business.

Importantly, the bill would update certain policy approaches of the ICH. In particular, it would provide that the ICH’s purpose is to end and prevent homelessness (i.e., bring homelessness to functional zero), rather than simply reducing homelessness. It also would explicitly prioritize finding permanent housing for homeless individuals and valuing client choice.

**PUBLIC HEARING**

At the public hearing on June 16, the Chair of the ICH, Jeff Goldman, spoke in support of the bill. Mr. Goldman explained that the bill was developed by a subgroup of the ICH to:

1. Emphasize the need to “end and prevent” homelessness rather than just address the issue;
2. Elevate the approach of Housing First from that of a single initiative to a core value of the homeless continuum of care;
3. Allow flexibility in recruitment and selection of members based on goals and priorities;
4. Balance the overrepresentation of criminal justice and government generally;
5. Increase emphasis on involvement of private organizations, like business, housing development, and philanthropy; and
6. Establish a governance committee to guide the work of the Commission and its committees

**HHS COMMITTEE REVIEW AND RECOMMENDATION**

On June 25, the HHS Committee held a worksession on Bill 7-20 and voted (3-0) to recommend approval of the bill with amendments.

1. **Ability of Committees to Add Members under the Charter**

   To remedy a potential problem under the current ICH law identified by the Office of the County Attorney (OCA), the HHS Committee (3-0) adopted the following amendment to lines 142-145 of the bill:
Any [subcommittee] committee action is not the action of the Commission and must not bind the Commission or its members. A [subcommittee] committee may [[include]] consult a person who is not a member of the Commission.

The issue identified by the OCA is whether a County board, committee, or commission (BCC) may, consistent with the Charter, add members of its own volition without an appointment by the Executive and confirmation by the Council. Under the current Code, subcommittees of the ICH may add members. Likewise, the County Code permits certain other boards and commissions (such as the Commission for Women under Section 27-30) to add their own members.

According to the OCA, allowing a BCC to add its own members might be inconsistent with Charter Section 215, which provides:

….Except for commissions appointed to advise the Council, the County Executive shall appoint, subject to the confirmation of the Council, all members of boards and commissions unless otherwise prescribed by state law or this Charter.

The amendment adopted by HHS remedies the potential problem identified by the OCA.

2. **Staff-recommended Technical Amendments**

The HHS Committee also voted (3-0) to adopt several non-substantive technical amendments, which are reflected in the attached version of the bill (Bill 5).

**NEXT STEPS**

Roll call vote on whether to enact Bill 7-20 as amended, per the HHS Committee’s recommendation.

Background:

This legislation would:

- Alter the membership of the Interagency Commission on Homelessness; and
- Alter the duties of the Commission.

The goal of Bill 7-20 is to achieve the goal of the County to ensure everyone has a home in the County. To achieve this goal, the County will end homelessness among:

- Veterans;
- Chronically homeless individuals;
- Families with children;
- Unaccompanied youth; and
- Seniors.

The Interagency Commission on Homelessness (ICH) is a 25-member commission created to coordinate public and private programs to reduce homelessness. Bill 7-20 would maintain the 25-member commission but also improve the governance and effectiveness of ICH and clarifies its mission to end and prevent homelessness rather than reducing homelessness.

1. The sources of information, assumptions, and methodologies used.

There are no sources of information or assumptions and methodologies used in the preparation of the economic impact statement.

2. A description of any variable that could affect the economic impact estimates.

The variable that could affect the economic impact estimates are the number of homeless families and individuals noted in the background section before and after enactment of Bill 7-20.

3. The Bill’s positive or negative effect, if any on employment, spending, saving, investment, incomes, and property values in the County.

There is no precise data on the number of homeless families or individuals in the County and therefore a specific economic impact cannot be determined. However, since the goal of Bill 7-20 is to end and prevent rather than reduce homelessness, there could be a positive economic impact on the County’s employment, spending, and incomes.

4. If a Bill is likely to have no economic impact, why is that the case?

Date
Good afternoon Councilmembers. My name is Jeff Goldman, Chair of the Montgomery County Interagency Commission on Homelessness. I thank for the opportunity to speak on behalf of the proposed legislative changes to the ICH statute. I want to specifically express my gratitude to Councilmember Glass for leading the Council’s effort on making homelessness a rare, brief, and one-time only experience for all.

In the spring of 2019, a subgroup of ICH commissioners came together to draft recommendations to update and revise the existing legislation. Along with myself, the group members included Eneshal Miller, Public Member Commissioner, Louise Kauffman of the City of Gaithersburg, Susie Sinclair-Smith of Montgomery County Coalition for the Homeless, Shane Rock of Interfaith Works, Amanda Chesney of Catholic Charities, and Amanda Harris from the Department of Health and Human Services. Our goal was to improve the infrastructure of the ICH and its committees to be more effectively and better align with best practices.

In summary, the new bill achieves the following:

- Emphasizes the need to “end and prevent” homelessness rather than just address the issue.
- Elevates the approach of Housing First from that of a single initiative to a core value of the homeless continuum of care.
- Allows flexibility in recruitment and selection of members based on goals and priorities.
- Balances the overrepresentation of criminal justice and government generally.
- Increases emphasis on involvement of private organizations, like business, housing development, and philanthropy.
- Establishes a governance committee to guide the work of the Commission and its committees.

In should be noted that ICH membership in the not only mechanism to participate and have being a member is certainly not the only way to participate in and have influence over the work of the Continuum of Care and the ICH. In partnership with the office of Services to End and Prevent Homelessness, the ICH regularly recruits various stakeholders to sit on committees, subcommittees, and work groups. The most recent example of community engagement is the development of the Strategic Plan to End Homelessness where more than 20 organizations and 100 plus individuals provided critical feedback and suggestions on the strategies, values, and action plan.

Thank you again for the opportunity to speak on behalf of the Interagency Commission on Homelessness and thank you to all the community members, nonprofits, and government agencies engaged in the difficult but important work of eradicating homelessness.
