**SUMMARY:** This regulation adds Section I titled “Permits with Maryland-National Capital Park and Planning Commission (MNCPPC) Site Plan Approval”. This section increases fees for permits with MNCPPC site plan approval by 25%. On November 8, 2005, the County Council approved a special appropriation to the FY06 Operating Budget for the Department of Permitting Services for the creation of site plan enforcement inspection and review process. This special appropriation was needed to ensure that the Department of Permitting Services has sufficient resources to conduct height and setback inspections related to building permits for properties in zones that require site plan approval by the MNCPPC. All subsequent sections have been renumbered accordingly. The special appropriation also ensures that the Department of Permitting Services has the resources necessary to investigate complaints, attend administrative hearings, and represent the department in Court with regard to issues arising from these inspections. Fees for Well Location-Permits subject to MNCPPC site plan approval were also increased. This regulation, in general, sets fees that cover the administration, plan-review and enforcement programs of the Department of Permitting Services.

This regulation also changes Section I. Building to Section II. Building Permits Without Maryland-National Capital Park and Planning Commission (MNCPPC) Site Plan Approval. The fees for retaining walls have also been corrected. This regulation has also been revised to include information previously omitted regarding electrical permits for air conditioners and Use and Occupancy Certificate.

**BACKGROUND INFORMATION:** Whereas this regulation primarily affects changes in fees for building permits with Maryland-National Capital Park and Planning Commission (MNCPPC) site plan approvals, the regulation continues to allow the Department of Permitting Services to adjust all fees annually. The Department of Permitting Services was established as a fee-supported enterprise within the Executive Branch of Montgomery County in 1996. Fees that support the Department are established by Method 2 or Method 3 Executive Regulations and by County Council resolution. The Department of Permitting Services may raise fees annually by regulation by a percentage that does not exceed the rate of the increase (if any) in the department's approved personnel costs for the then-current fiscal year compared to the approved personnel costs for the preceding fiscal year. These cost increases reflect negotiated labor agreements, employee-benefit cost adjustments, proficiency advancements, and other personnel cost factors. Where possible, productivity enhancements will be made to minimize fee increases.
