MEMORANDUM

April 8, 2021

TO: County Council

FROM: Robert H. Drummer, Senior Legislative Attorney

SUBJECT: Resolution to adopt a Third Amended Board of Health Regulation to prevent the spread of COVID-19 in the County.

PURPOSE: Introduction/Public Hearing/Action– Council roll call vote expected

The Council, sitting as the Board of Health, is tentatively scheduled to introduce, hold a public hearing, and act on a Third Amended Board of Health Regulation to Prevent the Spread of COVID-19 in the County on April 13, 2021.

Background

Maryland Governor Hogan declared a state of emergency and catastrophic health emergency on March 5, 2020, and renewed it on March 17, 2020, April 10, 2020, May 6, 2020, June 3, 2020, July 1, 2020, July 30, 2020, August 10, 2020, September 8, 2020, October 6, 2020, October 29, 2020, November 25, 2020, December 23, 2020, January 21, 2021, February 19, 2021, and on March 18, 2021 to control and prevent the spread of SARS-CoV-2 also known as COVID-19 within the state and both the state of emergency and catastrophic health emergency still exist in Maryland.

Each of these Executive Orders authorized the County to issue a local order requiring additional restrictions on businesses, organizations, establishments, facilities (except schools), and individuals to limit exposure to COVID-19 within the County. County Executive Elrich issued a series of Executive Orders pursuant to this authority. The Council approved each of these Executive Orders and adopted each of them, sitting as the Board of Health, as a Board of Health Regulation.

Governor Hogan issued Executive Order No. 21-03-09-01 on March 9, 2021. Executive Order No. 21-03-09-01 removed many restrictions contained in prior Orders and retracted the authority granted to the County by the Governor to issue a Local Order that was more restrictive than the Governor's Order as of March 12, 2021 at 5 p.m. Although the Governor retracted this authority, the Council, sitting as the Board of Health, has independent authority to issue a public health regulation to continue restrictions to limit the spread of COVID-19 in the County. Md. Health-General Code Ann. § 3-202(d) provides:

- (d) **Nuisances; disease.** -- In addition to the other powers provided by law and subject to the provisions of this article, each county board of health may adopt and enforce rules and regulations on any nuisance or cause of disease in the county.

Md. Local Government Code Ann. § 10-328 provides the County with the following additional authority:

- (a) **In general.** -- A county may provide for the prevention, abatement, and removal of nuisances.
- (b) **Contagious diseases.** -- A county may provide for the prevention of contagious diseases in the county.
- (c) **Regulation of offensive trades.** -- A county may regulate any place where offensive trades are conducted or that may involve or give rise to unsanitary conditions or conditions detrimental to health.
- (d) **Construction.** -- This title does not affect:
 - (1) any power or duty of the Secretary of Health or the Secretary of the Environment; or
 - (2) any public general law relating to health.

Based on this authority, the Council, sitting as the Board of Health, adopted a Board of Health Regulation in Resolution No. 19-760 on March 12, 2021. The Board of Health Regulation adopted in Resolution No. 19-760 loosened some of the local restrictions then in place. On March 19, 2021, the Council, sitting as the Board of Health, adopted the First Amended Board of Health Regulation updating the restrictions on sports events in Resolution No. 19-768. On March 26, 2021, the Council, sitting as the Board of Health, adopted the Second Amended Board of Health Regulation updating the restrictions on spectators at sports events in Resolution No. 19-778. This Board of Health Regulation would amend Resolution No. 19-778.

The First Amended Board of Health Regulation

The First Amended Board of Health Regulation adopted on March 19, 2021 updated the guidance for sports. All organized sports played indoors or outdoors must obtain a COVID Protocol Plan approved by the Health Officer or the Health Officer's designee. The Plan must have a plan for:

1. contact tracing with an attendance tracking sheet that must be completed for all activities conducted;
2. requiring that face coverings be worn per guidelines from the American Academy of Pediatrics;
3. social distancing with at least 6 feet between all participants to the extent possible; and
4. requiring the use of a student attestation form or COVID-19 Athlete/Coach Monitoring Form at all activities conducted.

An organized youth sports league that was approved to operate under a prior Board of Health Regulation and was not classified as a high risk sport was not required to obtain a new

COVID Protocol Plan approved for any event that complies with the gathering limits and restrictions of the prior approval.

Sports played outside of an organized league must follow social gathering guidelines (50 people maximum for outdoor sports and 25 people maximum for indoor sports). All persons must also use a face covering whenever social distancing is not possible. Although the First Amended Board of Health Regulation permitted organized sports to resume in the County, it also prohibited spectators. At the time, the Board of Health made it clear that these restrictions would be reevaluated after additional data was obtained.

Second Amended Board of Health Regulation

The Second Amended Board of Health Regulation permitted spectators at a sports events with the following restrictions:

Two spectators per participating athlete up to a maximum of 50 spectators may be permitted at a sports event if:

1. the site has a barrier to delineate the area for spectators from the area for the participating athletes and coaches;
2. the area for the spectators is large enough to provide for social distancing between all spectators from different households; and
3. all spectators wear face coverings and practice social distancing of at least 6 feet.

The Health Officer or the Officer's designee was authorized to approve a COVID Protocol Plan that includes more than 50 spectators for an event if the Officer finds that the Plan provides for reasonable safety for all participants.

Third Amended Board of Health Regulation

The Third Amended Board of Health Regulation would add guidance on summer camps. This guidance would provide that:

1. Only campers from Maryland, Virginia, and DC would be permitted to attend;
2. Camps must separate participants into groups of 25 for indoor activities and 50 for outdoor activities;
3. Members from a group would not be permitted to mix with members of a different group at the camp;
4. Each camp would be required to have a COVID Protocol Plan approved by the Health Officer or the Health Officer's designee;
5. The Plan would be required to include strategies for social distancing and infection control strategies;
6. A participant who tests positive or who is in close contact with someone who has tested positive would be sent home or remain in quarantine;
7. Sports activities would be required to follow the rules for youth sports;
8. Additional requirements for a residential camp would include a cap of 25 persons in a sleeping area with social distancing and infection control strategies; and

9. Members of each sleeping group must stay with their group for the entire camp session.

Future Regulations

The COVID-19 public health emergency has been a world-wide pandemic for more than one year. The restrictions necessary to limit the community spread of COVID-19 have changed over the past year as the rate of infections, hospitalizations, and deaths has changed. The currently known and available scientific evidence and best practices support continued limitations on large gatherings, increased use of face coverings, and continued social distancing to prevent exposures and transmissions and further mutations of the virus.

As the percentage of County residents are vaccinated against this disease, the community spread should lessen if we continue to practice limiting large gatherings, using face coverings, and socially distancing. The Board of Health and the County Health Officer are committed to continuing to review these regulations on a regular basis with the goal of loosening restrictions as soon as the science supports it.

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND
SITTING AS THE MONTGOMERY COUNTY BOARD OF HEALTH**

Lead Sponsors: Council President Hucker and Council Vice President Alborno

Subject: Third Amended Board of Health Regulation to prevent the spread of COVID-19 in the County

Background

1. Lawrence J. Hogan, the Governor of the State of Maryland declared a state of emergency and catastrophic health emergency on March 5, 2020, and renewed on March 17, 2020, April 10, 2020, May 6, 2020, June 3, 2020, July 1, 2020, July 31, 2020, August 10, 2020, September 8, 2020, October 6, 2020, October 29, 2020, November 25, 2020, December 23, 2020, January 21, 2021, February 19, 2021, and on March 18, 2021 to control and prevent the spread of SARS-CoV-2 also known as COVID-19 within the state and both the state of emergency and catastrophic health emergency still exist in Maryland.
2. The effects of COVID-19 require that local officials be vigilant in advising all individuals in Montgomery County, Maryland of measures they can take to protect health, safety, and welfare.
3. There are multiple COVID-19 variants with the three primary variants being the United Kingdom variant (known as B.1.1.7) which may be associated with an increased risk of death, the South Africa variant (known as B.1.351); and the Brazil variant (known as P.1).
4. The potential consequences of emerging variants include the ability to: spread more quickly in people; cause milder or more severe disease in people; evade detection by specific diagnostic tests; decreased susceptibility to therapeutic agents such as monoclonal antibodies; and further delay or possibly evade natural or vaccine induced immunity.
5. Montgomery County [is the only jurisdiction in Maryland with] has confirmed cases of all three primary variants.
6. It is imperative to control the community spread of COVID-19 to avoid further mutations which give rise to new variants until such time as a sufficient portion of the population of Montgomery County is inoculated against COVID-19.

7. To date only [11.8%] 19.1% of the population of Montgomery County has been vaccinated for COVID-19.
8. COVID-19 in Montgomery County has caused disease in Montgomery County which thus far has claimed the lives of [more than 1400] 1435 Montgomery County residents.
9. The currently known and available scientific evidence and best practices support continued limitations on large gatherings, increased use of face coverings, and continued social distancing to prevent exposures and transmissions and further mutations.
10. To reduce the threat to human health caused by transmission of COVID-19 and to protect and save lives, it is necessary and reasonable that individuals in Montgomery County continue to engage in social distancing, use of face coverings, and refrain from congregating in large groups.
11. It continues to be necessary to control and direct the occupancy and use of buildings and premises, as well as places of amusement and assembly within Montgomery County.
12. Due to Montgomery County's large population and the amount of interstate travel between the District of Columbia and the Commonwealth of Virginia, disease can spread faster.
13. On March 9, Director of the National Institute of Allergy & Infectious Diseases at the NIH and Chief Medical Advisor for COVID-19 to President Biden, Dr. Anthony Fauci, told the Montgomery County Council "Now is the time to keep our foot on the accelerator with regard to adherence to public health measures, such as masking, physical distancing, and other measures that we know work to protect people from the SARS CoV-2 virus, while we are ramping up efforts to vaccinate as many people as we can as quickly as possible."
14. On March 1, CDC Director Rochelle Walensky said, "Please hear me clearly. At this level of cases with variants spreading, we stand to completely lose the hard-earned ground we have gained. These variants are a very real threat to our people and to our progress. Now is not the time to relax the critical safeguards that we know could stop the spread of COVID-19 in our communities, not when we are so close."
15. Both County Health Officer, Dr. Travis Gayles, and County Director of Emergency Management, Dr. Earl Stoddard, recommended a progressive, staged relaxation of restrictions so officials can disaggregate the data and assess the impact of the relaxation of the restrictions in other jurisdictions before deciding what is safest for the residents of Montgomery County.
16. Pursuant to Md. Code Ann. Local Government §10-328(b) a county may provide for the prevention of contagious diseases in the County.
17. A local Board of Health may, pursuant to Md. Code Ann. Health Gen. §3-202(d), adopt and enforce rules and regulations on any cause of disease in the County.

18. Pursuant to Montgomery County Code 2-65, the County Council is and may act as the County Board of Health.
19. The Council, sitting as the Board of Health, adopted a Board of Health Regulation in Resolution No. 19-760 on March 12, 2021. The Council adopted the First Amended Regulation on March 19, 2021 in Resolution No. 19-768. The Council adopted the Second Amended Regulation on March 26, 2021 in Resolution No. 19-778. This Board of Health Regulation would amend Resolution No. [19-768] 19-778.
20. Rule 4(d) of the Council's Rules of Procedure provide that before the Board of Health adopts a regulation, the Council President must advertise a public hearing in a newspaper circulated throughout the County at least 15 days before the hearing and notify the governing body or chief executive officer of each municipality in the County at least 15 days before the hearing. Rule 4(d) allows the President to waive these notice provisions if a public health emergency requires immediate action. The Council President has waived these notice requirements because of the public health emergency caused by COVID-19.
21. The County Council, sitting as the Board of Health, finds after hearing the testimony and other evidence in the record of the public hearing that this public health regulation is necessary to protect the health of County residents.

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND
SITTING AS THE MONTGOMERY COUNTY BOARD OF HEALTH**

Lead Sponsors: Council President Hucker and Council Vice President Alborno

Subject: Third Amended Board of Health Regulation to prevent the spread of COVID-19 in the County

Background

1. Lawrence J. Hogan, the Governor of the State of Maryland declared a state of emergency and catastrophic health emergency on March 5, 2020, and renewed on March 17, 2020, April 10, 2020, May 6, 2020, June 3, 2020, July 1, 2020, July 31, 2020, August 10, 2020, September 8, 2020, October 6, 2020, October 29, 2020, November 25, 2020, December 23, 2020, January 21, 2021, February 19, 2021, and on March 18, 2021 to control and prevent the spread of SARS-CoV-2 also known as COVID-19 within the state and both the state of emergency and catastrophic health emergency still exist in Maryland.
2. The effects of COVID-19 require that local officials be vigilant in advising all individuals in Montgomery County, Maryland of measures they can take to protect health, safety, and welfare.
3. There are multiple COVID-19 variants with the three primary variants being the United Kingdom variant (known as B.1.1.7) which may be associated with an increased risk of death, the South Africa variant (known as B.1.351); and the Brazil variant (known as P.1).
4. The potential consequences of emerging variants include the ability to: spread more quickly in people; cause milder or more severe disease in people; evade detection by specific diagnostic tests; decreased susceptibility to therapeutic agents such as monoclonal antibodies; and further delay or possibly evade natural or vaccine induced immunity.
5. Montgomery County has confirmed cases of all three primary variants.
6. It is imperative to control the community spread of COVID-19 to avoid further mutations which give rise to new variants until such time as a sufficient portion of the population of Montgomery County is inoculated against COVID-19.
7. To date only 19.1% of the population of Montgomery County has been vaccinated for COVID-19.

8. COVID-19 in Montgomery County has caused disease in Montgomery County which thus far has claimed the lives of 1435 Montgomery County residents.
9. The currently known and available scientific evidence and best practices support continued limitations on large gatherings, increased use of face coverings, and continued social distancing to prevent exposures and transmissions and further mutations.
10. To reduce the threat to human health caused by transmission of COVID-19 and to protect and save lives, it is necessary and reasonable that individuals in Montgomery County continue to engage in social distancing, use of face coverings, and refrain from congregating in large groups.
11. It continues to be necessary to control and direct the occupancy and use of buildings and premises, as well as places of amusement and assembly within Montgomery County.
12. Due to Montgomery County's large population and the amount of interstate travel between the District of Columbia and the Commonwealth of Virginia, disease can spread faster.
13. On March 9, Director of the National Institute of Allergy & Infectious Diseases at the NIH and Chief Medical Advisor for COVID-19 to President Biden, Dr. Anthony Fauci, told the Montgomery County Council "Now is the time to keep our foot on the accelerator with regard to adherence to public health measures, such as masking, physical distancing, and other measures that we know work to protect people from the SARS CoV-2 virus, while we are ramping up efforts to vaccinate as many people as we can as quickly as possible."
14. On March 1, CDC Director Rochelle Walensky said, "Please hear me clearly. At this level of cases with variants spreading, we stand to completely lose the hard-earned ground we have gained. These variants are a very real threat to our people and to our progress. Now is not the time to relax the critical safeguards that we know could stop the spread of COVID-19 in our communities, not when we are so close."
15. Both County Health Officer, Dr. Travis Gayles, and County Director of Emergency Management, Dr. Earl Stoddard, recommended a progressive, staged relaxation of restrictions so officials can disaggregate the data and assess the impact of the relaxation of the restrictions in other jurisdictions before deciding what is safest for the residents of Montgomery County.
16. Pursuant to Md. Code Ann. Local Government §10-328(b) a county may provide for the prevention of contagious diseases in the County.
17. A local Board of Health may, pursuant to Md. Code Ann. Health Gen. §3-202(d), adopt and enforce rules and regulations on any cause of disease in the County.
18. Pursuant to Montgomery County Code 2-65, the County Council is and may act as the County Board of Health.

19. The Council, sitting as the Board of Health, adopted a Board of Health Regulation in Resolution No. 19-760 on March 12, 2021. The Council adopted the First Amended Regulation on March 19, 2021 in Resolution No. 19-768. The Council adopted the Second Amended Regulation on March 26, 2021 in Resolution No. 19-778. This Board of Health Regulation would amend Resolution No. 19-778.
20. Rule 4(d) of the Council's Rules of Procedure provide that before the Board of Health adopts a regulation, the Council President must advertise a public hearing in a newspaper circulated throughout the County at least 15 days before the hearing and notify the governing body or chief executive officer of each municipality in the County at least 15 days before the hearing. Rule 4(d) allows the President to waive these notice provisions if a public health emergency requires immediate action. The Council President has waived these notice requirements because of the public health emergency caused by COVID-19.
21. The County Council, sitting as the Board of Health, finds after hearing the testimony and other evidence in the record of the public hearing that this public health regulation is necessary to protect the health of County residents.
