AGENDA ITEM #18
July 26, 2022
Public Hearing/Action

SUBJECT

Supplemental Appropriation #23-2 to the FY23 Operating Budget Montgomery County Government Department of Health and Human Services National Suicide Prevention Hotline Transition to 988 Lifeline Call Center Grant, \$517,608 (Source of Funds: Grants Funds)

EXPECTED ATTENDEES

None

COUNCIL DECISION POINTS & COMMITTEE RECOMMENDATION

- No Committee recommendation. A motion is required.
- Special Appropriation was introduced on July 12, 2022.

DESCRIPTION/ISSUE

The Supplemental Appropriation to the Department of Health and Human Services (DHHS) FY23 Operating Budget of \$517,608 will fund the Montgomery County, Maryland Crisis Hotline and Online Emotional Support text and chat services in the transition of the National Suicide Prevention Hotline to the 988 Lifeline Call Center. The funds will support operational and administrative costs related to supplying Lifeline/988 hotline services, technology/phone equipment and services, and related expenses associated with electronic health records.

SUMMARY OF KEY DISCUSSION POINTS

- This funding is needed to support EveryMind as it transitions to the 988 Lifeline Center Funds.
- The grant funding is provided through the Maryland Behavioral Health Administration.

- The non-competitive contract for EveryMind, Inc. is already included in Section G of Resolution 19-1285 that the Council approved for FY23.
- The Office of Racial Equity and Social Justice found that the supplemental appropriation is “likely to support universal suicide prevention efforts in the County, but available information does not indicate to what extent existing suicide statistics and those most impacted by suicide risk factors will be centered in the outreach, communications, or supportive services related to the hotline.”

OFFICE OF THE COUNTY EXECUTIVE

Marc Elrich
County Executive

M E M O R A N D U M

July 5, 2022

TO: Gabe Albornoz, President
Montgomery County Council

FROM: Marc Elrich, County Executive 

SUBJECT: Supplemental Appropriation #23-2 to the FY23 Operating Budget
Montgomery County Government
Department of Health and Human Services
National Suicide Prevention Hotline Transition to 988 Lifeline Call Center Grant,
\$517,608 (Source of Funds: Grants Funds)

I am recommending a supplemental appropriation to the FY23 Operating Budget of the Department of Health and Human Services in the amount of \$517,608 for the National Suicide Prevention Hotline Transition to the 988 Lifeline Call Center Grant. This appropriation will fund the Montgomery County, Maryland Crisis Hotline and Online Emotional Support text and chat services in their transition to 988.

This increase is needed to support EveryMind as it transitions to the 988 Lifeline Center. Through the Behavioral Health Administration, the State of Maryland provides these funds to help cover operational and administrative costs related to supplying Lifeline/988 hotline services, technology/phone equipment and services, and related expenses associated with electronic health records.

The non-competitive contract for EveryMind, Inc. is already included in Section G of Resolution 19-1285 that the Council approved for FY23.

I recommend that the County Council approve this supplemental appropriation in the amount of \$517,608 and specify the source of funds as Grant Funds.

I appreciate your prompt consideration of this action.

Adopted: _____

COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND

Lead Sponsor: Council President at the Request of the County Executive

SUBJECT: Supplemental Appropriation #23-2 to the FY23 Operating Budget
Montgomery County Government
Department of Health and Human Services
National Suicide Prevention Hotline Transition to 988 Lifeline Call Center Grant,
\$517,608 (Source of Funds: Grant Funds)

Background

1. Section 307 of the Montgomery County Charter provides that any supplemental appropriation shall be recommended by the County Executive who shall specify the source of funds to finance it. The Council shall hold a public hearing on each proposed supplemental appropriation after at least one week's notice. A supplemental appropriation that would comply with, avail the County of, or put into effect a grant or a Federal, State or County law or regulation, or one that is approved after January 1 of any fiscal year, requires an affirmative vote of five Councilmembers. A supplemental appropriation for any other purpose that is approved before January 1 of any fiscal year requires an affirmative vote of six Councilmembers. The Council may, in a single action, approve more than one supplemental appropriation. The Executive may disapprove or reduce a supplemental appropriation, and the Council may reapprove the appropriation, as if it were an item in the annual budget.
2. The County Executive has requested the following FY23 Operating Budget appropriation increases for the Department of Health and Human Services:

<u>Personnel Services</u>	<u>Operating Expenses</u>	<u>Capital Outlay</u>	<u>Total</u>	<u>Source of Funds</u>
\$0	\$517,608	\$0	\$517,608	Grant Funds

3. This increase is needed to support EveryMind as it transitions to the 988 Lifeline Call Center. Through the Behavioral Health Administration, the State of Maryland provides these funds to help cover operational and administrative costs related to supplying Lifeline/988 hotline services, technology/phone equipment and services, and related expenses associated with electronic health records.
4. Notice of public hearing was given, and a public hearing was held.

Action

The County Council for Montgomery County, Maryland, approves the following action:

A supplemental appropriation to the FY23 Operating Budget of the Department of Health and Human Services is approved as follows:

<u>Personnel Services</u>	<u>Operating Expenses</u>	<u>Capital Outlay</u>	<u>Total</u>	<u>Source of Funds</u>
\$0	\$517,608	\$0	\$517,608	Grant Funds

This is a correct copy of Council action.

MEMORANDUM

July 19, 2022

To: Jennifer Bryant, Director
Office of Management and Budget

cc: Gabe Albornoz, President
County Council

From: Tiffany Ward, Director
Office of Racial Equity and Social Justice

Re: Racial Equity Impact Assessment (REIA) for Supplemental Appropriation (SA) #23-02
988 Lifeline Call Center

A handwritten signature in black ink that reads "Tiffany Ward".

1. **FINDING:** The Office of Racial Equity and Social Justice (ORESJ) finds that Supplemental Appropriation #23-02 988 *Lifeline Call Center* is likely to support universal suicide prevention efforts in the County, but available information does not indicate to what extent existing suicide statistics and those most impacted by suicide risk factors will be centered in the outreach, communications, or supportive services related to the hotline. Therefore, ORESJ's finding is inconclusive.
2. **BACKGROUND:** The purpose of Supplemental Appropriation #23-02 988 Lifeline Call Center is to fund the Montgomery County, MD Crisis Hotline and Online Emotional Support as it transitions to 988. Funding will be used to enhance call capability during the transition, and services will be carried out by EveryMind. The 988 hotline provides free intervention services to those experiencing mental health, suicidal ideation, and/or substance use emergencies. In the third quarter of FY22, the hotline completed 3,112 suicide screenings via phone, text, or chat. According to information accompany this request, 86% of hotline users reported feeling better after communicating with someone at the Hotline.

In December 2021, ORESJ conducted two Racial Equity Impact Assessments (REIAs) that explored the systemic factors producing disparate mental health outcomes by race, ethnicity, and other demographic groups. These two REIA's highlighted persistent treatment gaps for mental illness as well as the criminalization of mental illness that disproportionately impacts Black, Indigenous, and People of Color (BIPOC) communities. Therefore, ORESJ recommends those considering Supplemental Appropriation #23-02 do so by first reviewing the following:

- I. REIA of Supplemental Appropriation #22-36 SAMHSA Community Block Grant:
<https://www.montgomerycountymd.gov/ore/Resources/Files/22-36.pdf>
- II. REIA of Supplemental Appropriation #22-43 Crisis 2 Connection:
<https://www.montgomerycountymd.gov/ore/Resources/Files/22-43.pdf>

Because Supplemental Appropriation #23-02 relates specifically to suicide prevention, ORESJ looked at national and local statistics to understand who is most impacted and to what extent there are gaps in care or suicide prevention interventions. The Centers for Disease Control and Prevention (CDC) reports that suicide rates differ by a number of demographic factors in the US¹. The following are data points reported by the CDC. Where possible, we have provided local Montgomery County, MD data:

- Suicide is the third leading cause of death for young people, among youth ages 10-14 suicide is the second leading cause of death.
- Older adults, age 75+ have the highest suicide rate, though they account for the smallest proportion of suicides in the US.
 - In Montgomery County, the suicide related mortality rate highest among ages 18 to 34, followed by 65+²
- Among high school students, the suicide rate is four times higher among students who identify as lesbian, gay, or bisexual.
 - The percent of high school students who report seriously considering attempting suicide in Montgomery County was 30 percentages points higher for Lesbian, Gay, and Bisexual students than heterosexual students in 2018³.
- People who have previously served in the military have an adjusted suicide rate that is 52.3% greater than the non-veteran US population.
- Age-adjusted suicide rates are highest among Non-Hispanic American Indian/Alaska Native people.

¹ The following data points are from The Centers for Disease Control and Prevention "Disparities in Suicide" page. Available at: <https://www.cdc.gov/suicide/facts/disparities-in-suicide.html>

² Health in Montgomery County. 2010-2019. A Surveillance Report on Public Health. Figure 138.

<https://www.montgomerycountymd.gov/HHS/Resources/Files/Health%20in%20Montgomery%20County%202010-19.pdf>

³ Health in Montgomery County. 2010-2019. A Surveillance Report on Public Health. Table 30 B.

<https://www.montgomerycountymd.gov/HHS/Resources/Files/Health%20in%20Montgomery%20County%202010-19.pdf>

- Suicide is the 12th leading cause of death for both Hispanic and non-Hispanic people of all races. However, between 2019 and 2020 the age adjusted suicide rate decreased 4.5% among non-Hispanic White people while the rate increased 4.0% among non-Hispanic Black people and 6.2% among non-Hispanic American Indian/Alaska Native.
 - In Montgomery County, the suicide related age-adjusted mortality rate was higher among males than females. The rate was highest for non-Hispanic White people at 11.3, followed by 6.1 for non-Hispanic Black people and 5.7 for Asian/Pacific Islander populations. The rate was lowest among the Hispanic population at 3.7⁴.
 - Suicide related ER visits were highest among non-Hispanic Black people at 546.7, followed by Hispanic people at 367.9 and Non-Hispanic White people at 364.4; ER visits were lowest among Asian/Pacific Islander populations at 134.4.
 - Gaps in the suicide related hospitalization age-adjusted rates are much smaller. The rate among non-Hispanic White people is 57; for non-Hispanic Black people the rate is 50 and for Hispanic people the rate is 31.1. The rate for Asian/Pacific Islander populations is 16.8.
- In a 2021 survey, adults with disabilities were three times more likely to report suicidal ideation in the past month compared to non-disabled people.
- Suicide rates differ by industry and occupation. For example, the Mining, Quarrying, and Oil and Gas Extraction industry and occupations in construction and extraction had the highest suicide rates.
- Suicide rates tend to increase as population density decreases.

Research suggests (as demonstrated above) that suicide mortality is not the only measure of harm associated with suicide and that a number of factors influence depression, serious mental illness, or attempted suicide⁵. A 2017 report from the National Center for Injury Prevention and Control, Centers for Disease Control and Prevention highlights several risk and preventative factors along with strategies to support prevention:

- Strengthen economic supports;
- Strengthen access and delivery of suicide care;
- Create protective environments—reduced access to lethal means, community-based policies to reduce excessive alcohol use;
- Promote connectedness;
- Teach coping and problem solving;

- Identify and support people at risk; and
- Lessen harms and prevent future risk.

A deeper analysis—beyond the scope of this REIA—is necessary to uncover the specific factors in Montgomery County resulting in higher rates of suicide related ER visits among Black and Hispanic populations, and higher rates of suicide related mortality among White populations. Looking more closely at these factors will help providers and policymakers understand where different kinds of interventions or systems changes may be necessary to reach and provide care, particularly for those disproportionately impacted by suicide risk factors. Using a racial equity lens in this analysis, will help identify strategies with the greatest potential of addressing underlying health and economic inequities affecting suicide risk factors for all residents in Montgomery County.
